

Synthesis: The Product Knowledge Command Center

Stop searching. Start answering. Transform how you manage the chaos of 8,000 product files.

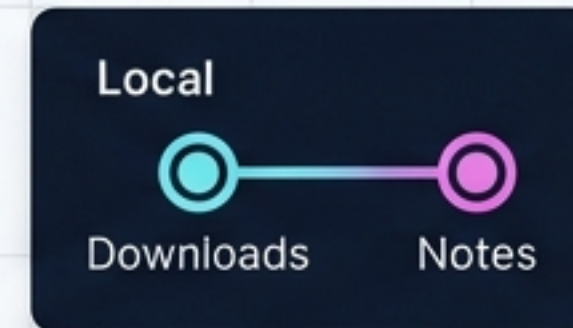

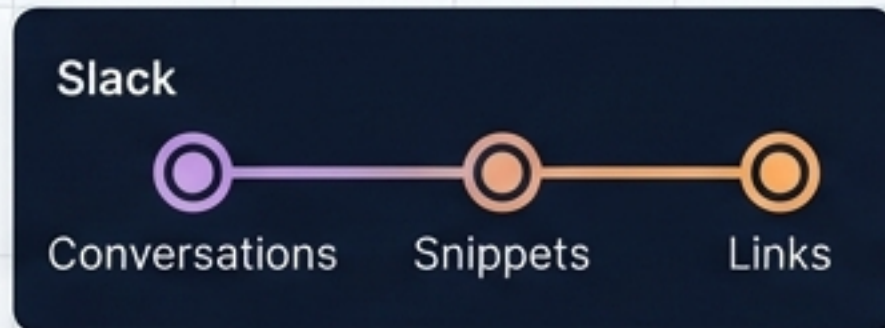

Your Product Truth Has Fragmented

You manage a product with 200 features across 8,000 files.

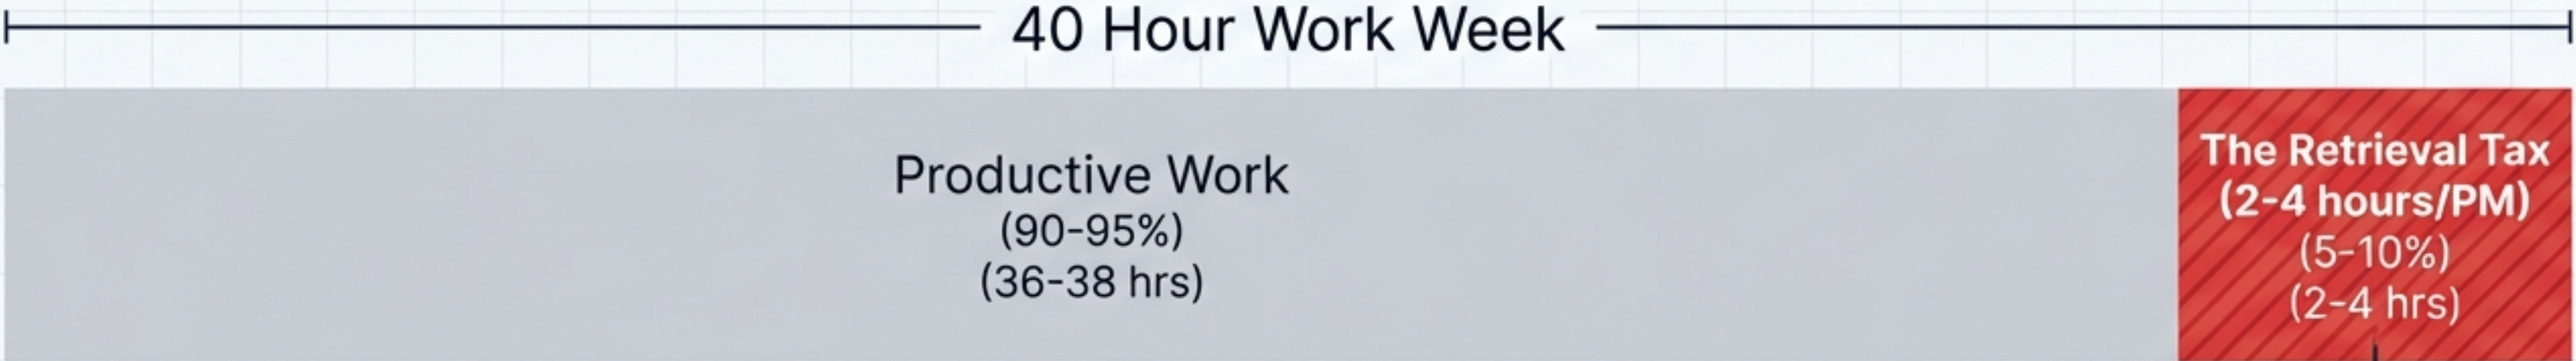

Where It Lives

Over 3 years, knowledge has scattered into silos.

The Hidden Salary You Pay for Retrieval

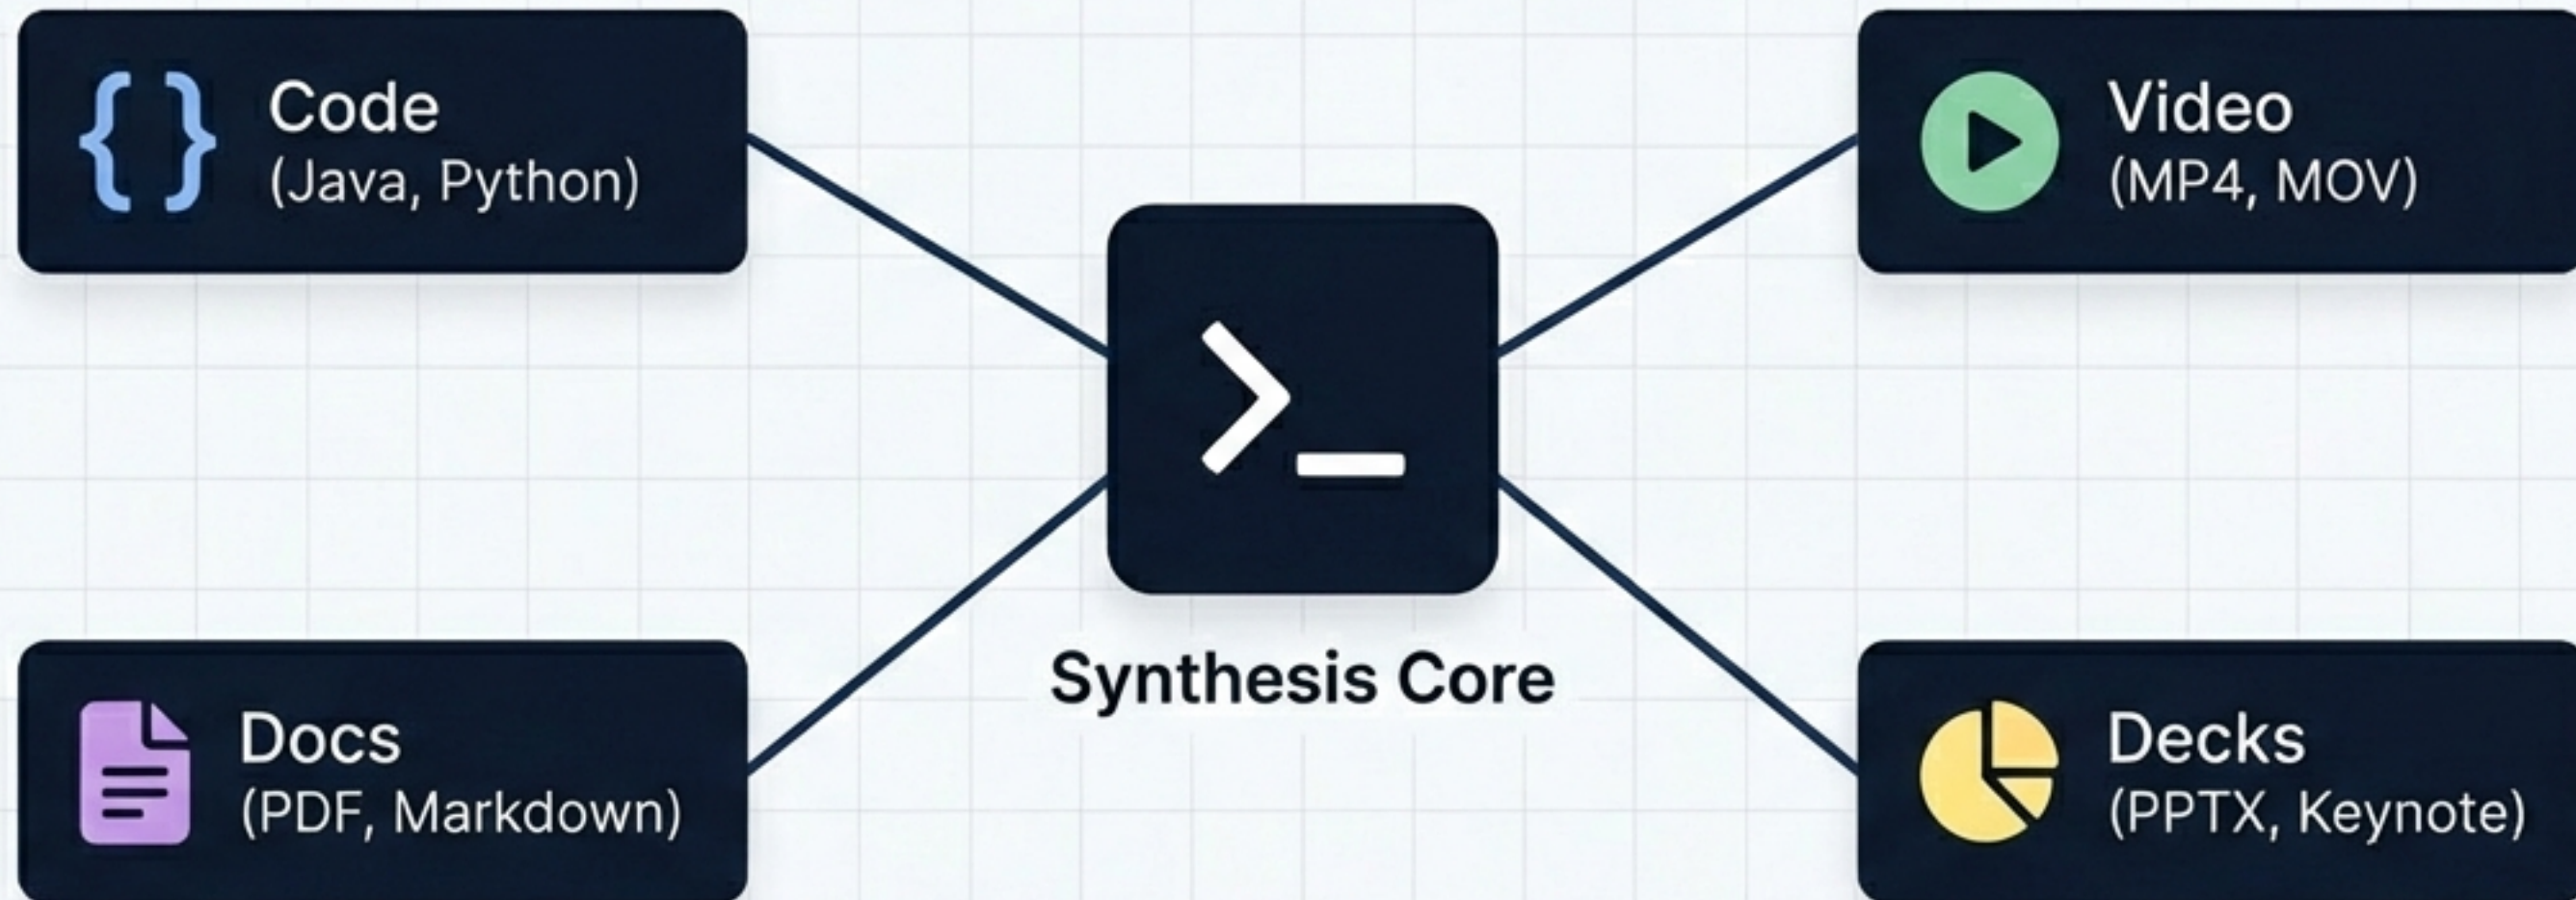

On a 5-person team, this equals
1 full-time salary wasted.

	Artifact Type	Location	Search Time per Instance
1	Feature Demo Videos	Buried in Slack	5–20 min search
2	Architecture Diagrams	Stale Confluence	20–60 min search
3	Feature Documentation	Scattered Wikis	15–45 min search

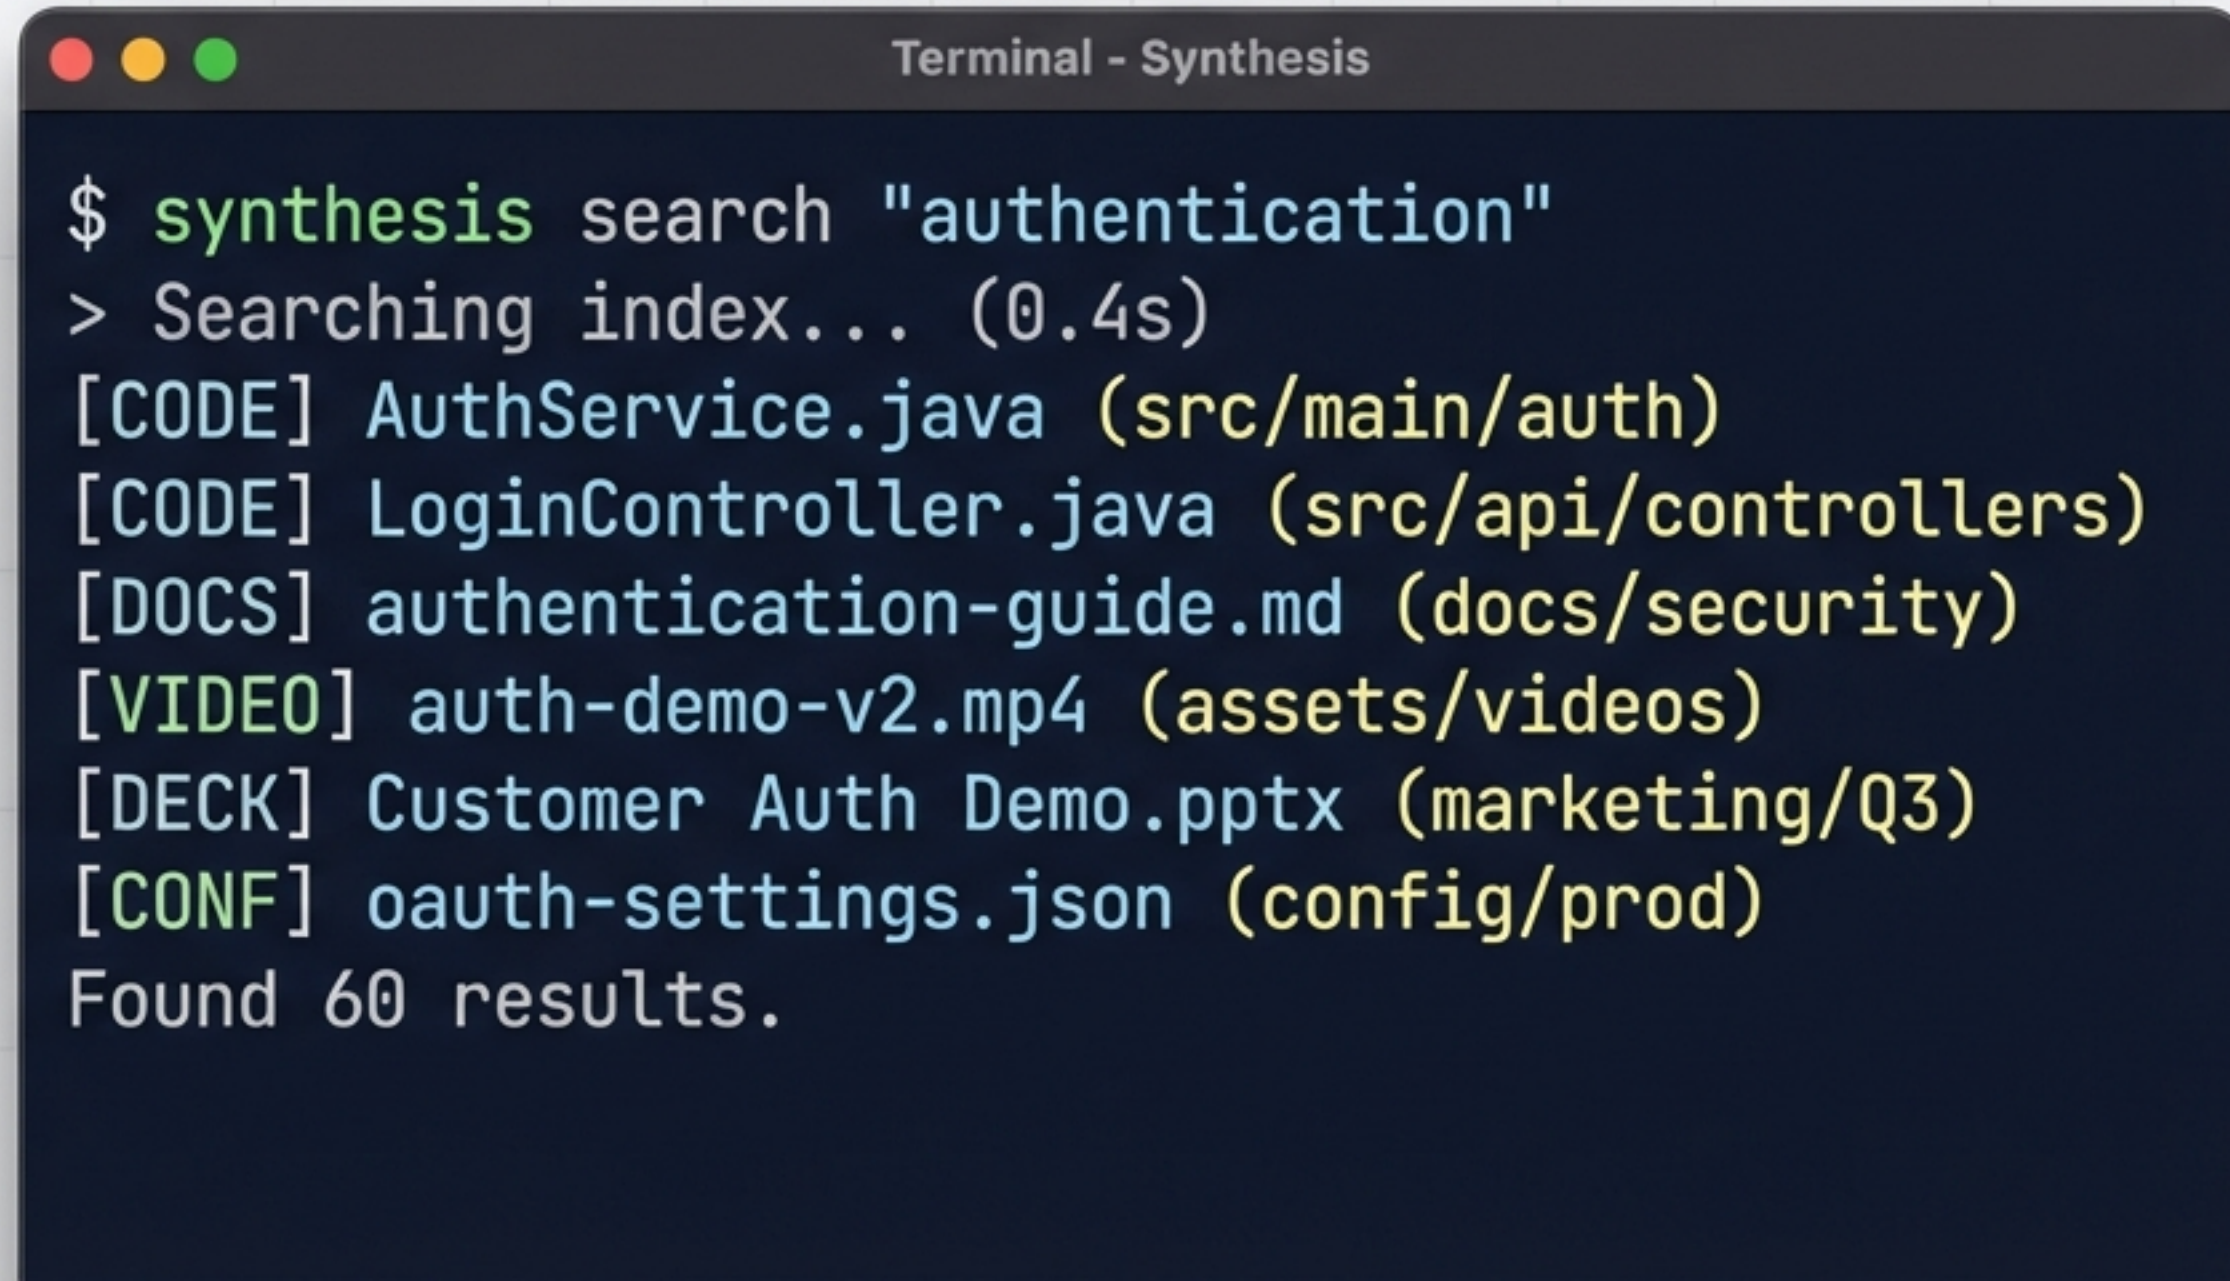

Index Everything. Search Anywhere.

Your Single Source of Truth, Accessed in 0.4 Seconds.

Indexes code, docs, videos, and presentations into one searchable CLI.

One Command. Four Formats. 0.4 Seconds.

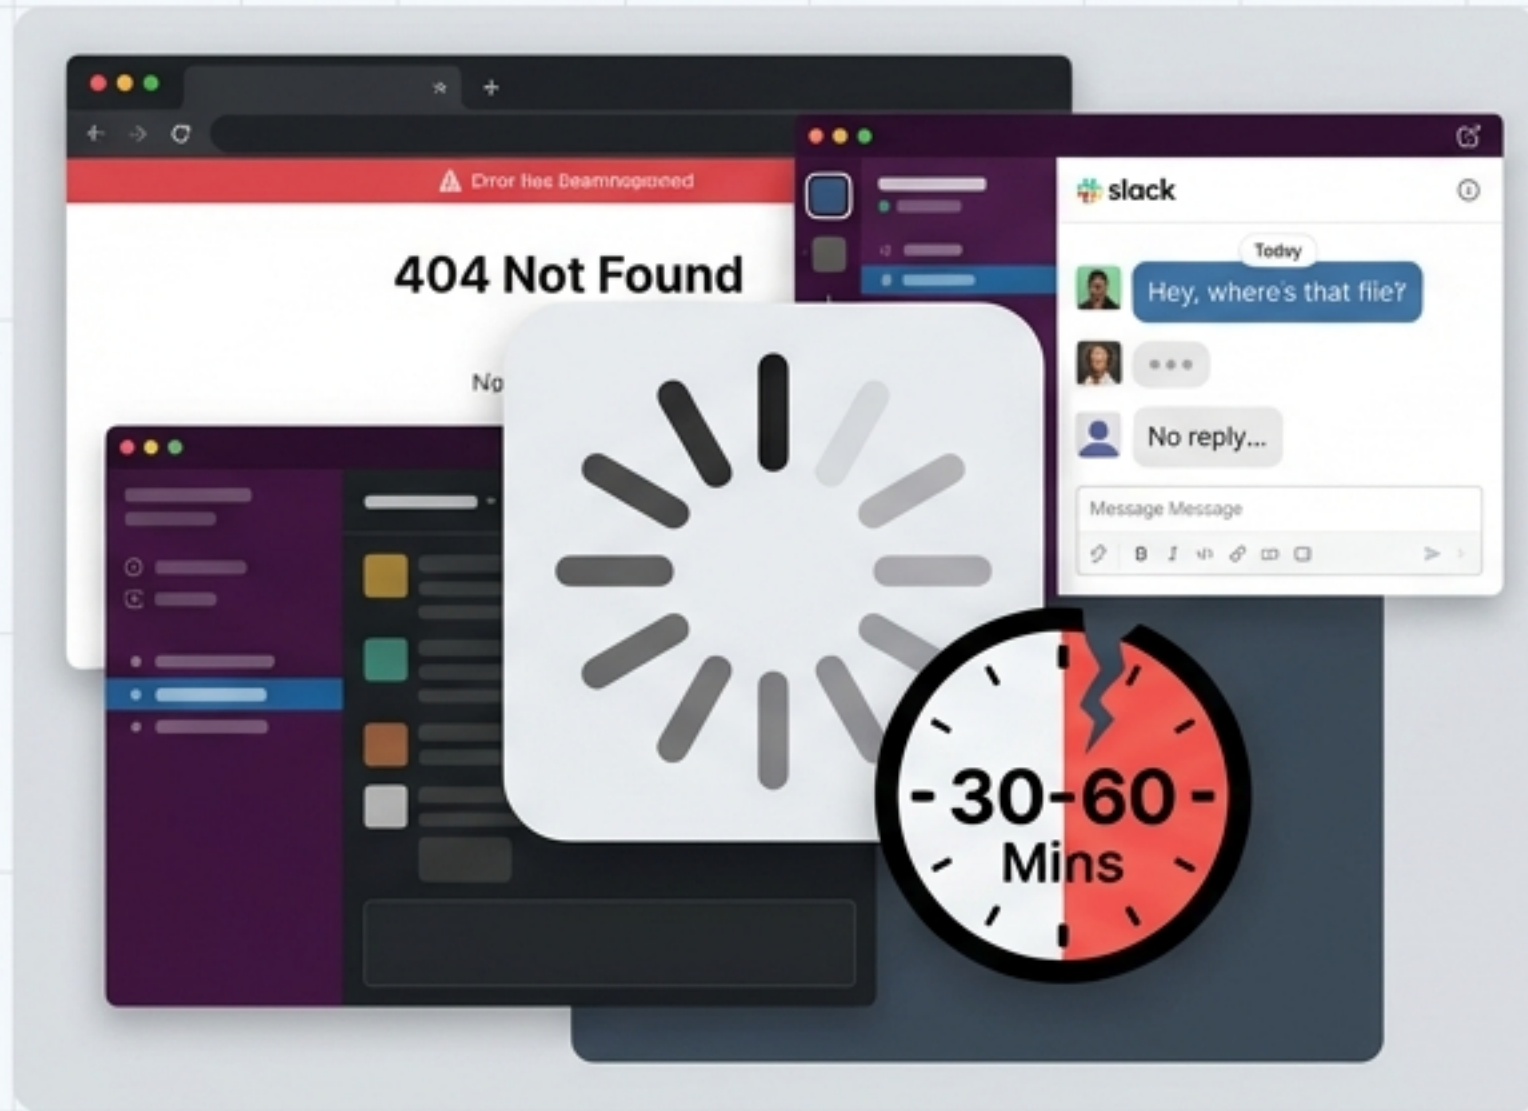

A terminal window titled "Terminal - Synthesis" with a dark background and light-colored text. It shows a command being executed and its output. The command is `$ synthesis search "authentication"`. The output starts with `> Searching index... (0.4s)`, followed by a list of search results, each on a new line. The results are: `[CODE] AuthService.java (src/main/auth)`, `[CODE] LoginController.java (src/api/controllers)`, `[DOCS] authentication-guide.md (docs/security)`, `[VIDEO] auth-demo-v2.mp4 (assets/videos)`, `[DECK] Customer Auth Demo.pptx (marketing/Q3)`, and `[CONF] oauth-settings.json (config/prod)`. The final line of output is `Found 60 results.`.

```
Terminal - Synthesis

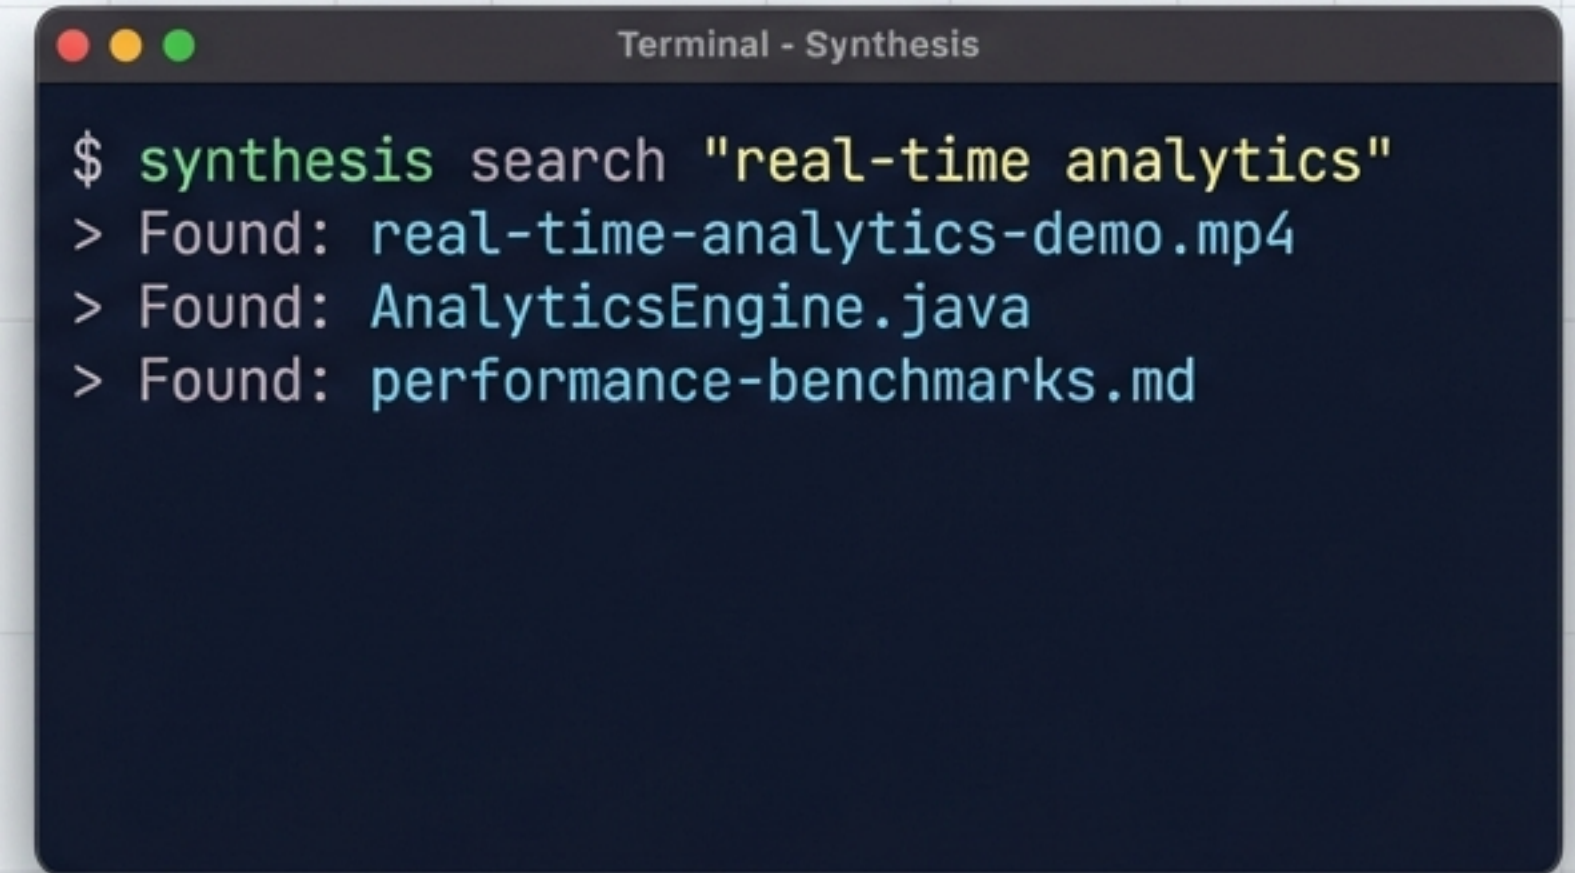

$ synthesis search "authentication"
> Searching index... (0.4s)
[CODE] AuthService.java (src/main/auth)
[CODE] LoginController.java (src/api/controllers)
[DOCS] authentication-guide.md (docs/security)
[VIDEO] auth-demo-v2.mp4 (assets/videos)
[DECK] Customer Auth Demo.pptx (marketing/Q3)
[CONF] oauth-settings.json (config/prod)
Found 60 results.
```
