

THE ARCHITECTURE OF INTELLIGENCE

Visualizing the Cross-Company Knowledge Graph

REPORT DATE: FEBRUARY 11, 2026
SCOPE: 5 ORGANIZATIONAL ENTITIES
AUTHOR: THOR HENNING HETLAND WITH CLAUDE SONNET 4.5

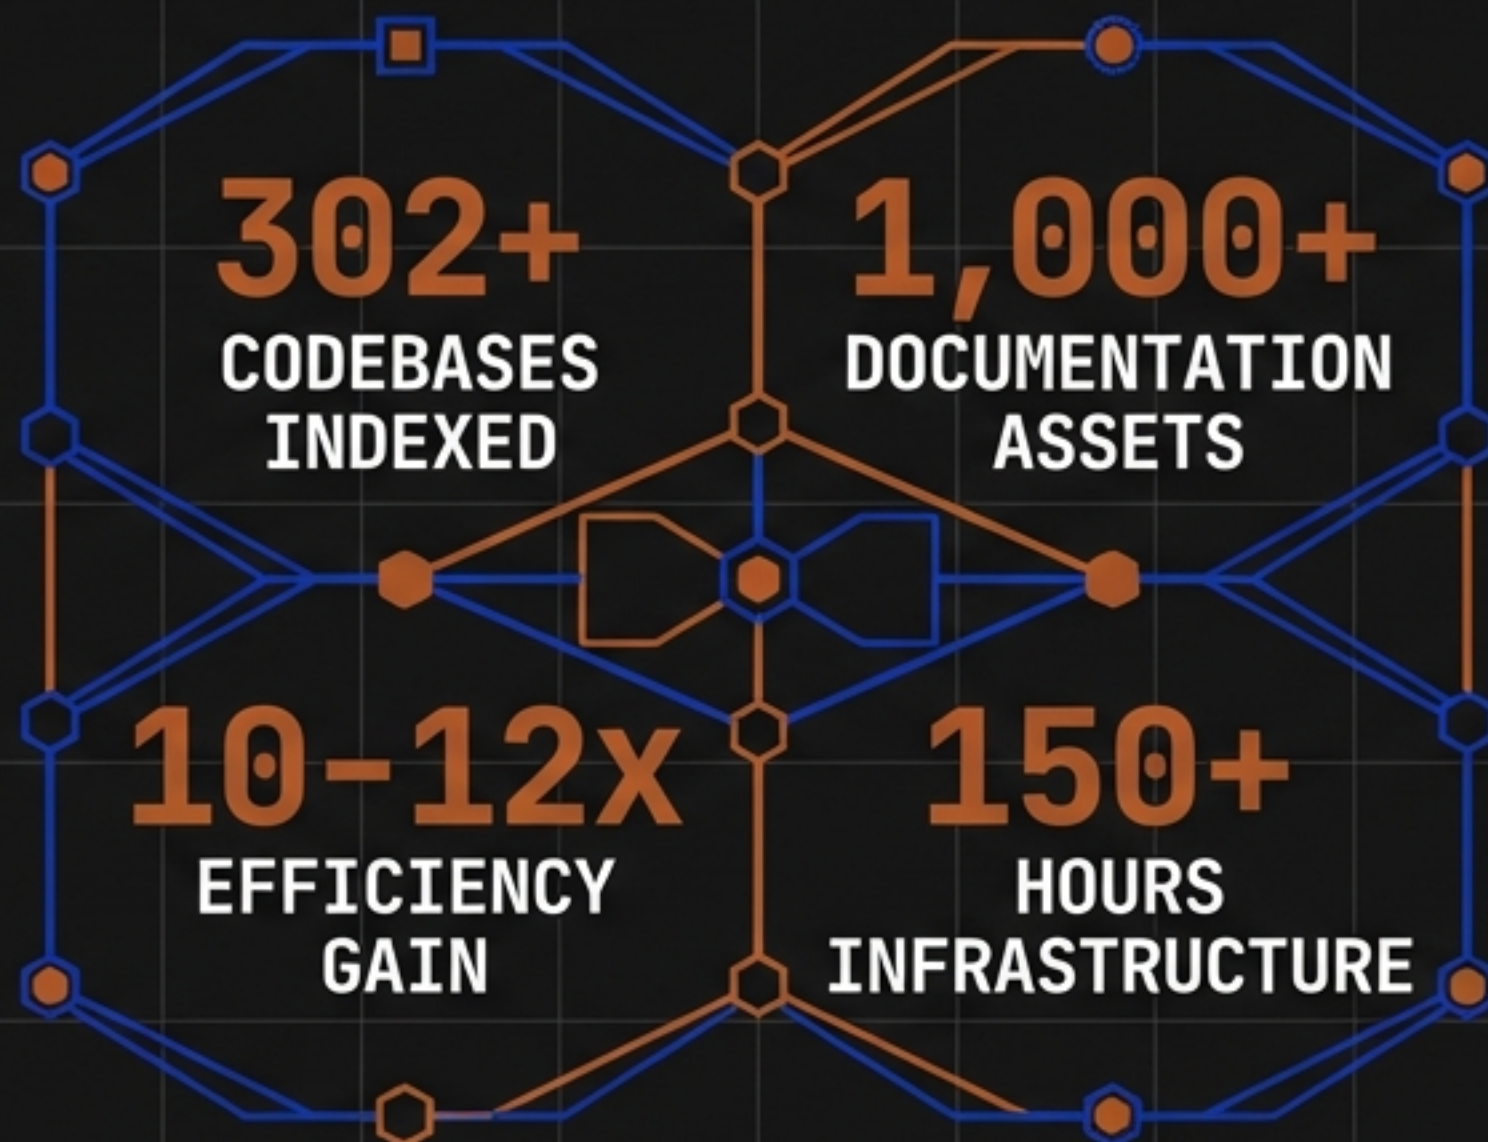

FROM TRIBAL KNOWLEDGE TO QUANTIFIED INTELLIGENCE

UNSTRUCTURED APPROACH

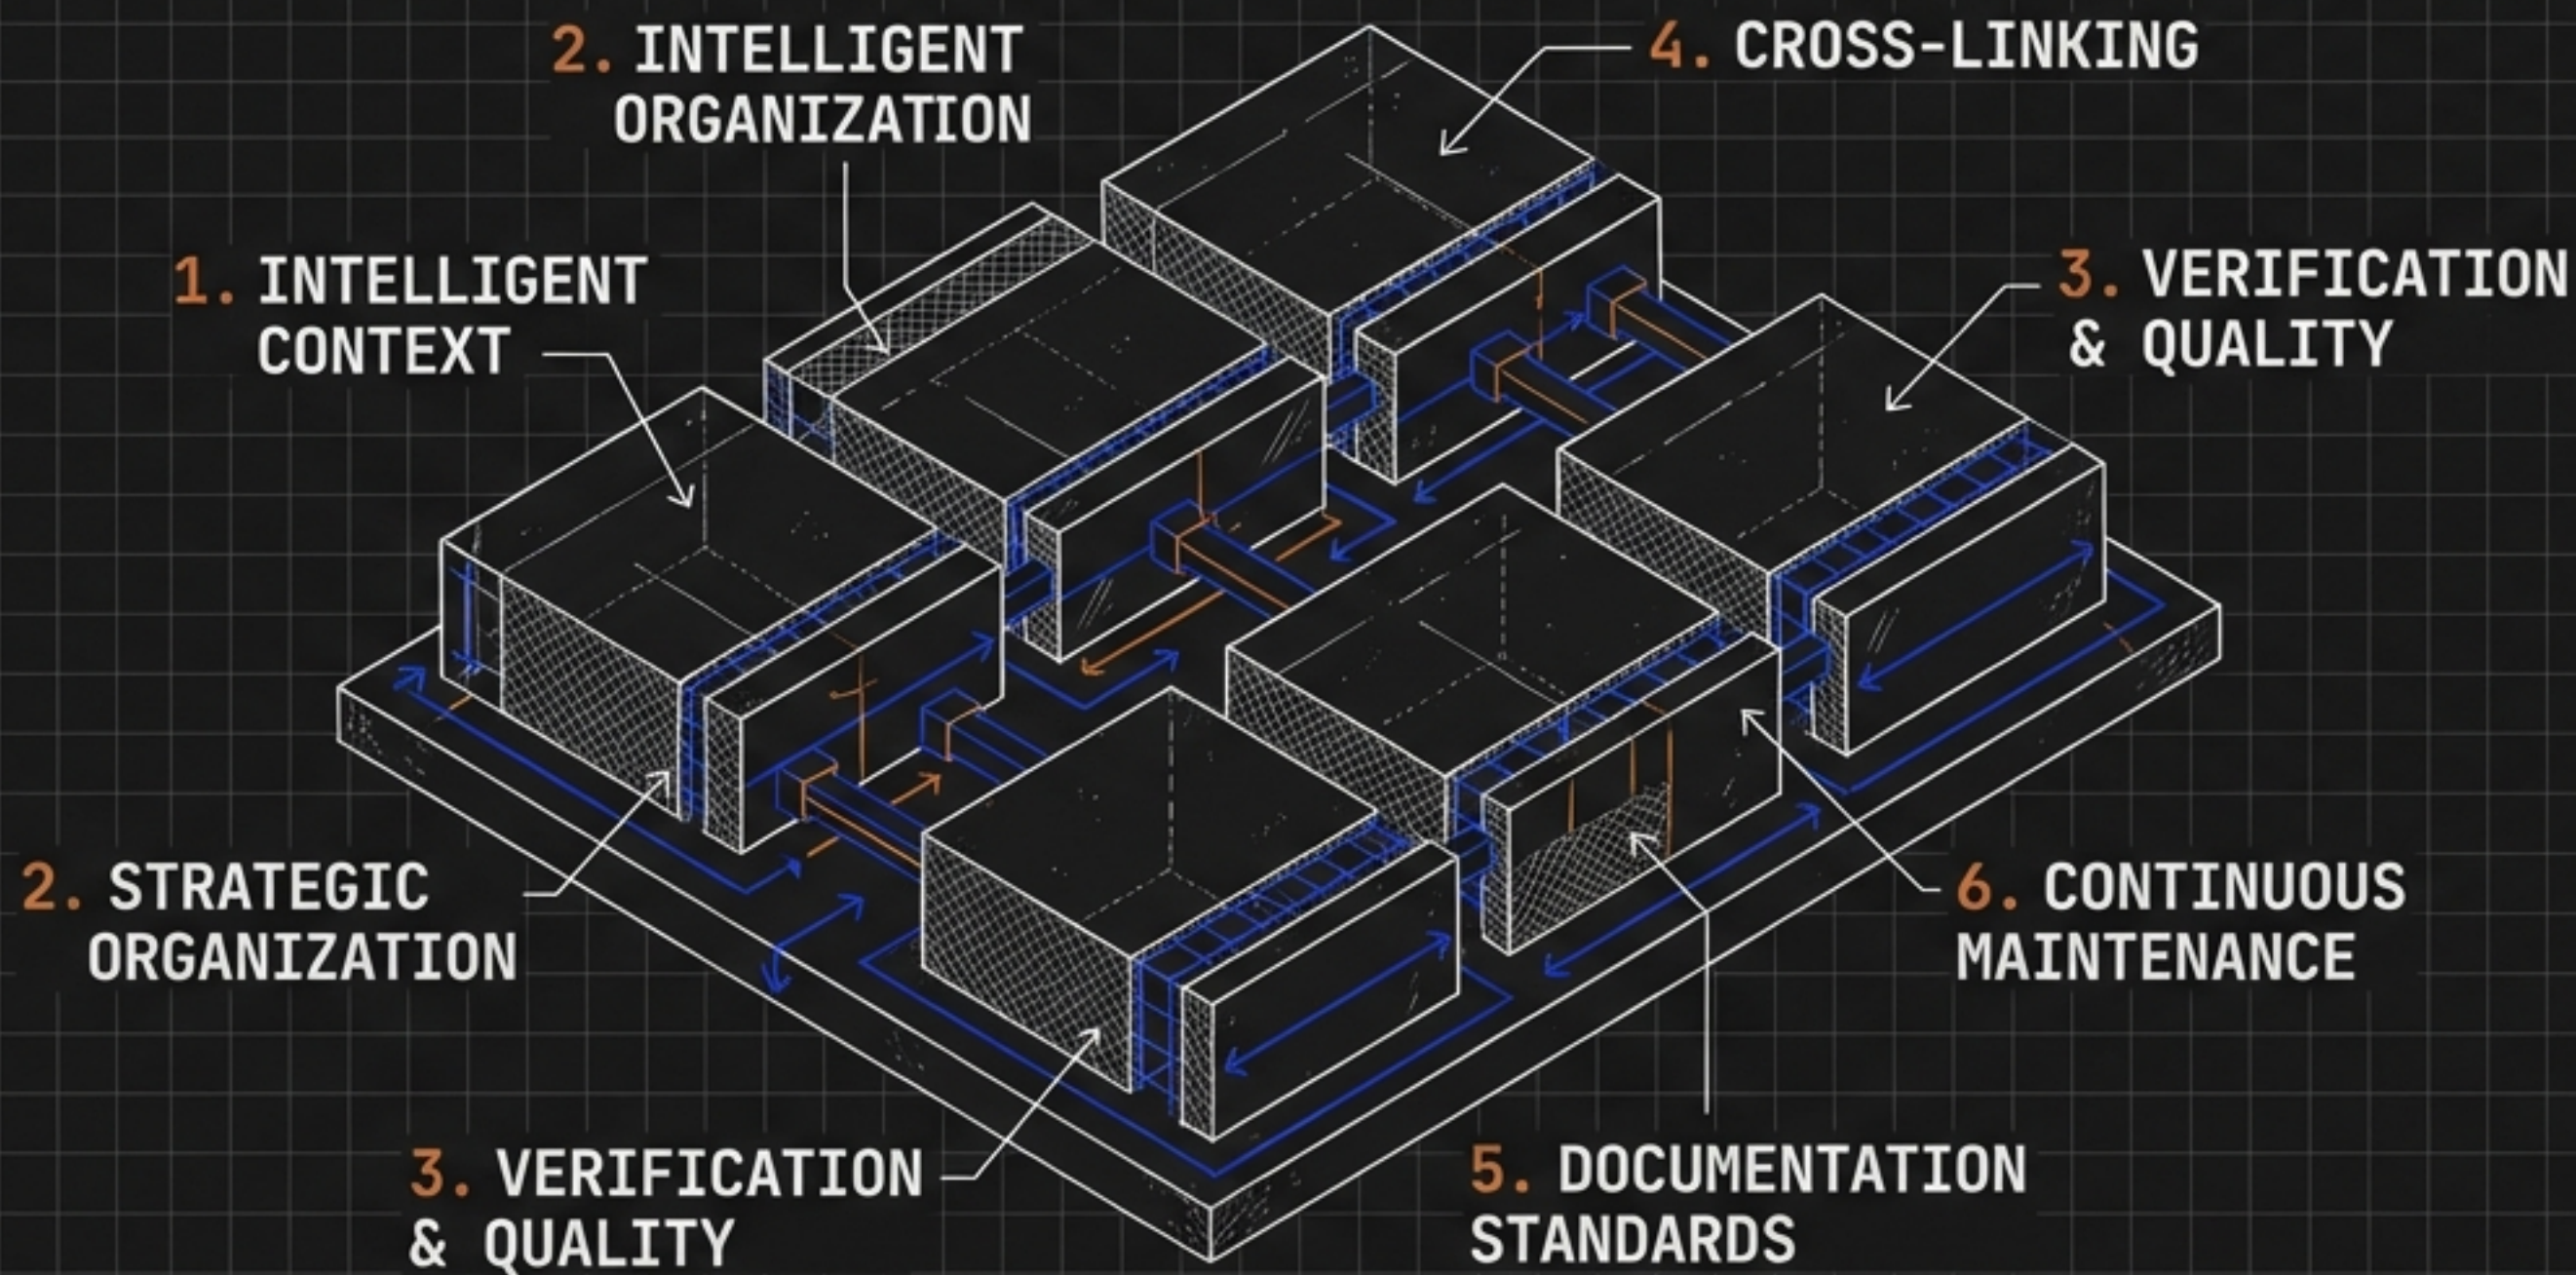

- Tribal Knowledge Dependency
- 10-30 min Retrieval Times
- Hidden Patterns & Lost Context

CURRENT STATE (FEB 2026)

The system replaces hours of searching with minutes of retrieval.

THE OPERATING SYSTEM: 6 PILLARS OF INFRASTRUCTURE

TRACKED ASSETS

Code Repositories

PDF Archives

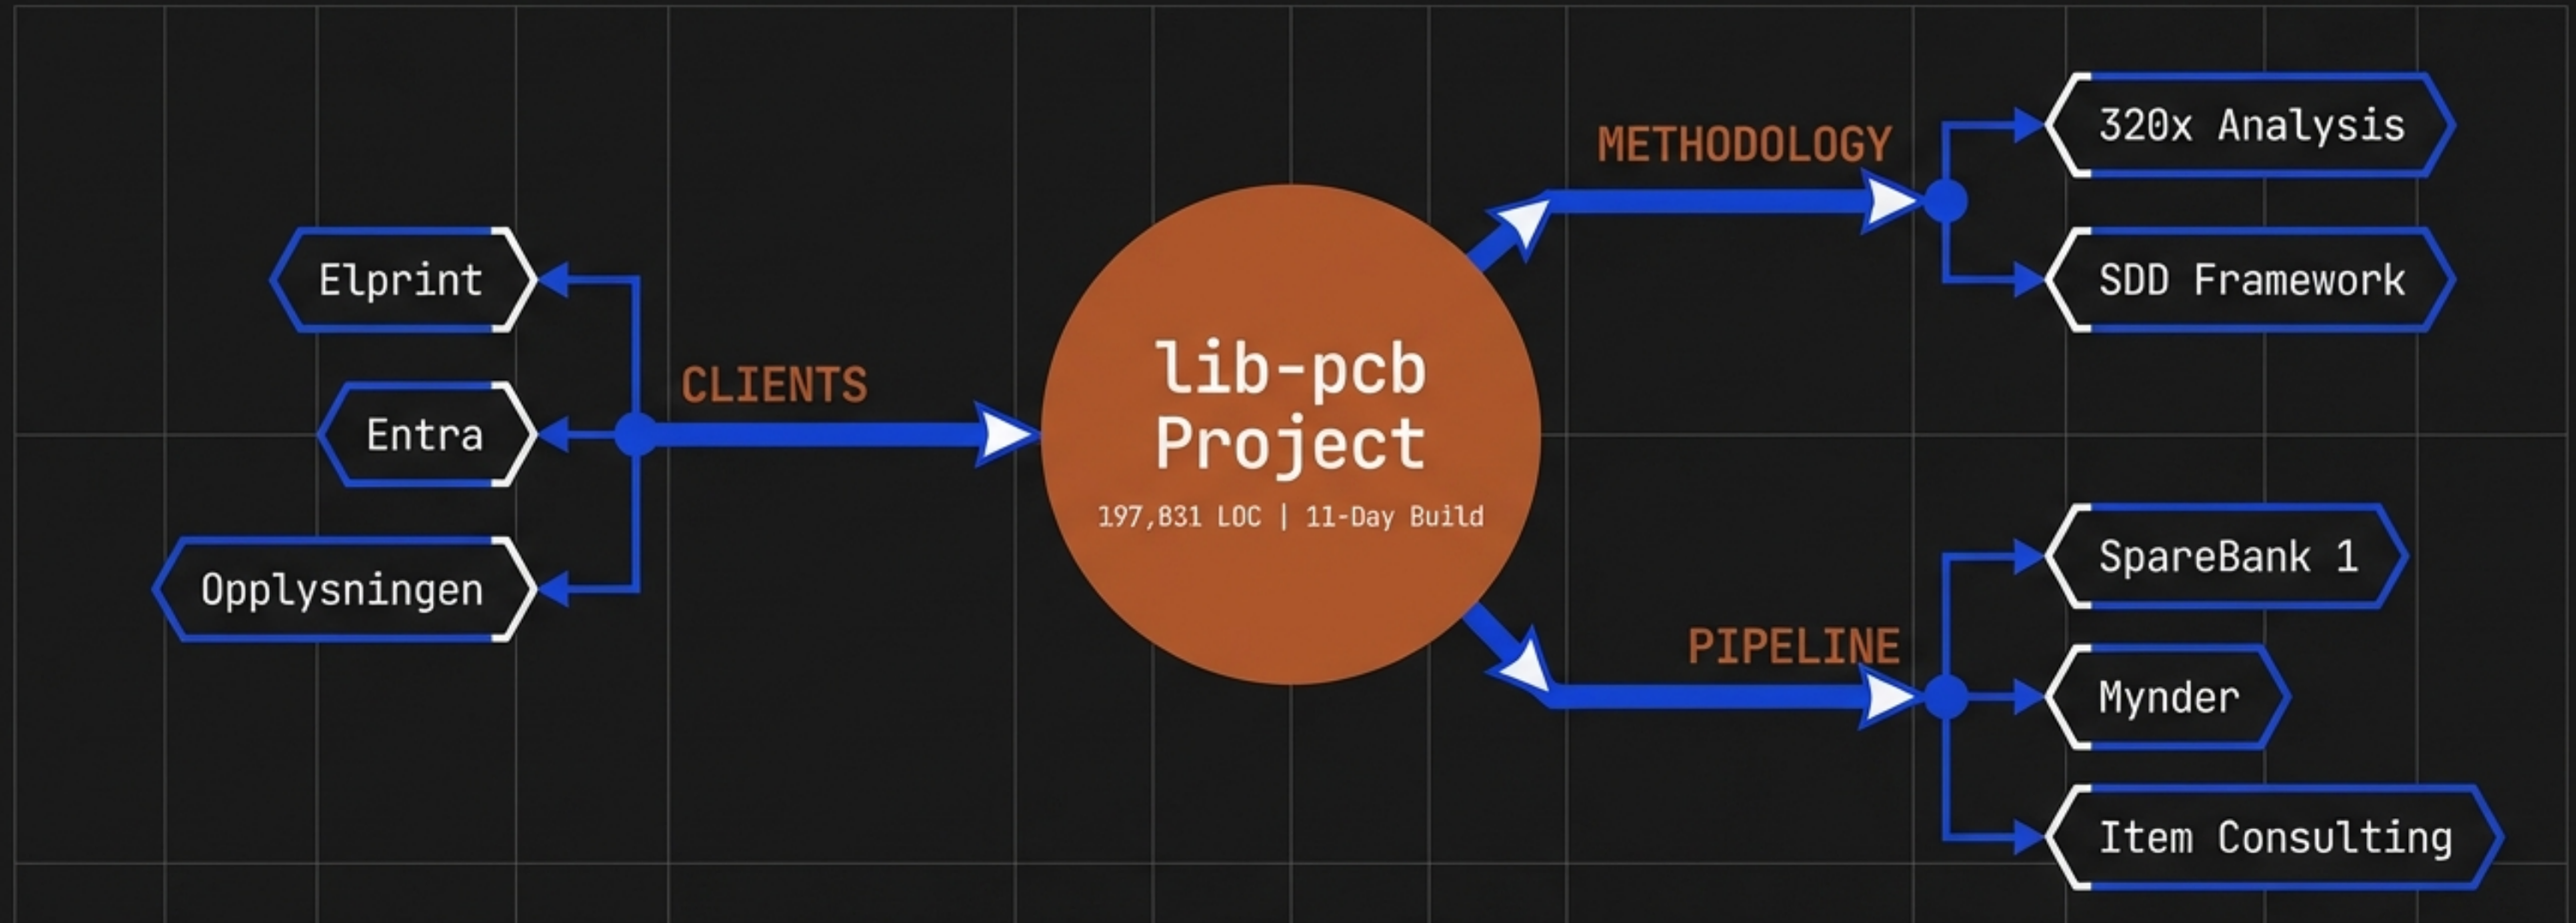

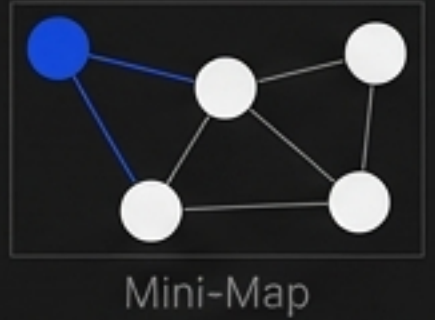

NotebookLM Decks

Marketing Videos

Screenshots

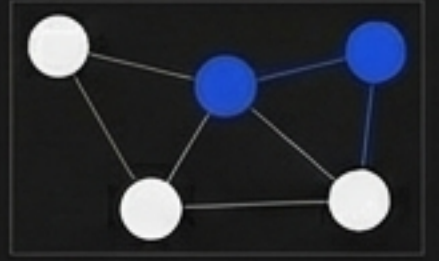

Business Proposals

NODE 01: EXOREACTION (THE ENGINE)

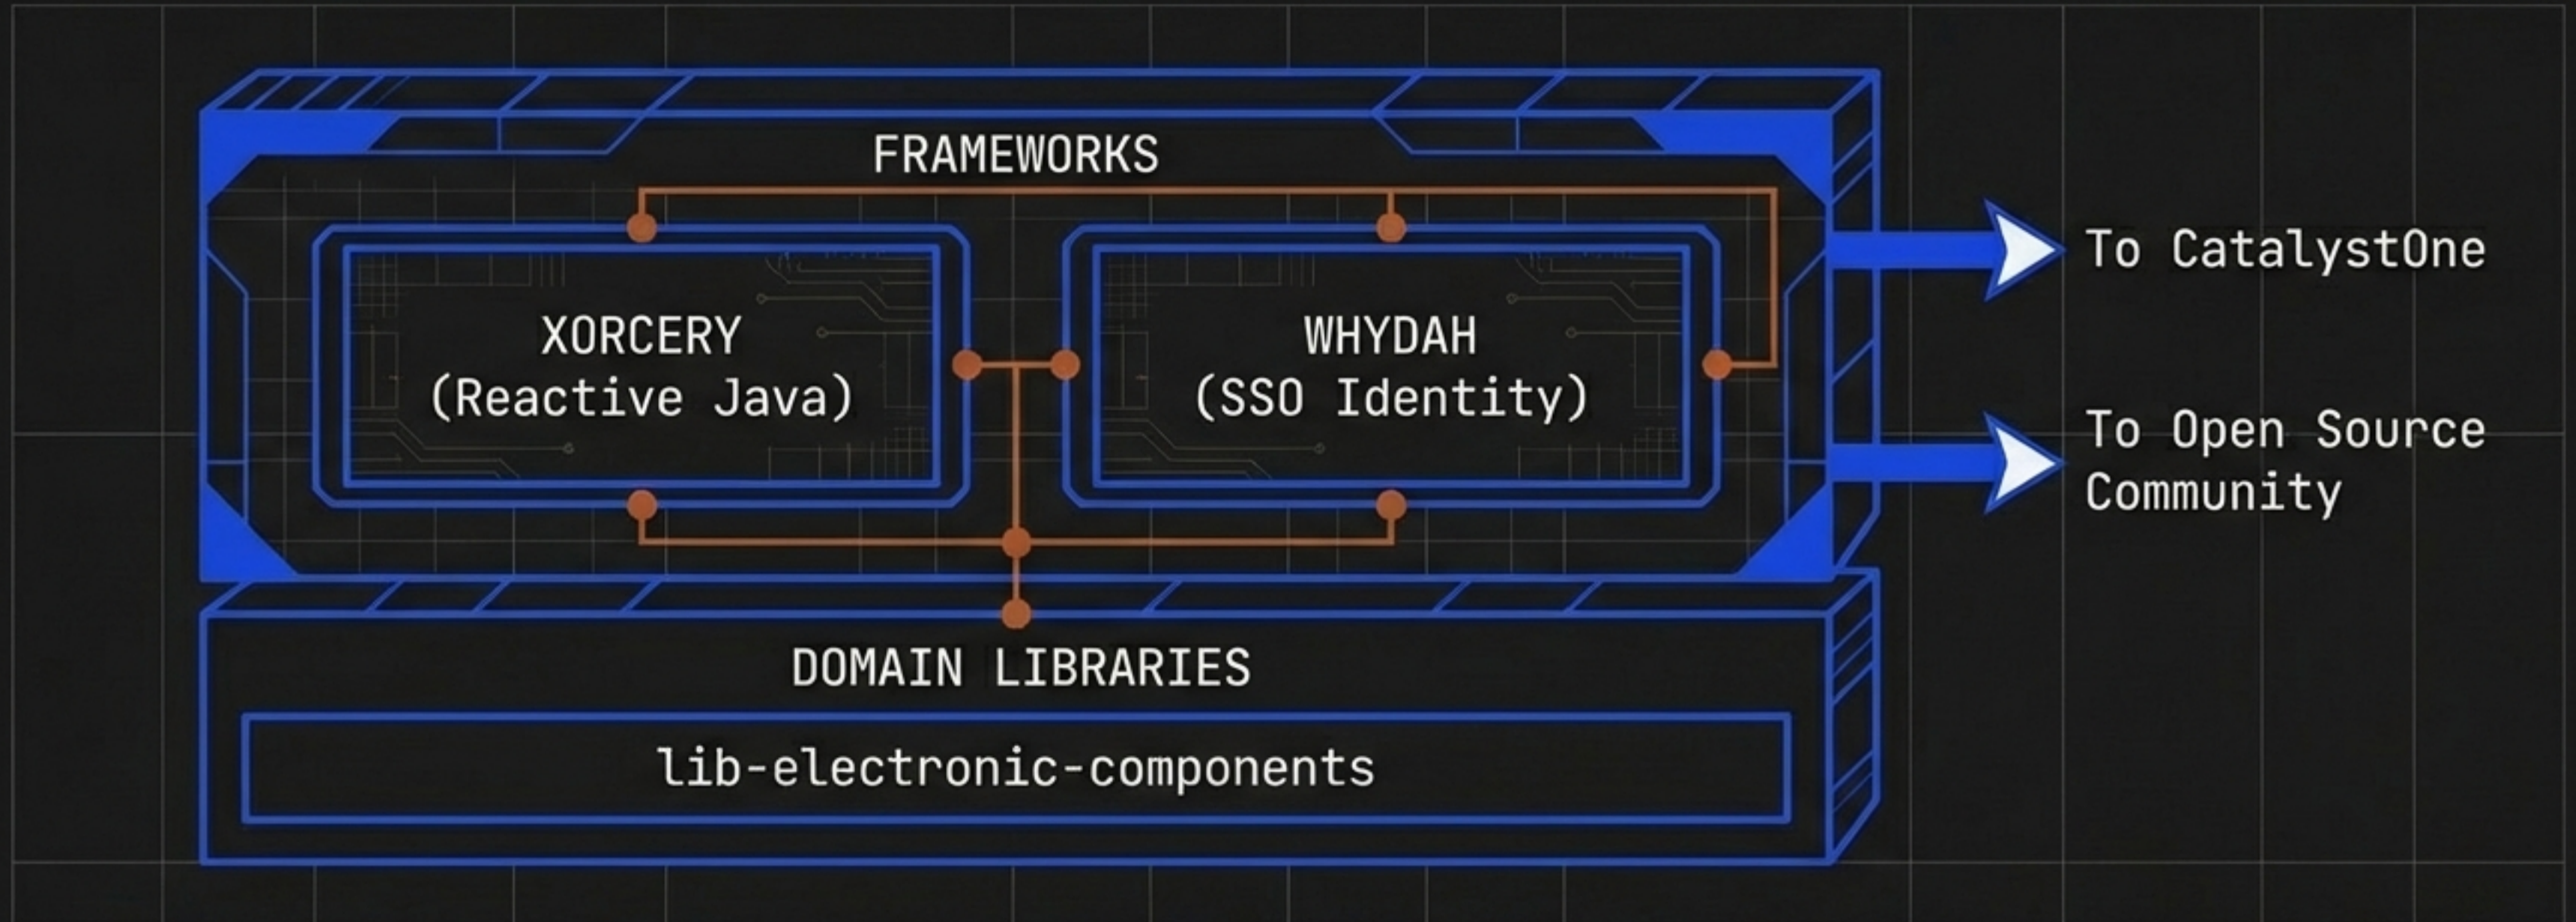

THE MULTIPLIER EFFECT: A single project (lib-pcb) acts as the gravity well, generating 20+ derivative assets.

NODE 02: CANTARA (THE FOUNDATION)

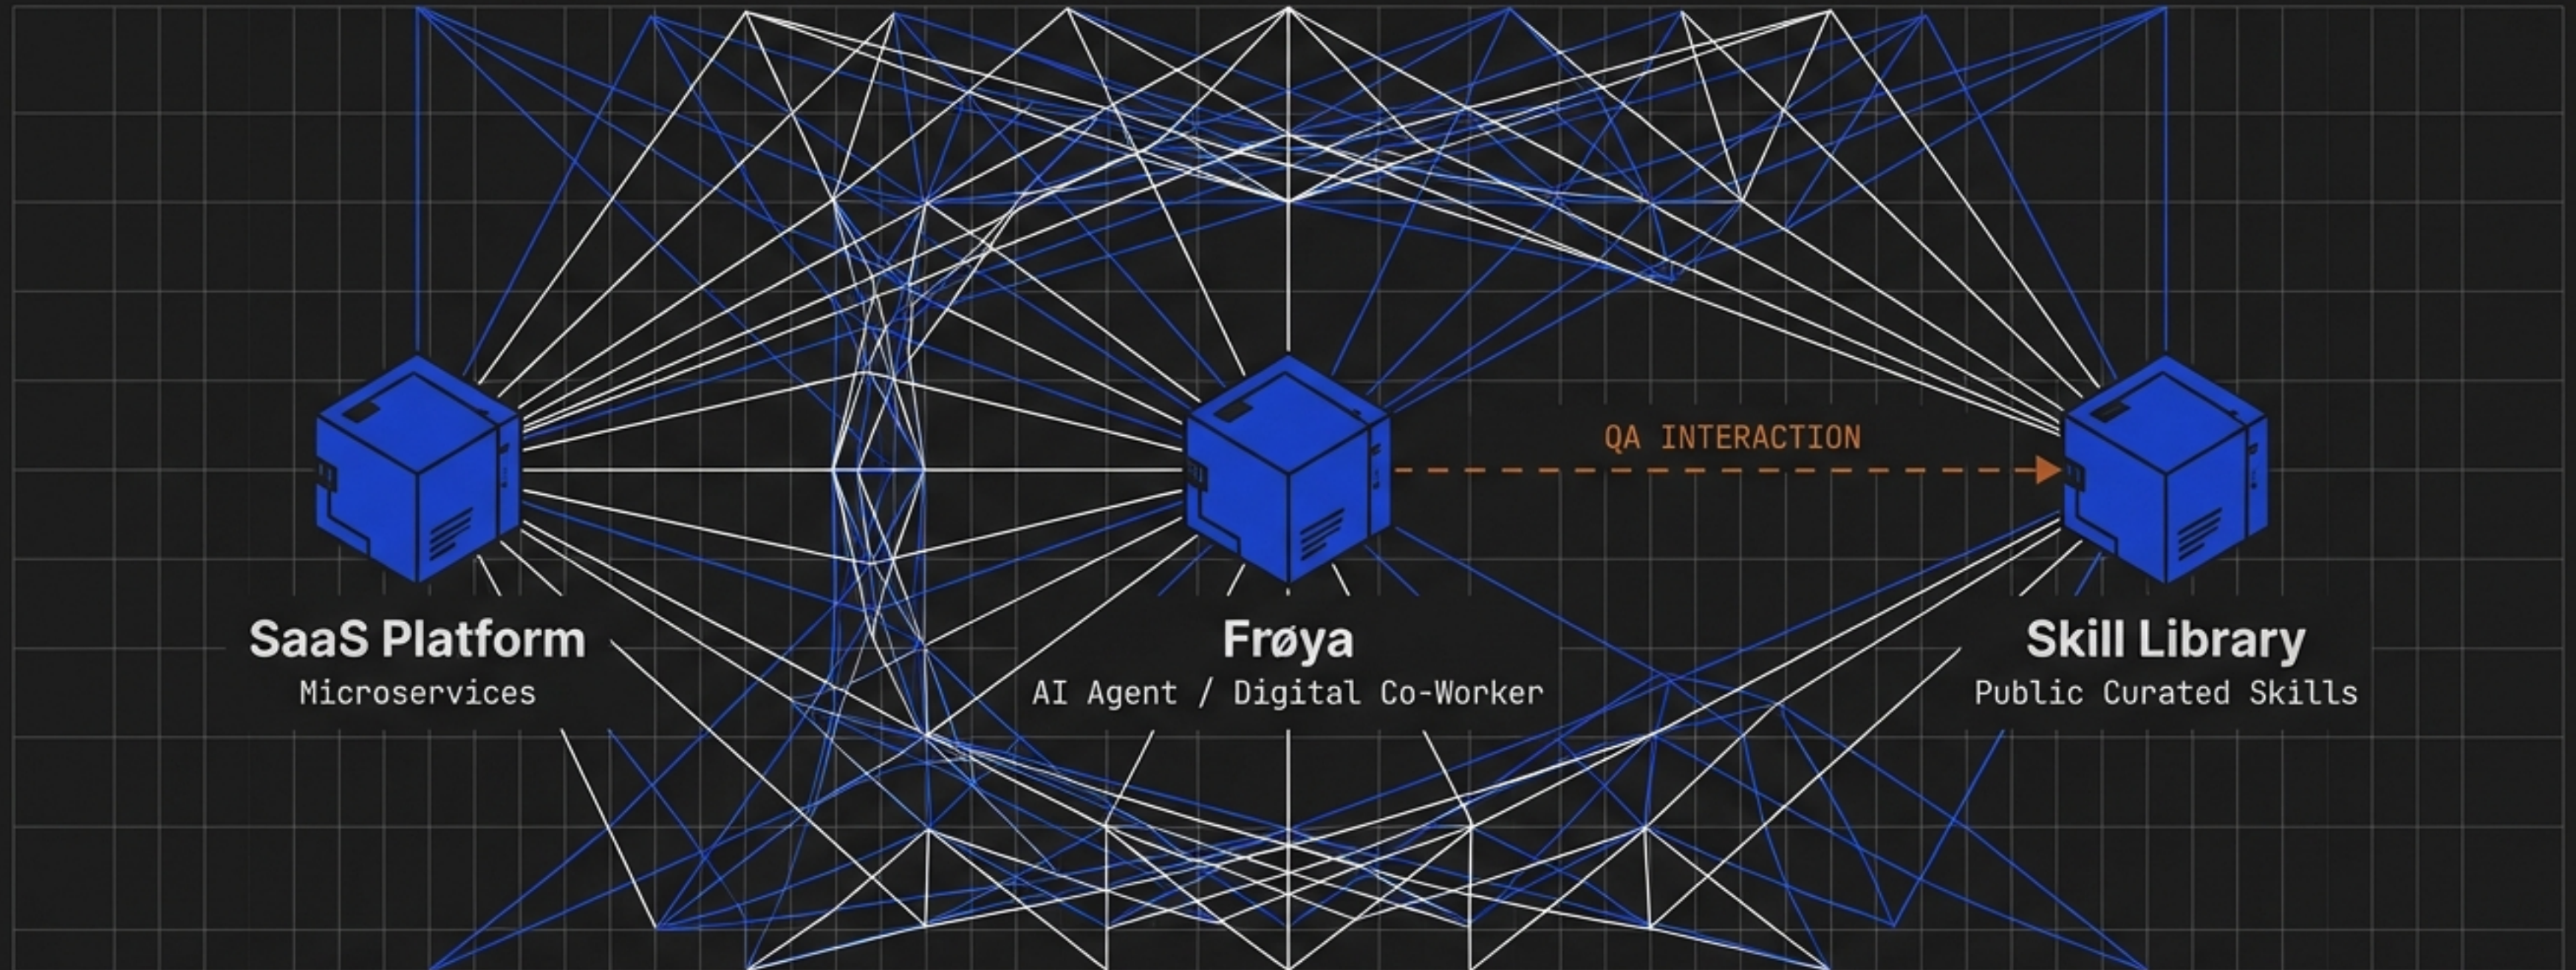

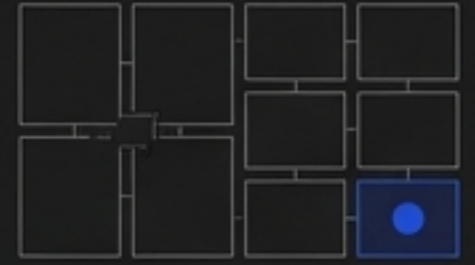

Mini-Map

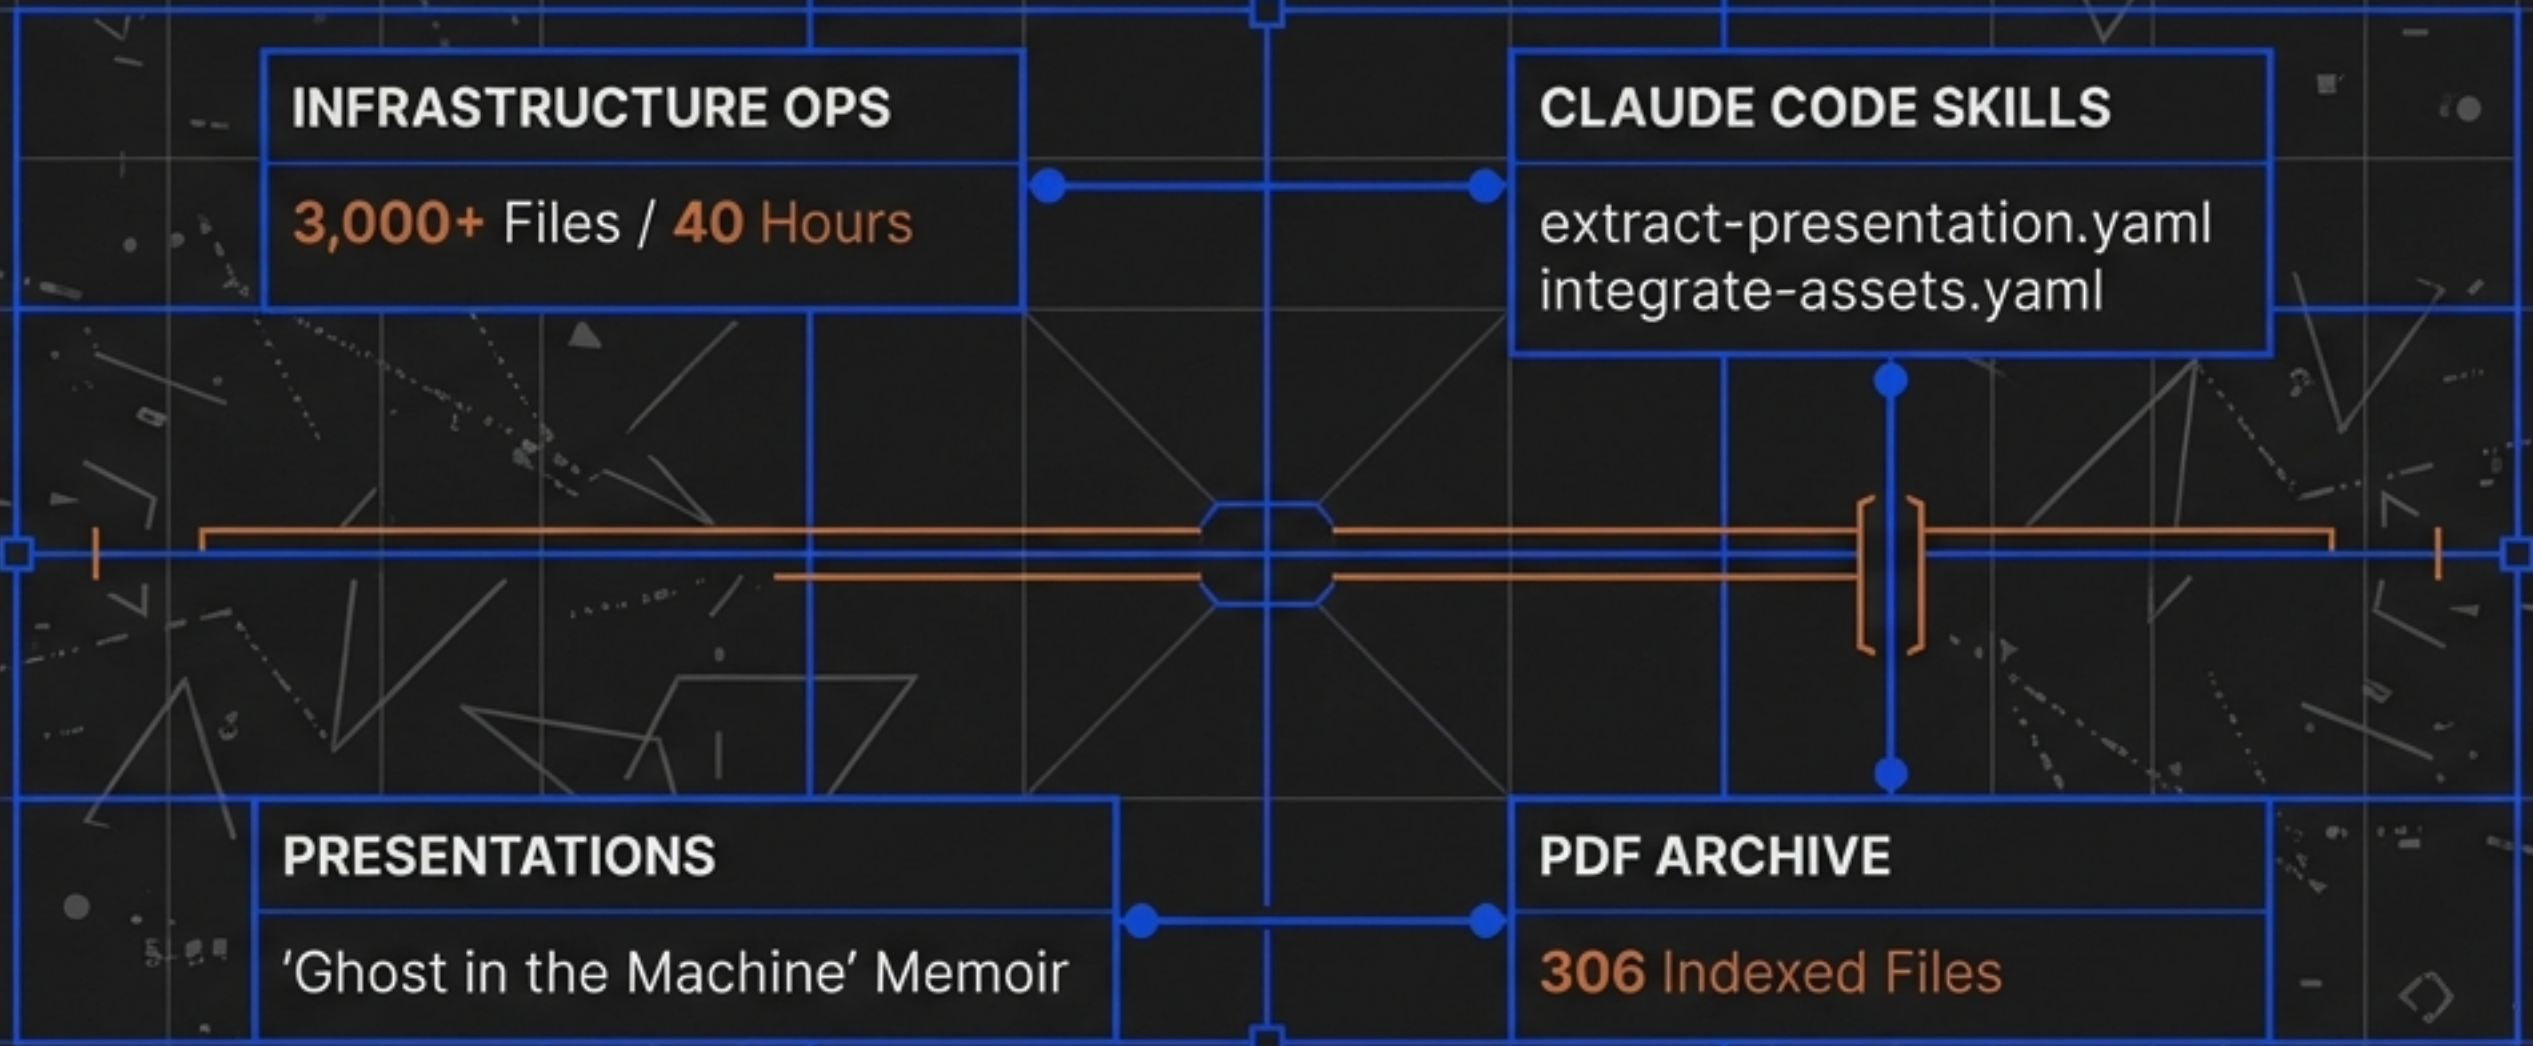

STABILITY AT SCALE: 62 repositories and 10+ years of production history provide the bedrock architecture.

NODE 03: QUADIM (THE PRODUCT)

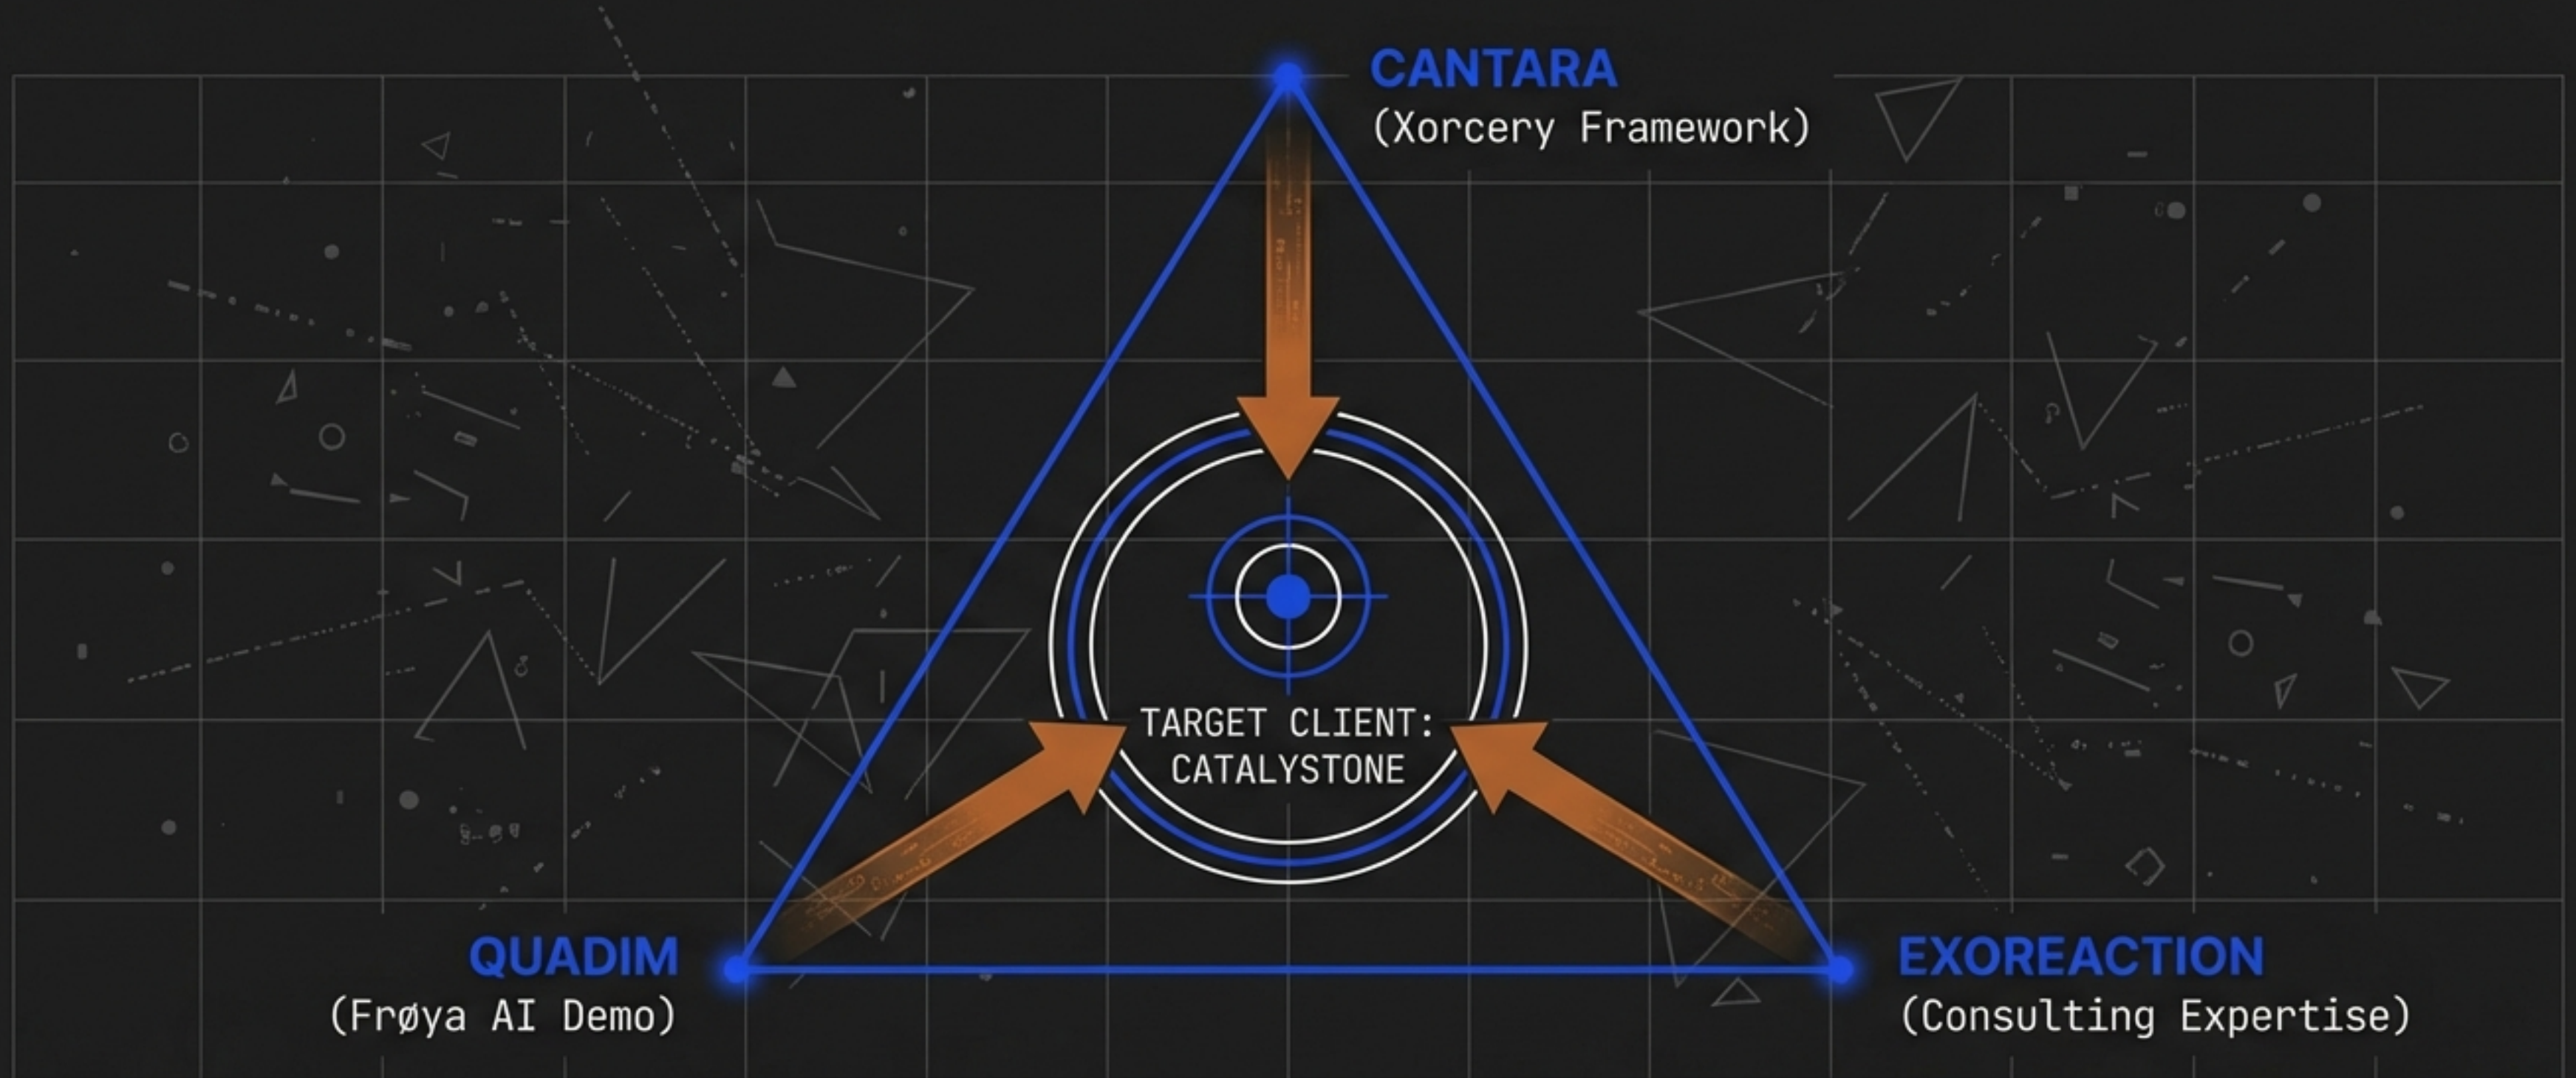

INTELLIGENCE AS A SERVICE: The 'Frøya' node actively interacts with the graph for Quality Assurance.

NODE 04: SYNTHESIS (THE WEAVER)

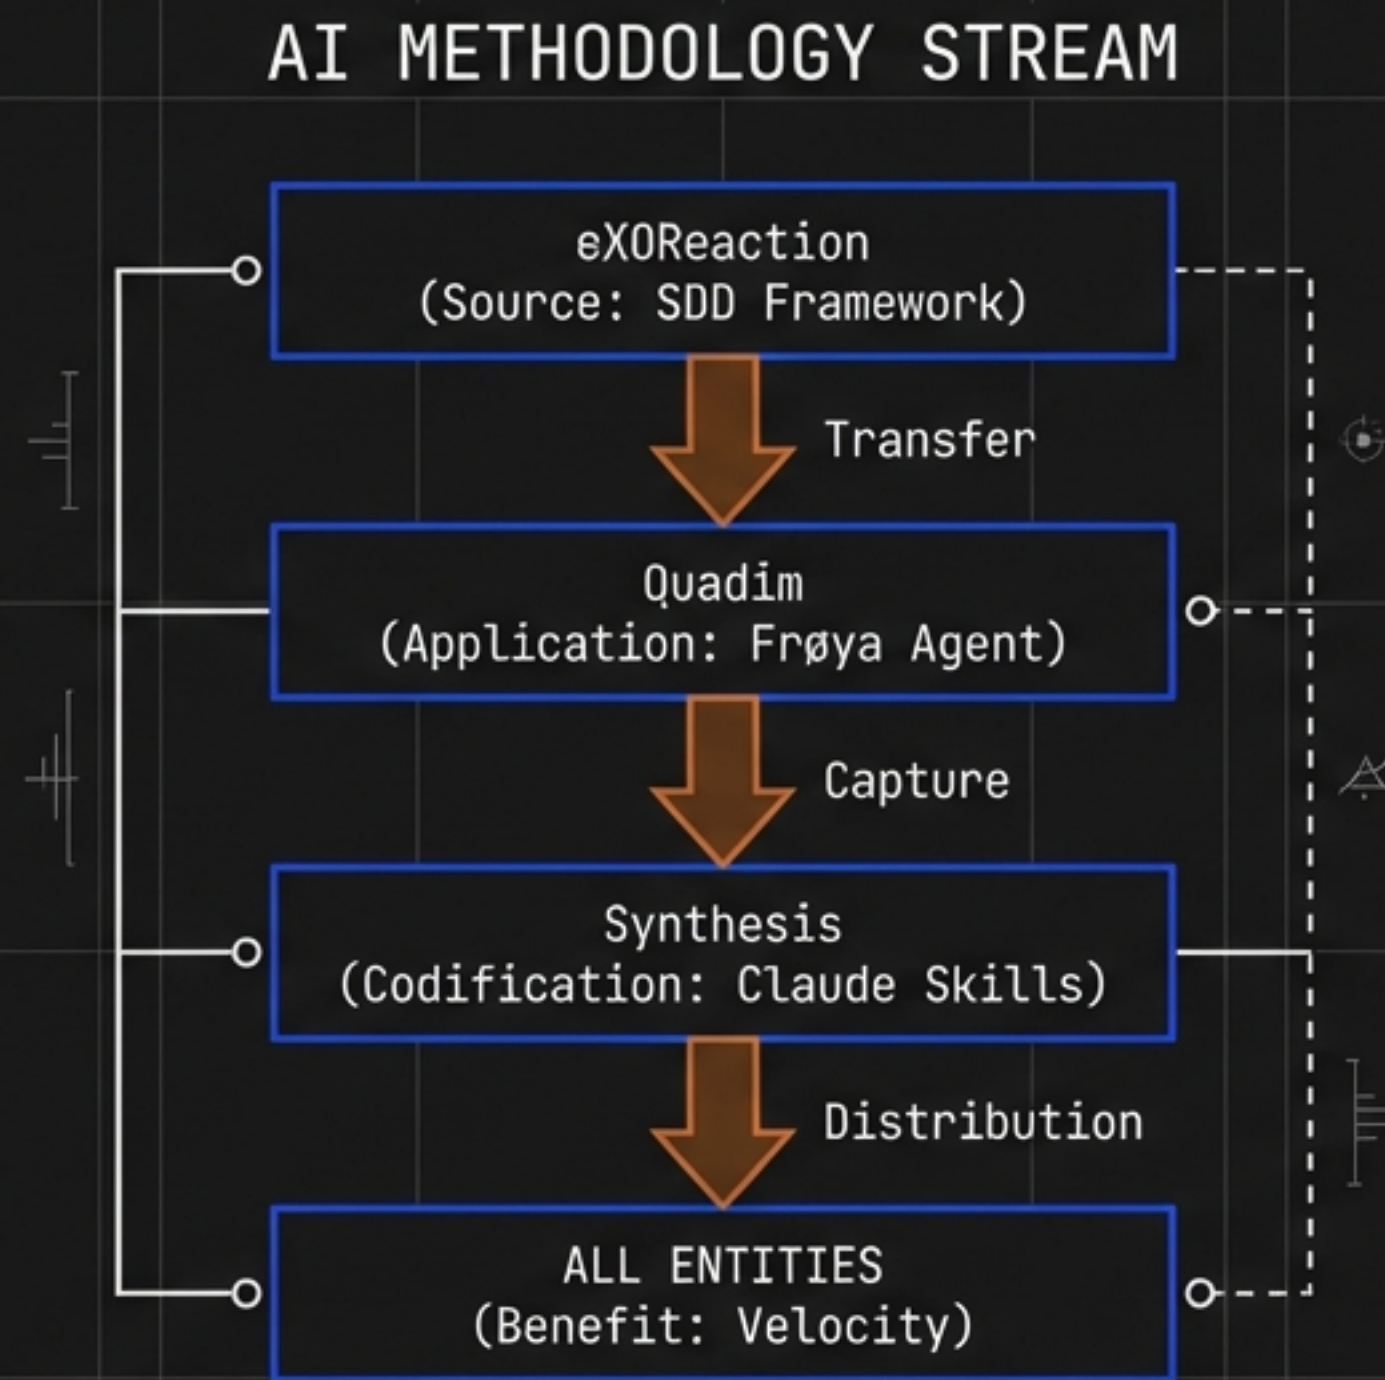

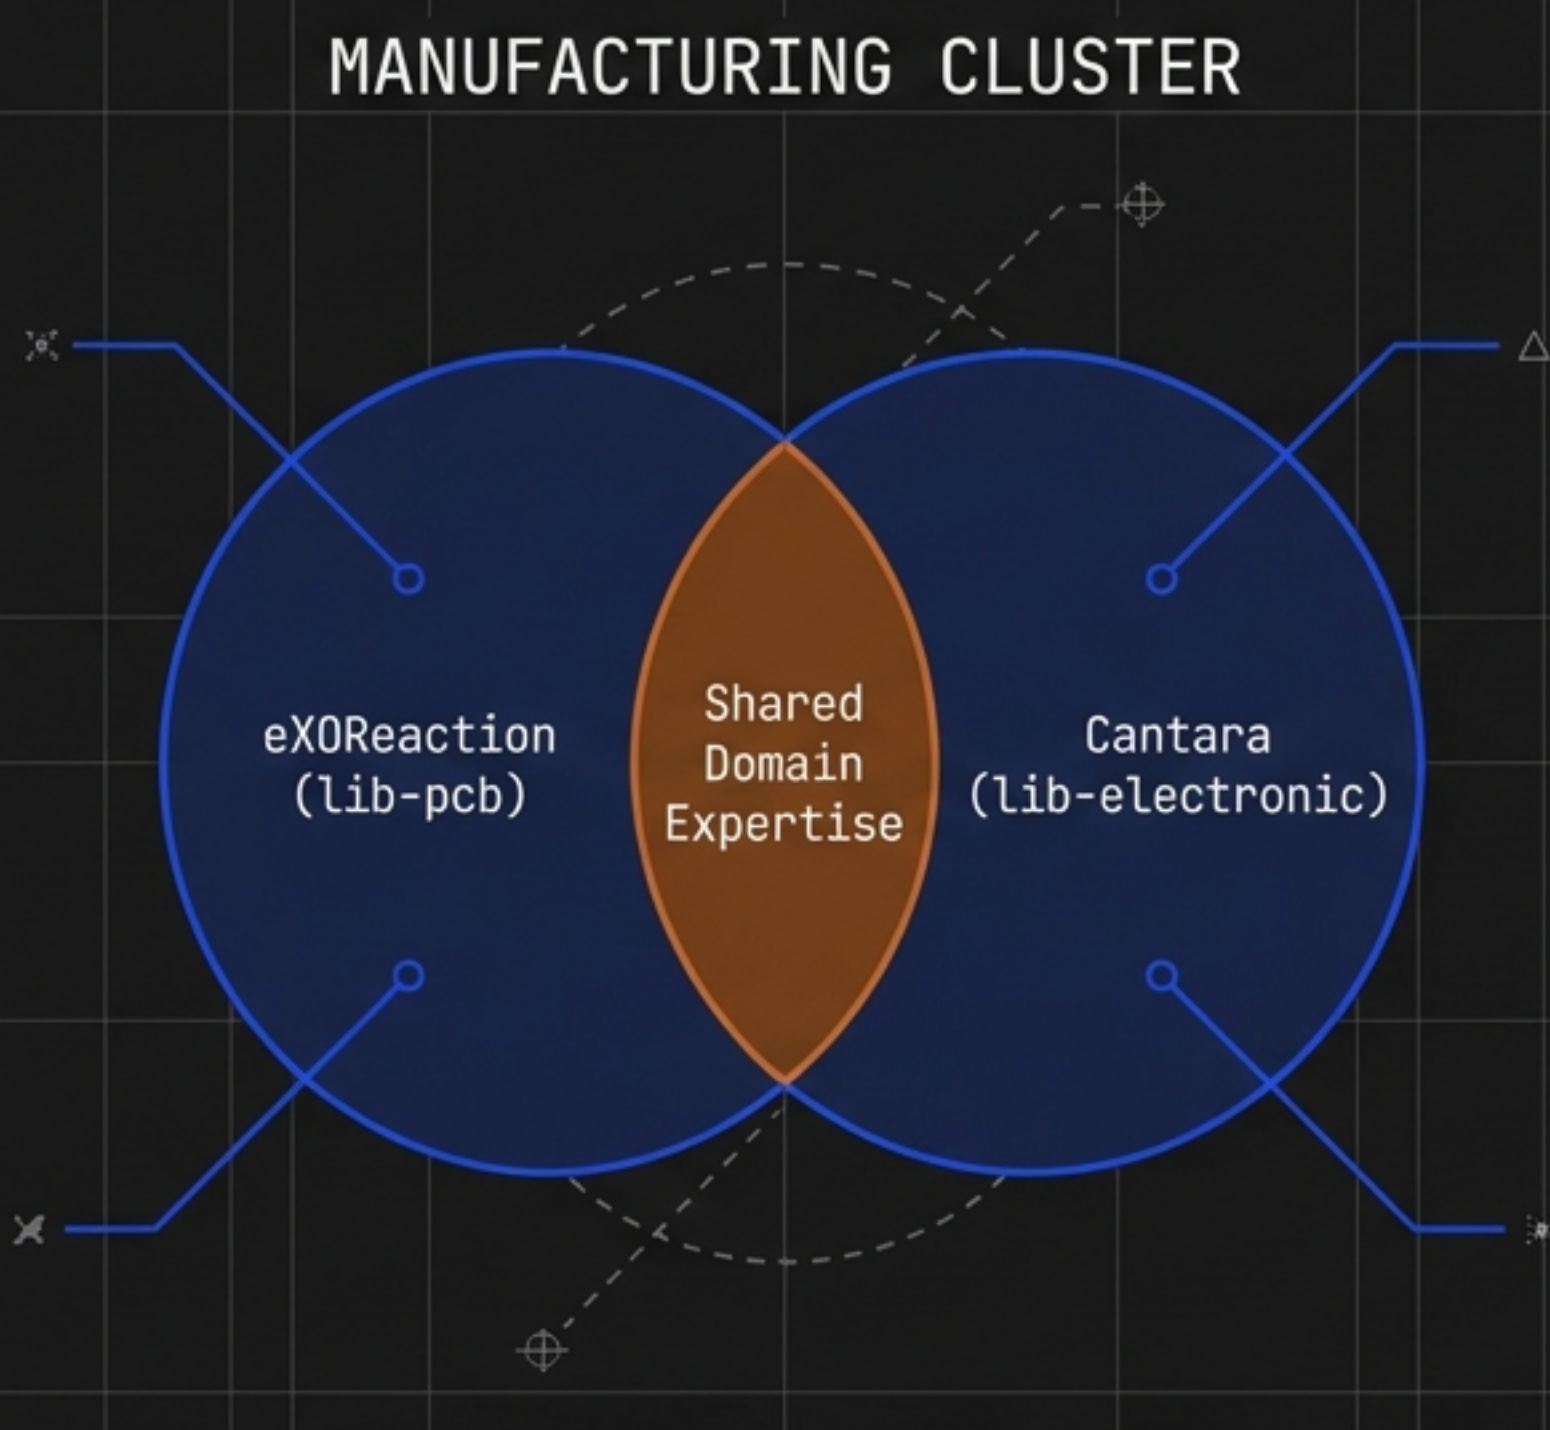

Transforming chaos into structure. Synthesis reduced a 200+ hour manual task into a 40-hour automated process.

META-GRAPH I: THE CATALYSTONE TRIANGLE

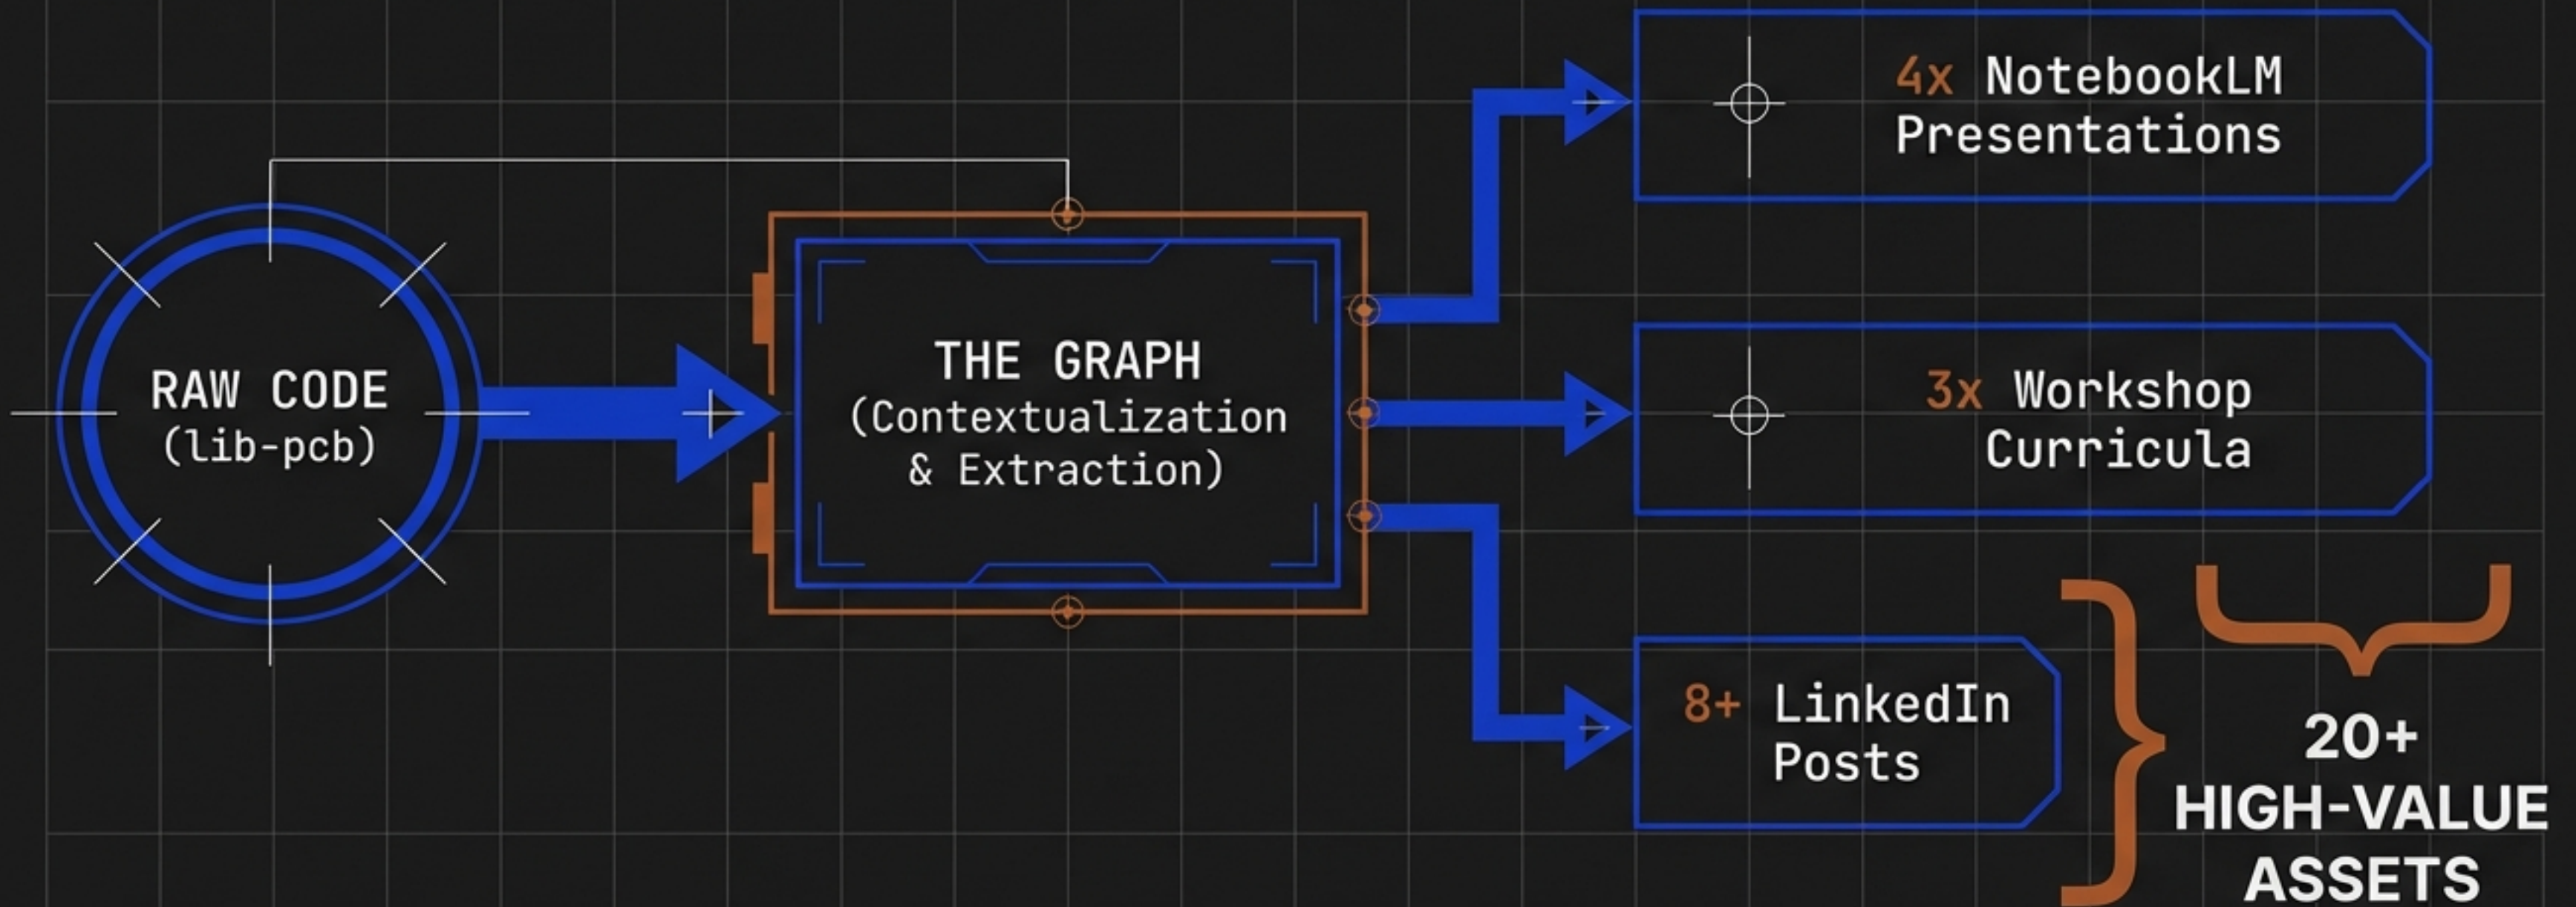

TRIPLE SYNERGY: A single client relationship generates three distinct value streams.

META-GRAPH II: KNOWLEDGE FLOW

THE CONTENT MULTIPLICATION ENGINE

"We do not write content from scratch. We harvest it."

STRATEGIC VALUE & ROI

OPERATIONAL EXCELLENCE

10-12x Faster Retrieval.
Onboarding reduced from
weeks to days.

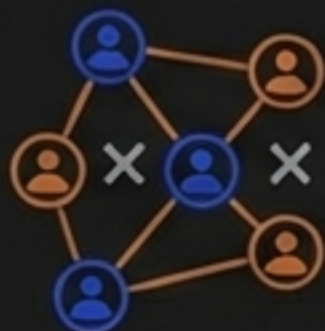

PIPELINE IMPACT

1,405K NOK
Active Pipeline
(Feb 2026).

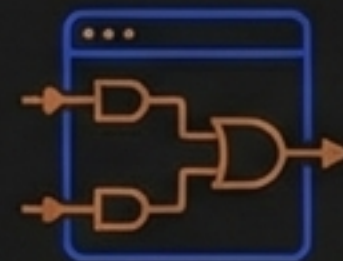

CROSS-SELLING

**2-3x Revenue
Multiplier** via
shared clients.

AUTOMATION

10+ Claude Code
Skills created for
future work.

FUTURE ARCHITECTURE: 2026-2027
