Knowledge Graph

Across 31,020 files

15.8%

Semantic Index Score

Target: >80% coverage

INSIGHT: While the codebase is active and the knowledge base is massive, only 620 out of 3,924 directories contain a README. This creates "Dark Data"—valuable assets that are difficult to discover or leverage for revenue.

Needs Semantic Linking

eXOReaction: HIGH VELOCITY, MASSIVE SCALE

SPECIALIZED ASSETS: PRODUCT SAAS vs. CORE FRAMEWORKS

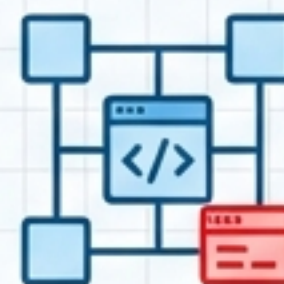

QUADIM (The Product)

- **Nature:** Production SaaS (2019-2025). Microservices.

Content: Visual-heavy (58% PNGs).

Key Services: AI Agents (Frøya), Leadership Coach.

17.4% Index Coverage.

CANTARA (The Framework)

- **Nature:** Event-driven frameworks for CatalystOne.

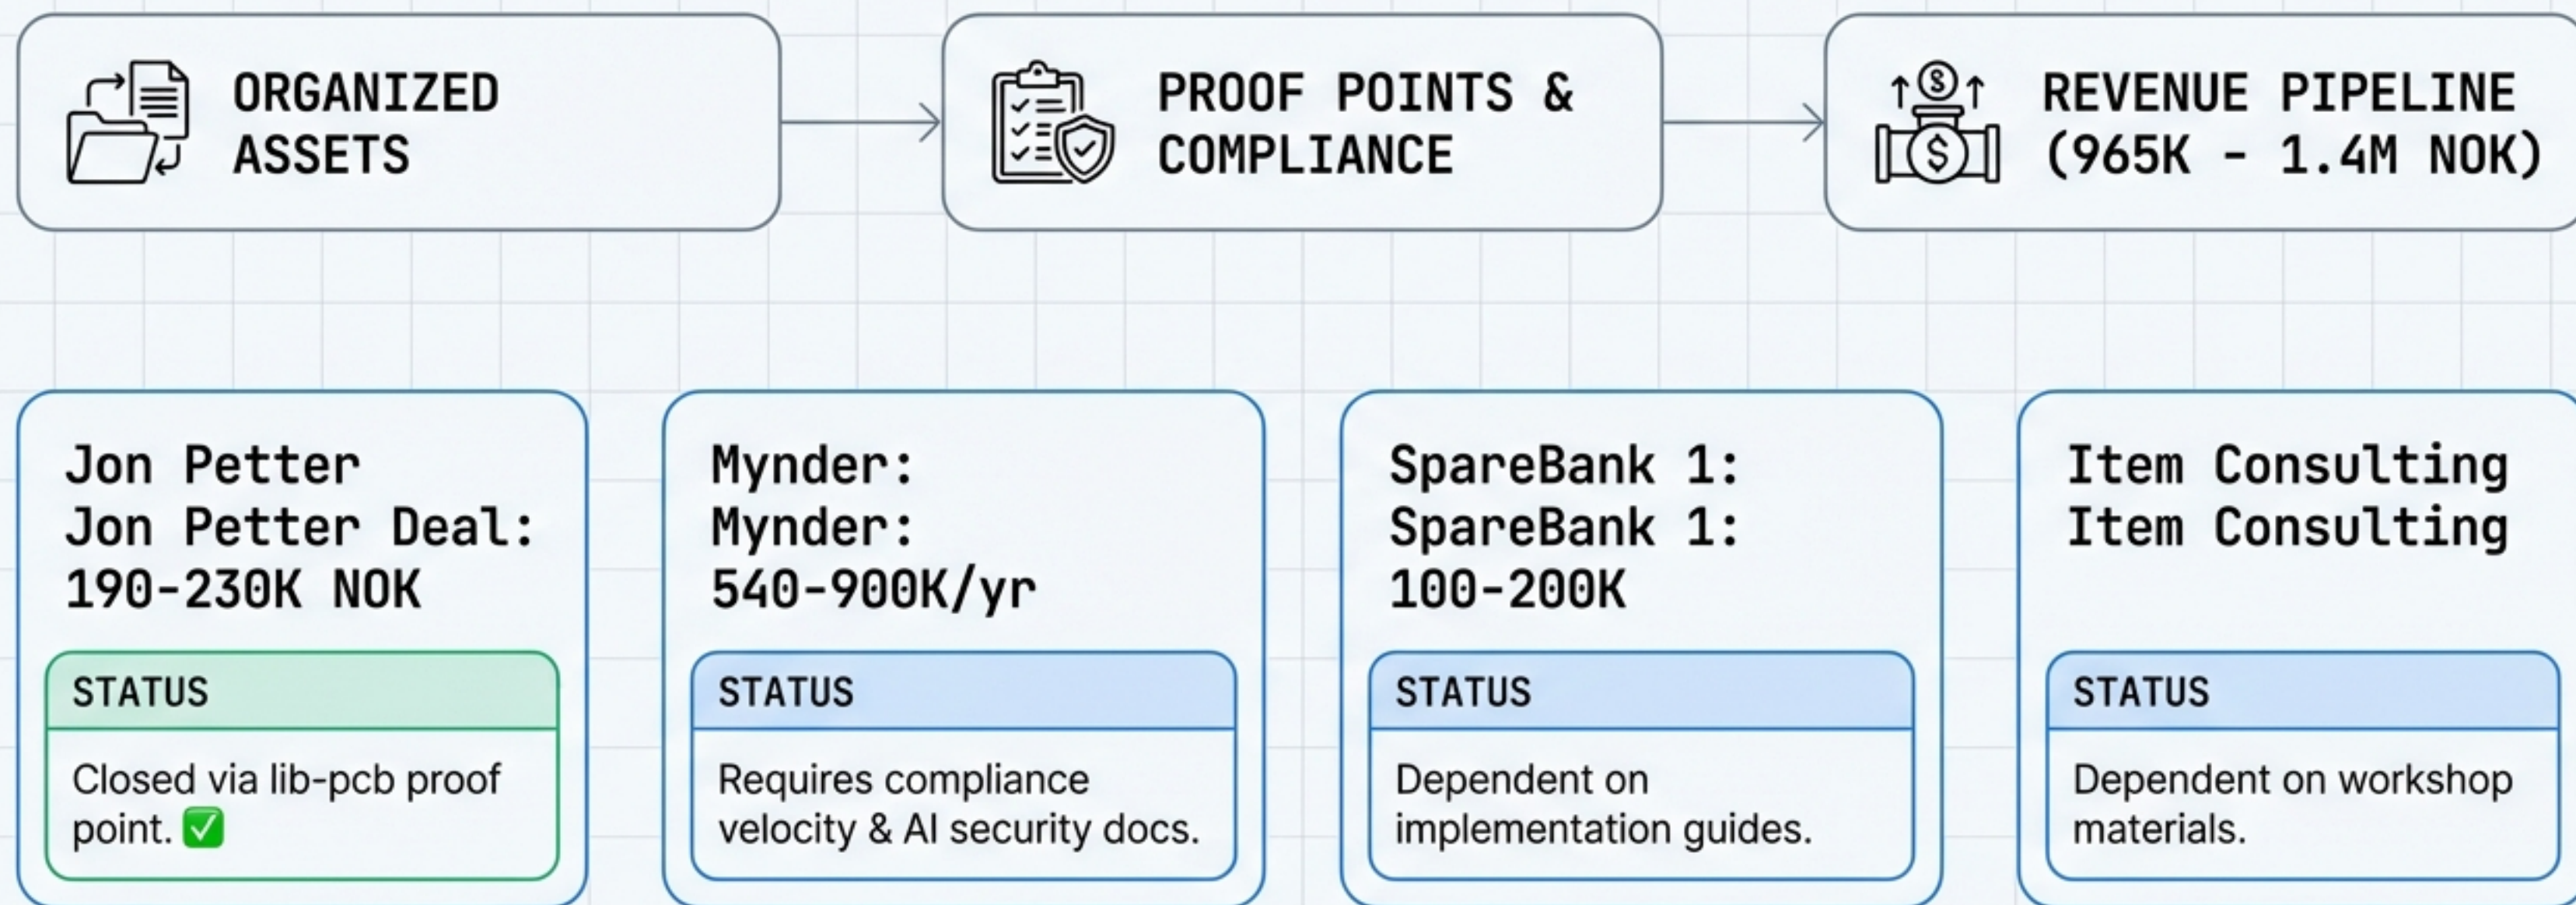

Content: Text/Code-heavy (41.8% Markdown).

Key Projects: Xorcery, Whydah (SS0).

CRITICAL: 4.6% Index Coverage.

Biggest risk for recurring revenue adoption.

THE ROI OF ORGANIZATION: READMEs TO REVENUE

We organize to sell. Discoverable assets function as proof points.

INFRASTRUCTURE AUTOMATION & TOOLING

COMPLETED

- Automated stats generation scripts (generate_kg_stats.sh)
- Multi-company metric aggregation
- Format breakdown analysis

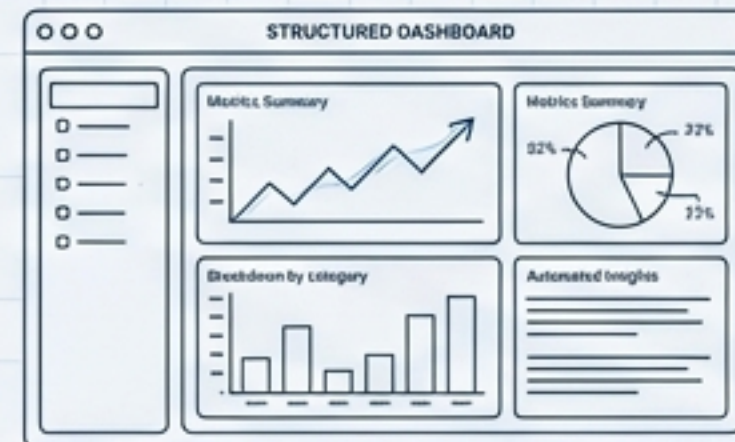

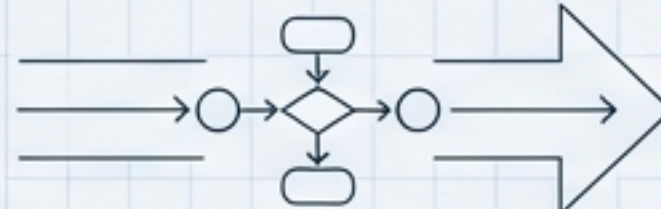

IN PROGRESS

- Vision-based categorization for screenshot library
- Weekly dashboard auto-updates

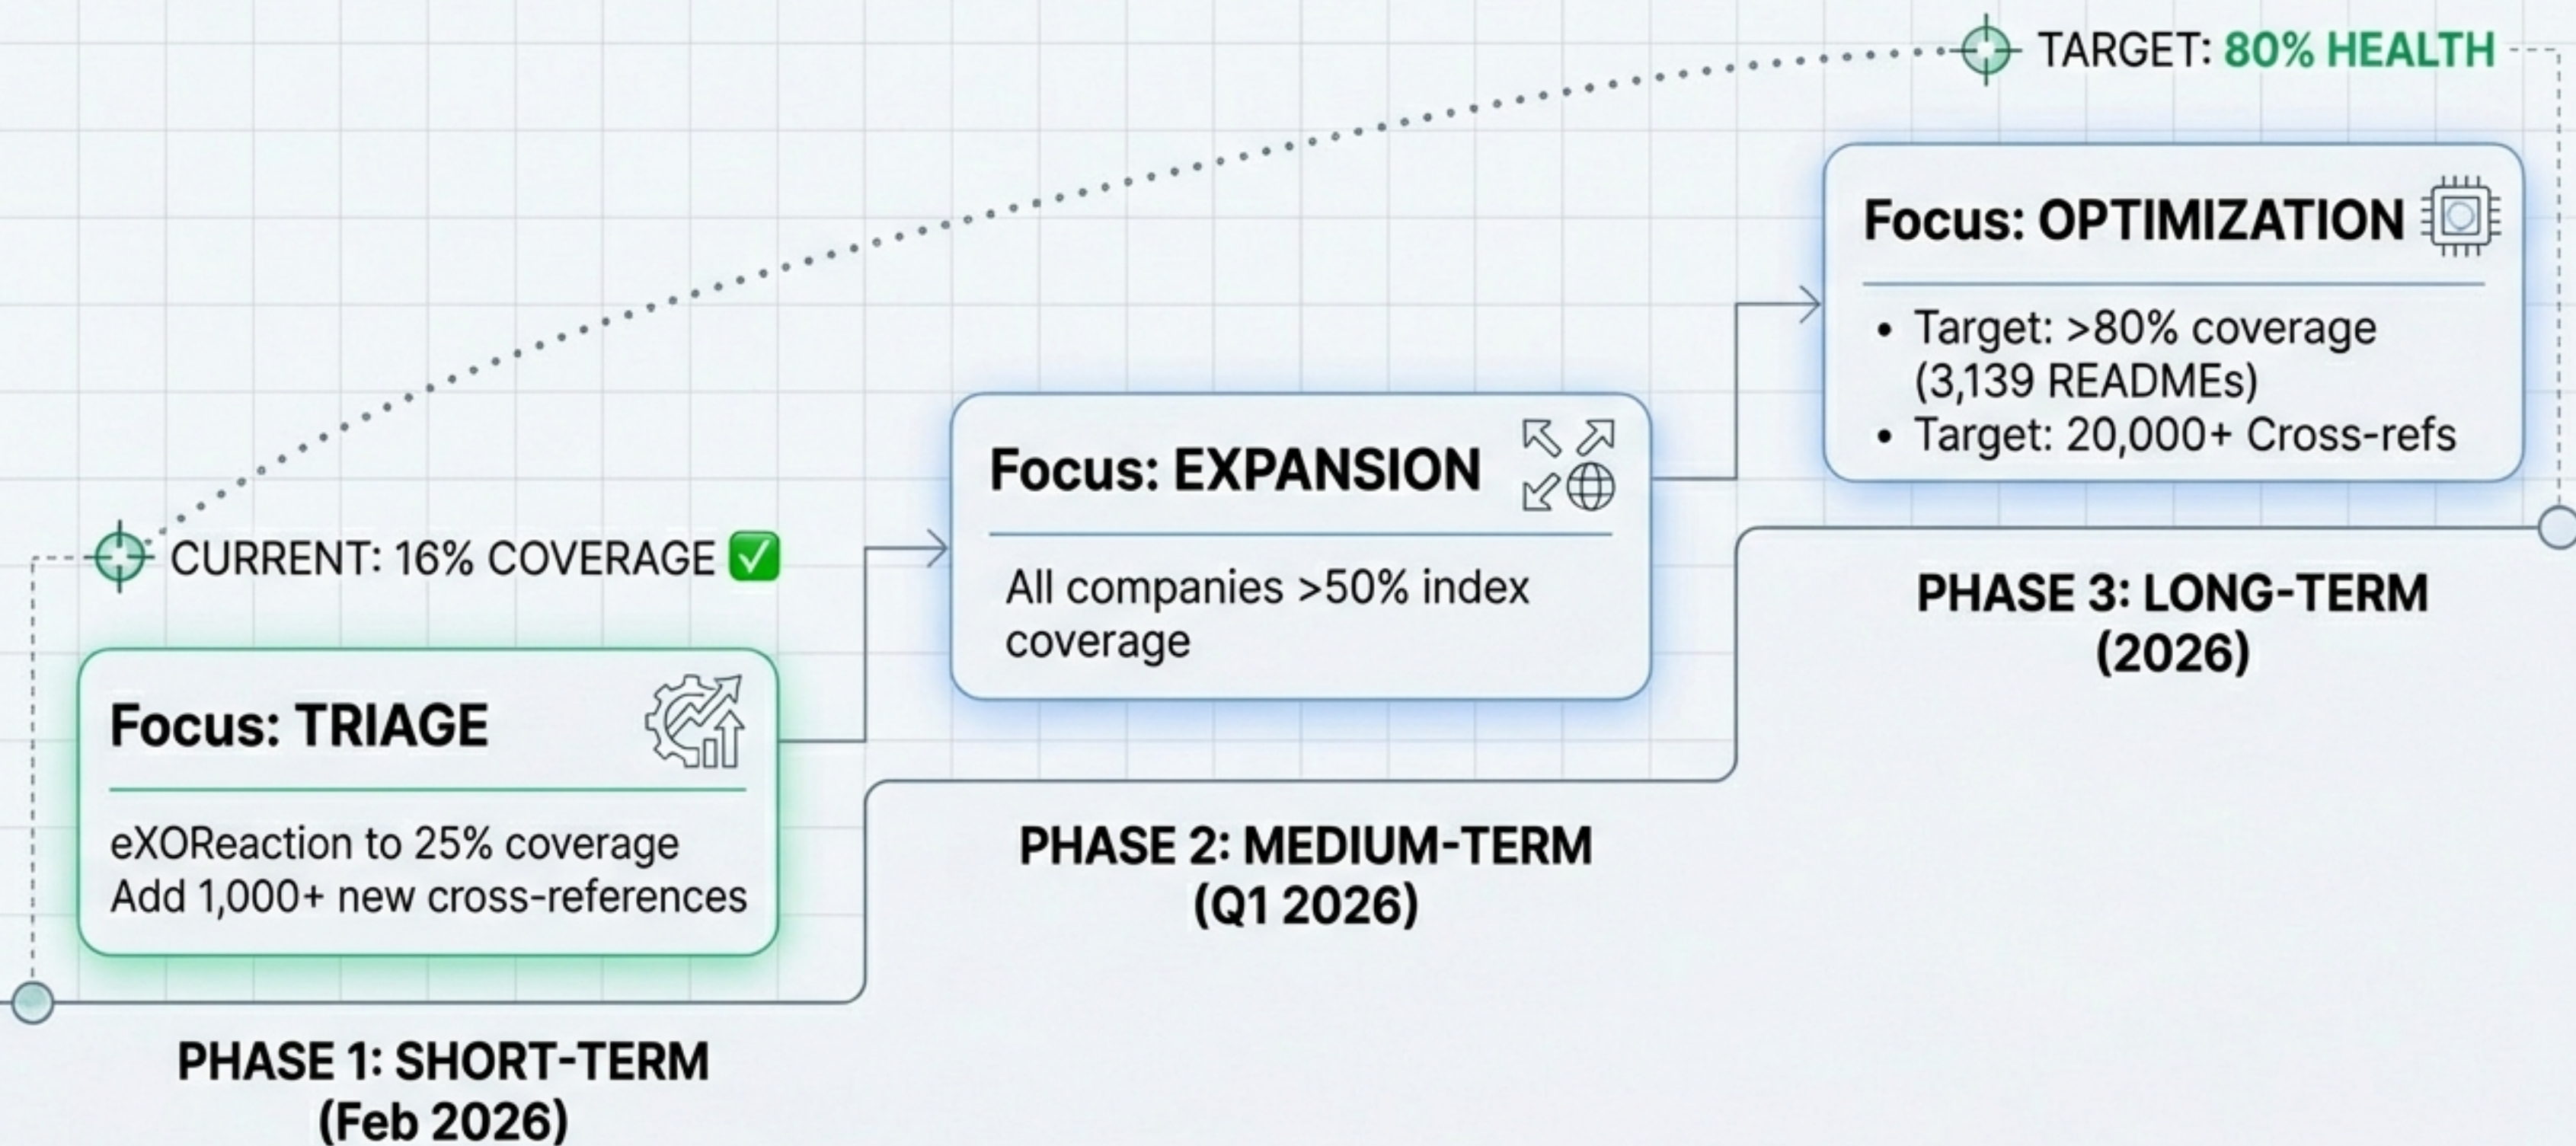

PLANNED

- Semantic PDF analysis
- AI-driven "Auto-suggest" for README content

Automated pipelines transform raw scripts and data into actionable insights.

THE RECOVERY ROADMAP: TARGETING 80% HEALTH

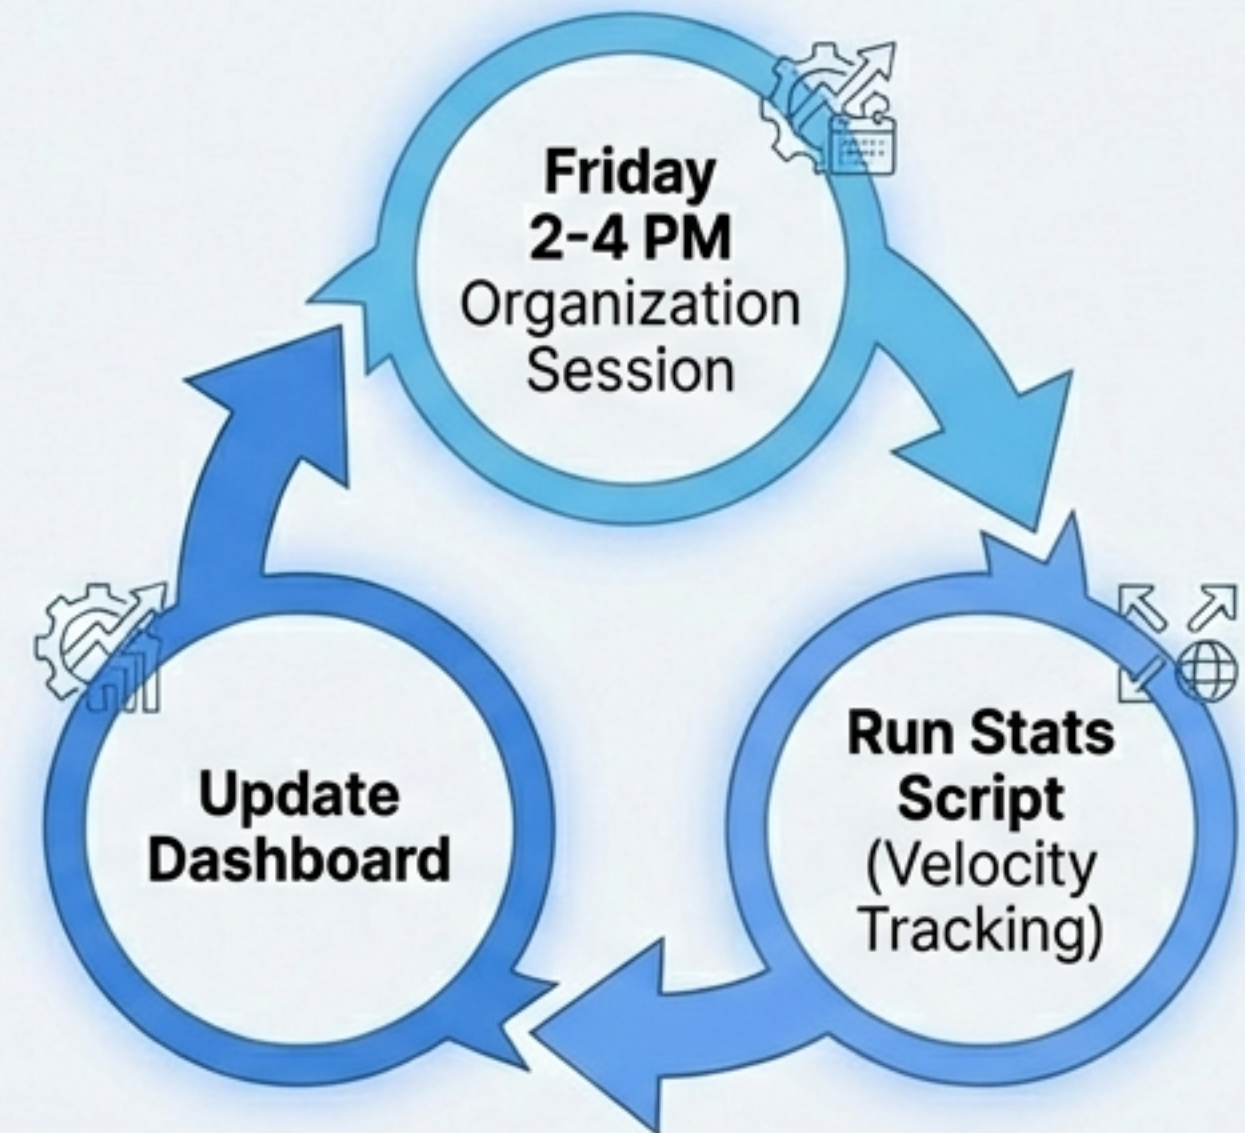

IMMEDIATE ACTIONS & WEEKLY ROUTINE

THIS WEEK'S SPRINT

- ☐ Create 20 READMEs in eXOReaction (Business/Methodology Focus)
- ☐ Create 5 READMEs in Cantara (Frameworks Focus)
- ☐ Update cross-references in recent workflow docs

WEEKLY CADENCE

A WELL-INDEXED ASSET IS A LIQUID ASSET.
