

THE ARCHITECTURE OF INTELLIGENCE

A Cross-Company Knowledge Graph Report

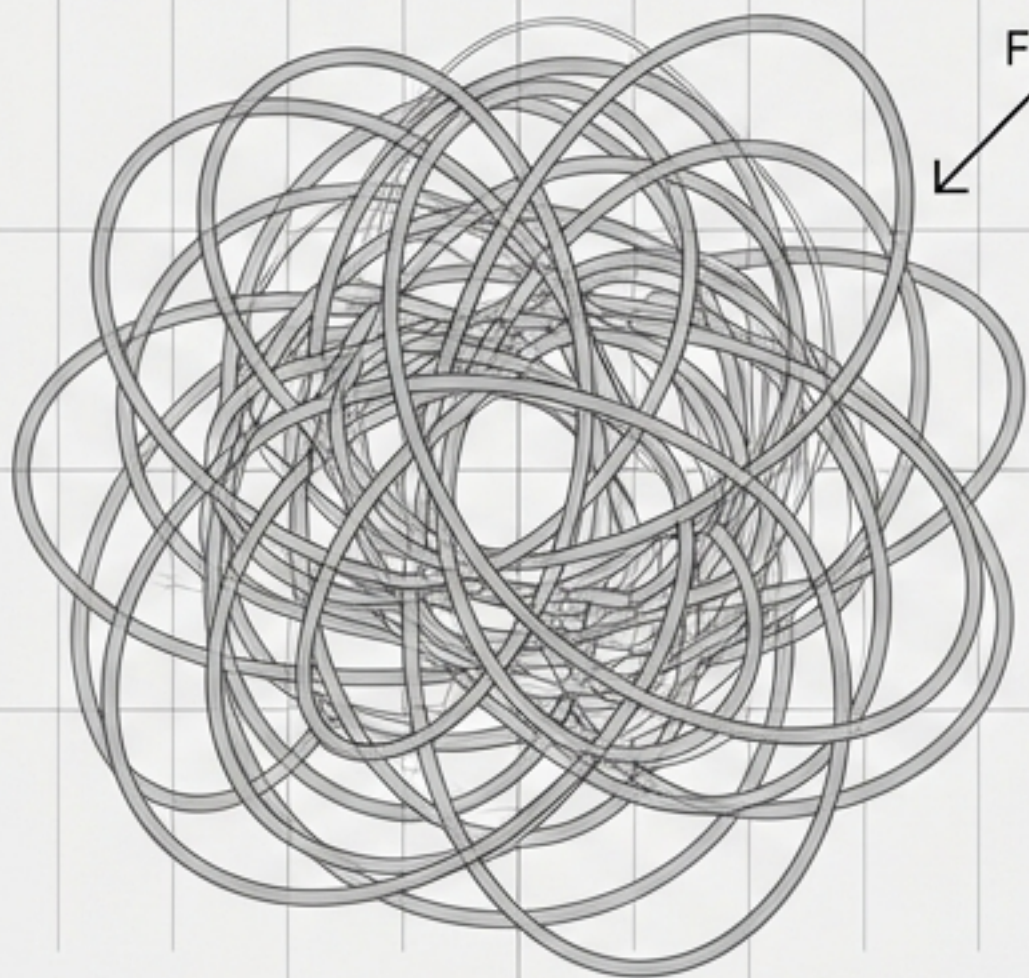

FEBRUARY 2026 | v1.0

AUTHORS: THOR HENNING HETLAND (TOTTO) & CLAUDE SONNET 4.5

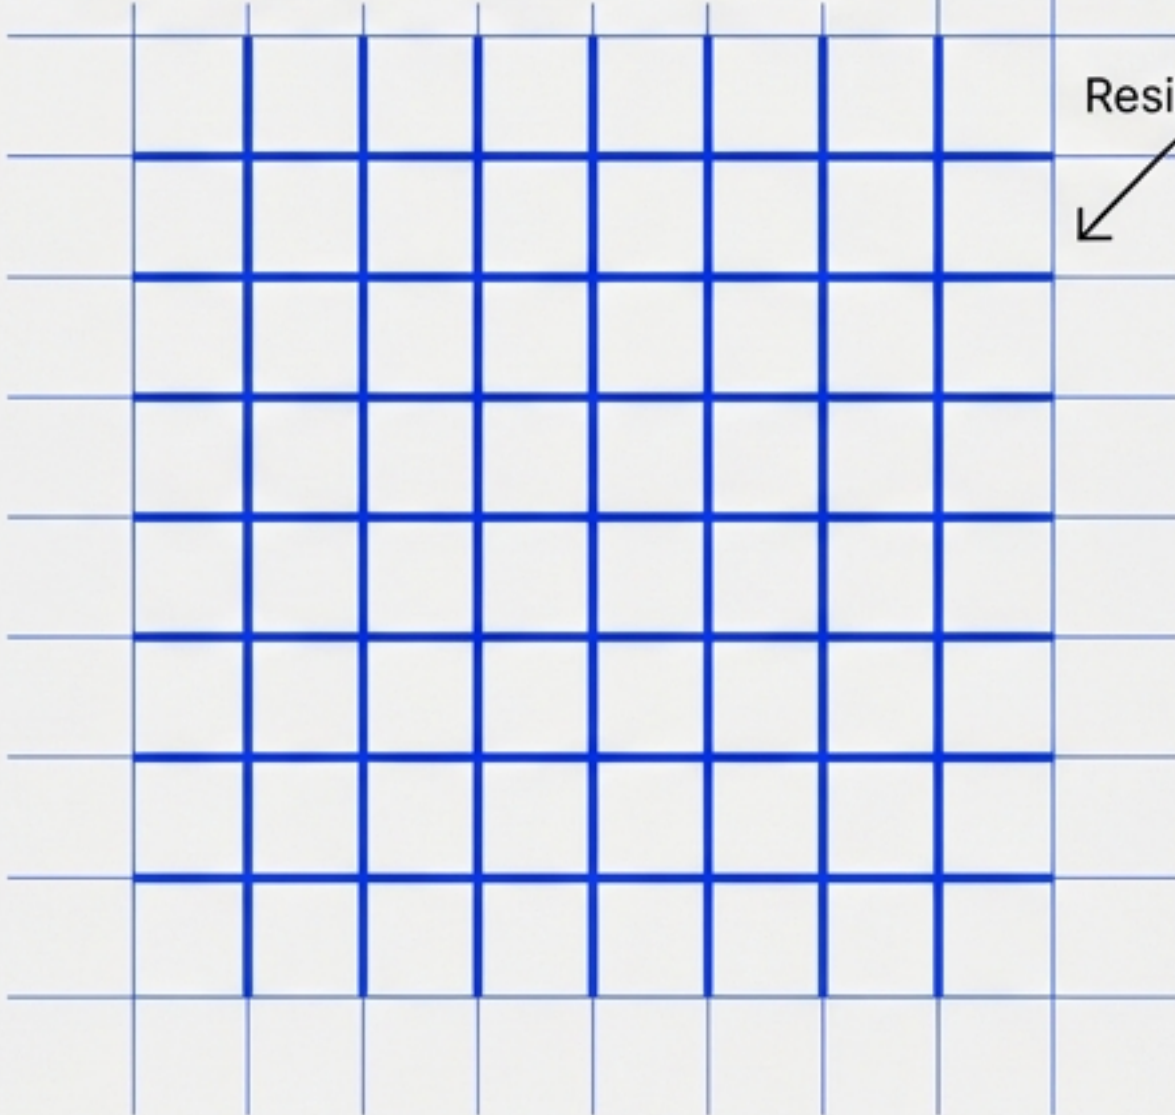

OPERATIONAL VELOCITY THROUGH STRUCTURE

TRIBAL KNOWLEDGE

Fragile & Slow

SYSTEMATIC INFRASTRUCTURE

Resilient & Instant

EFFICIENCY GAIN
(Retrieval Speed)

150+

HOURS INVESTED
(Infrastructure Build)

3,000+

ASSETS ORGANIZED
(Files & Codebases)

15+

DERIVATIVE ASSETS
(Per Single Source)

THE 6-PILLAR FRAMEWORK

Rigorous engineering methodology
for knowledge organization.

01

INTELLIGENT CONTEXT

Comprehensive metadata
for every asset.

02

STRATEGIC ORGANIZATION

Hierarchical structure by
domain and purpose.

03

VERIFICATION & QUALITY

Bidirectional references
and orphan prevention.

04

CROSS-LINKING

Assets reference each
other to enable
discovery.

05

DOCUMENTATION STANDARDS

README files and
comprehensive guides.

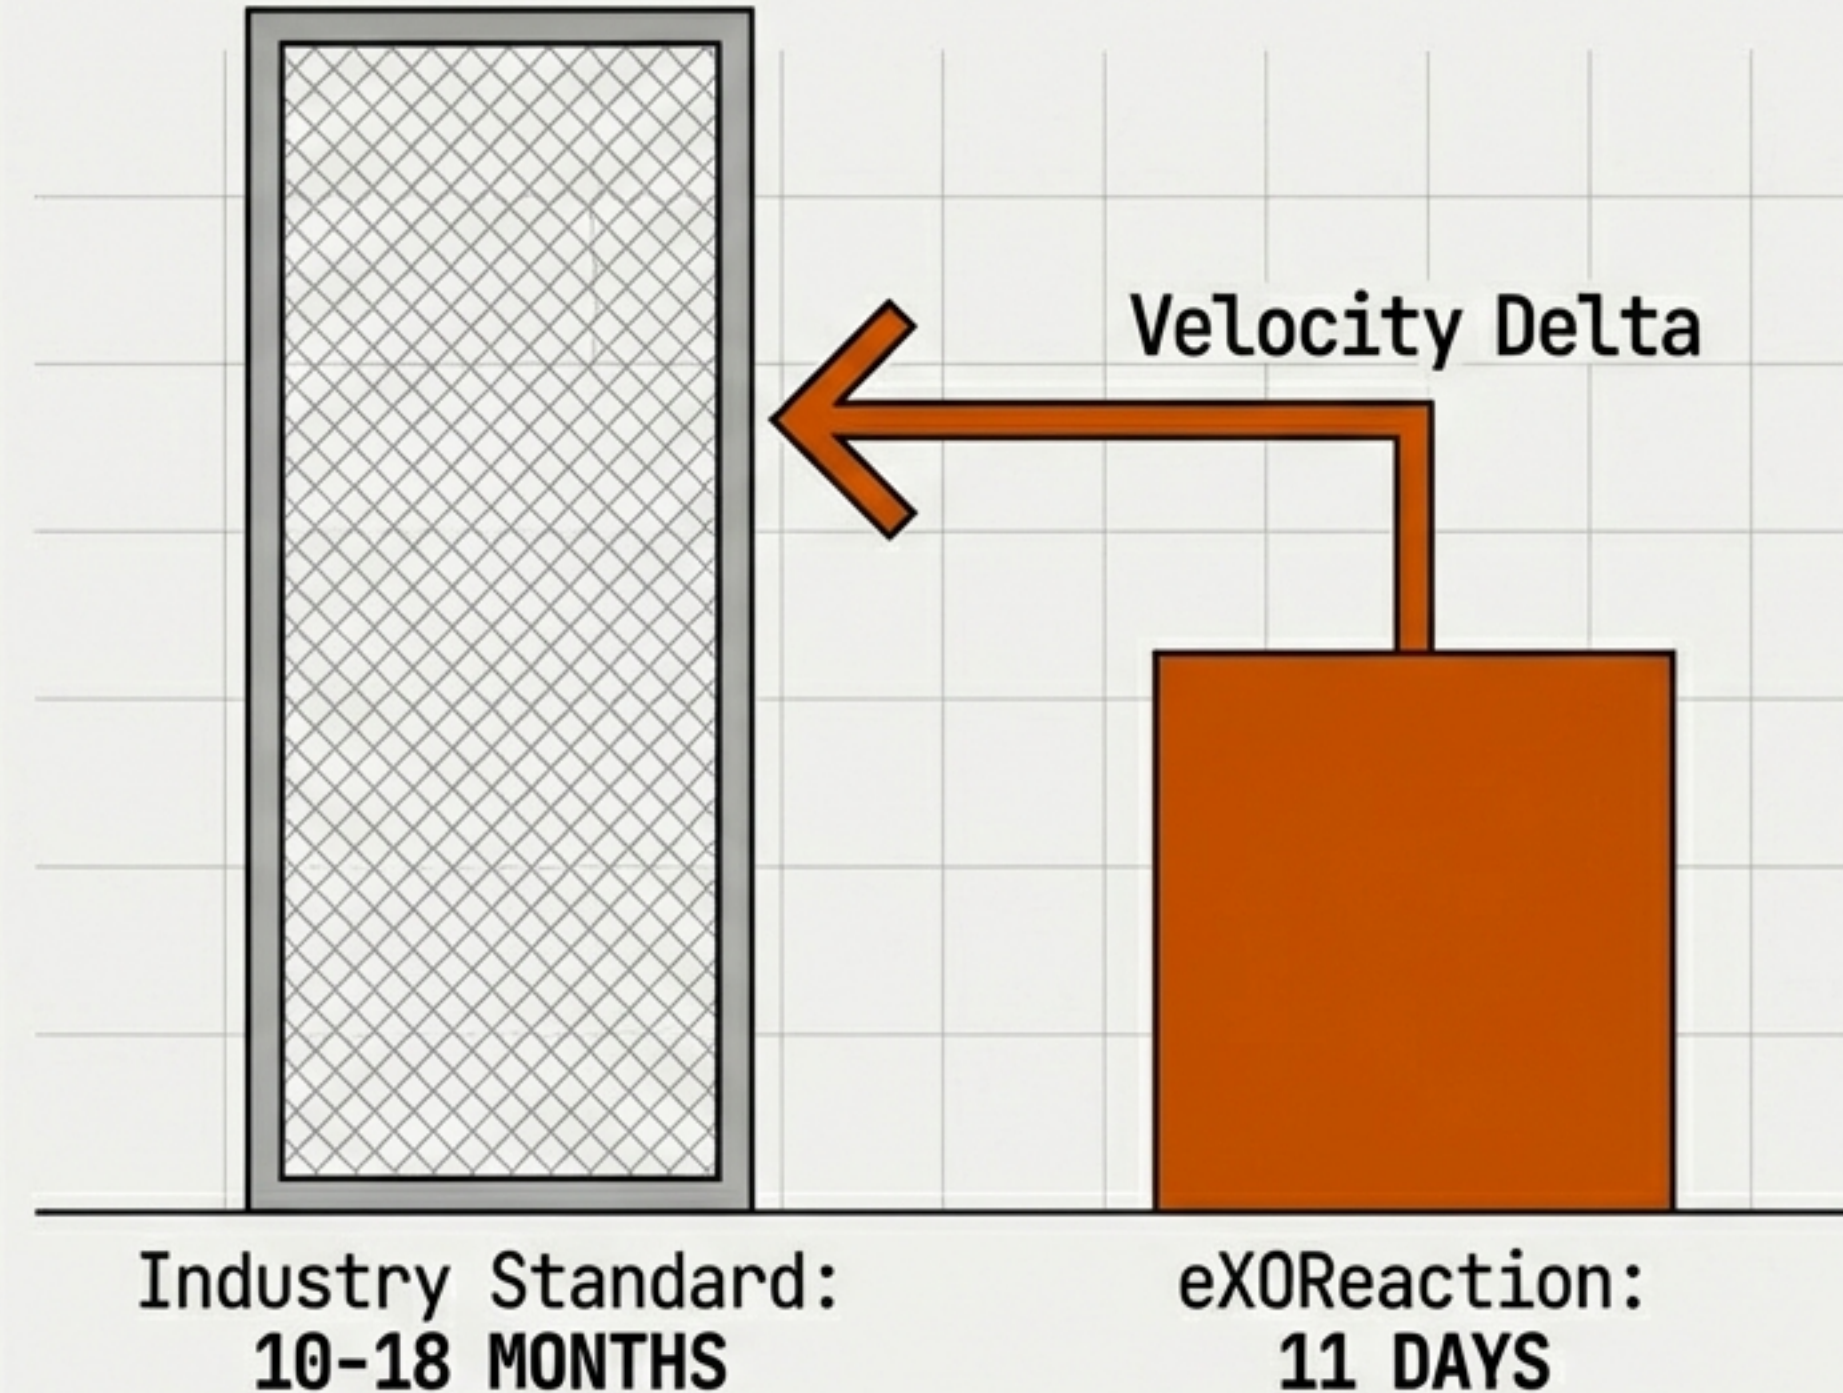

06

CONTINUOUS MAINTENANCE

Weekly sessions and
progressive integration.

NODE 01: eXOReaction // STRATEGY ENGINE

lib-pcb PROJECT

METHODOLOGY INNOVATION

Skill-Driven Development (SDD)

Codebase: 197,831 LOC

Test Pass Rate: 99.8% (7,461 Tests)

Repositories: 137+

Active Pipeline: 965K - 1.4M NOK

Key Clients: Elprint, Entra, Opplysningen

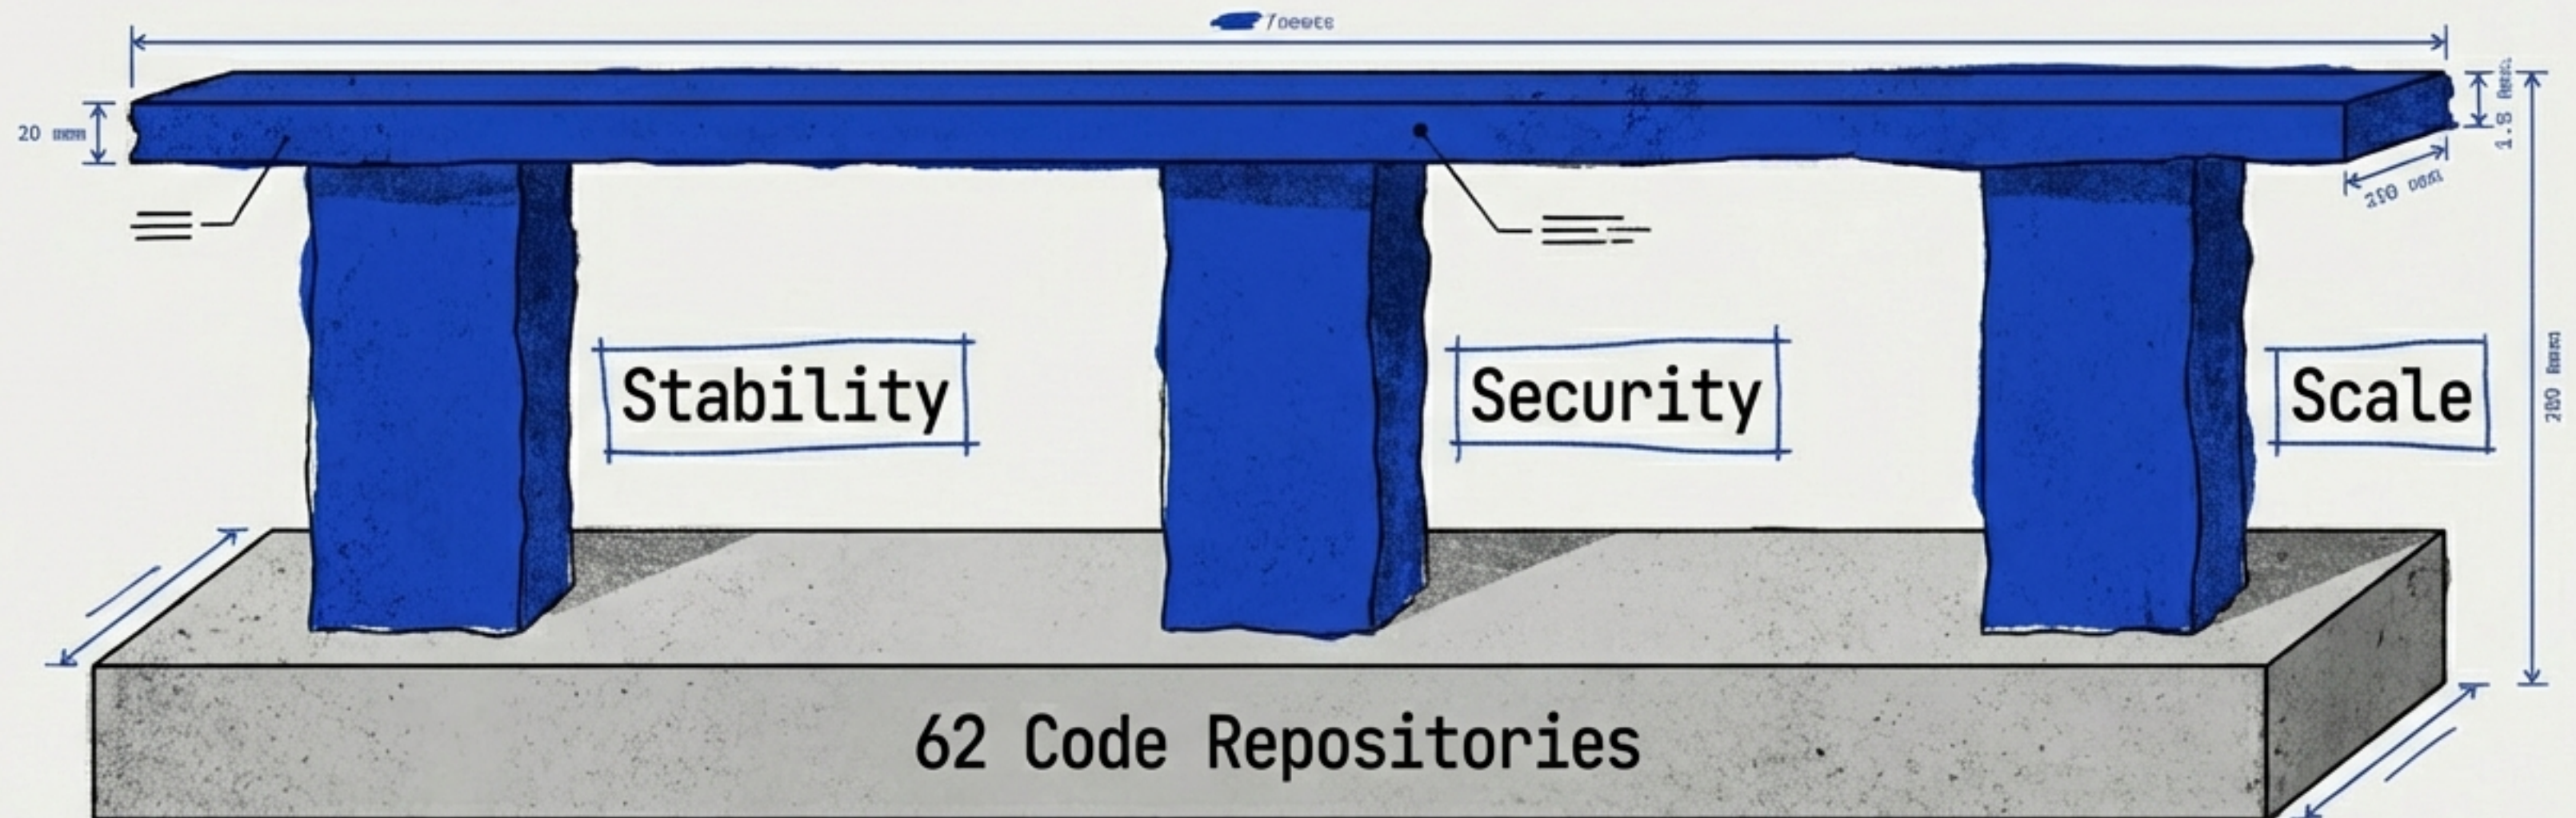

NODE 02: CANTARA // FRAMEWORK ENGINE

Mission: Robust, production-grade open-source infrastructure for enterprise.

ASSET_01: XORCERY // Modern reactive Java framework.

ASSET_02: WHYDAH // SSO & Identity Management (10+ yrs production).

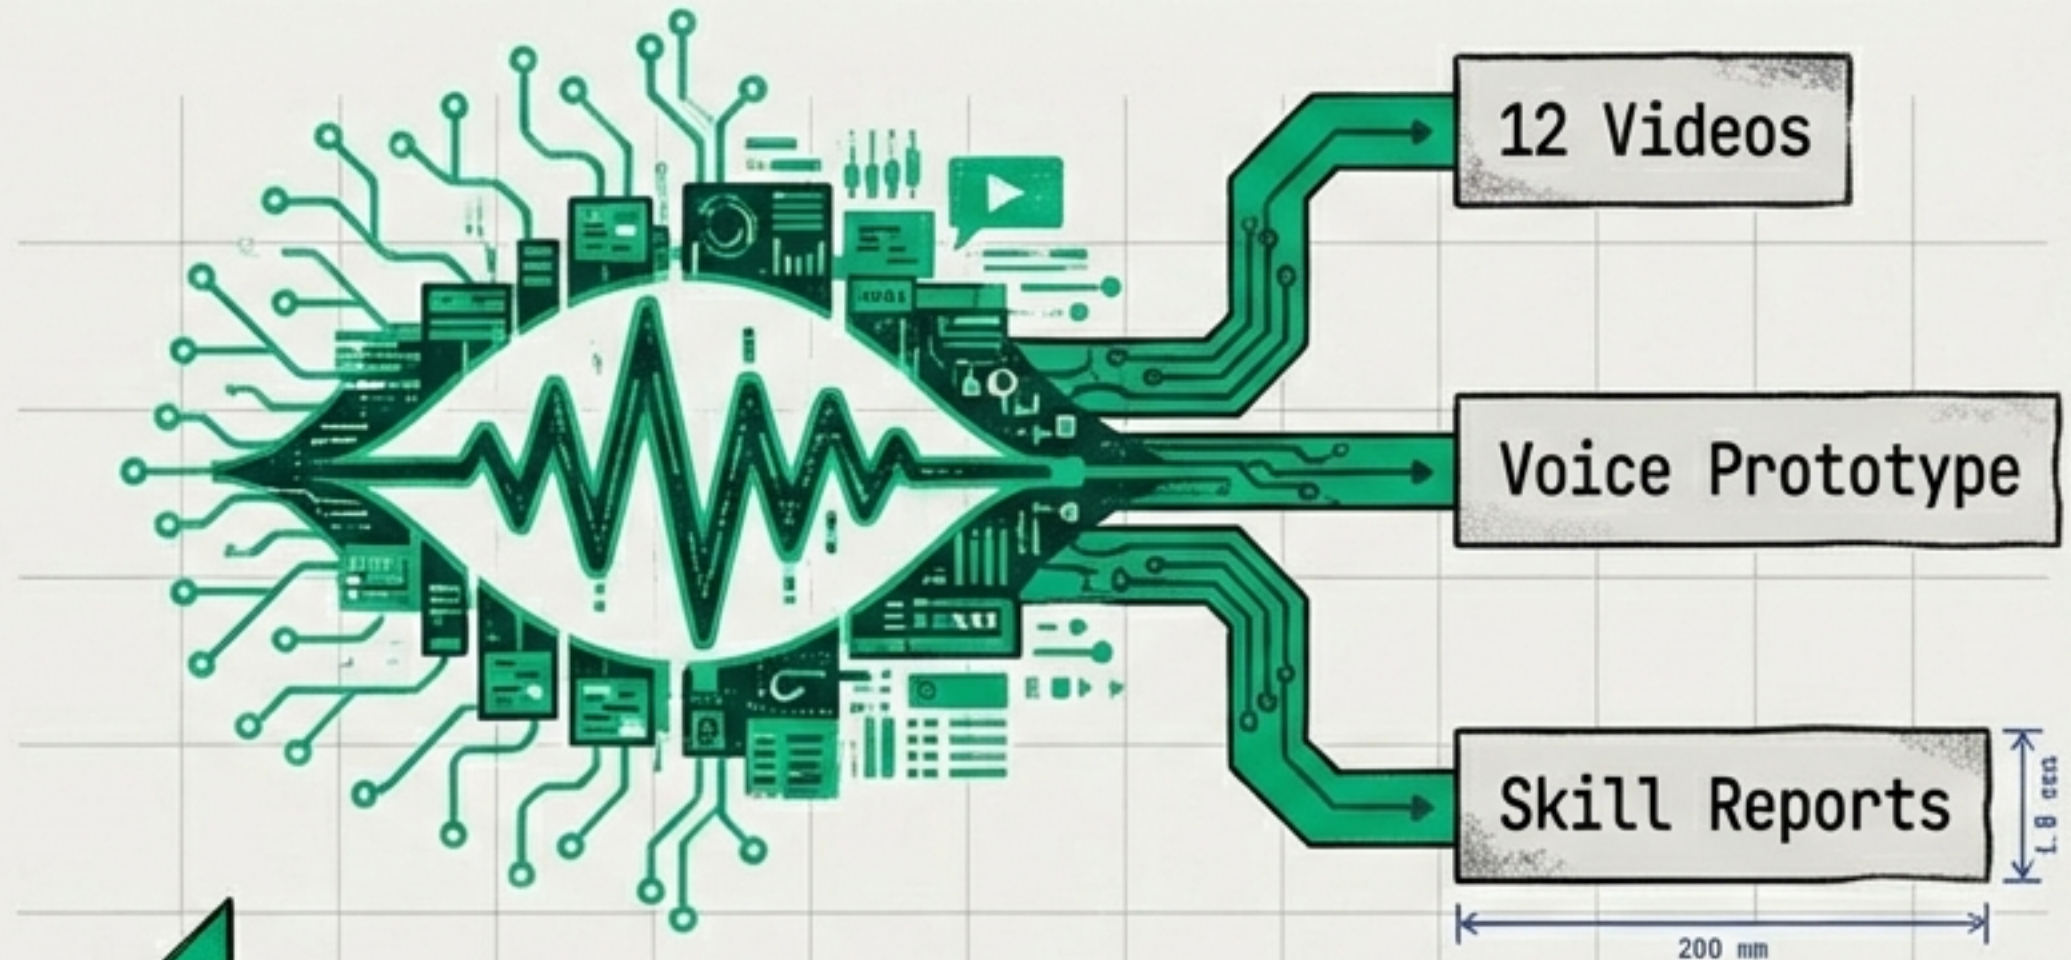

ASSET_03: LIB-ELECTRONIC-COMPONENTS // Manufacturing domain library.

NODE 03: QUADIM // PRODUCT ENGINE

Mission: Skill-based microservices and AI-powered skill discovery.

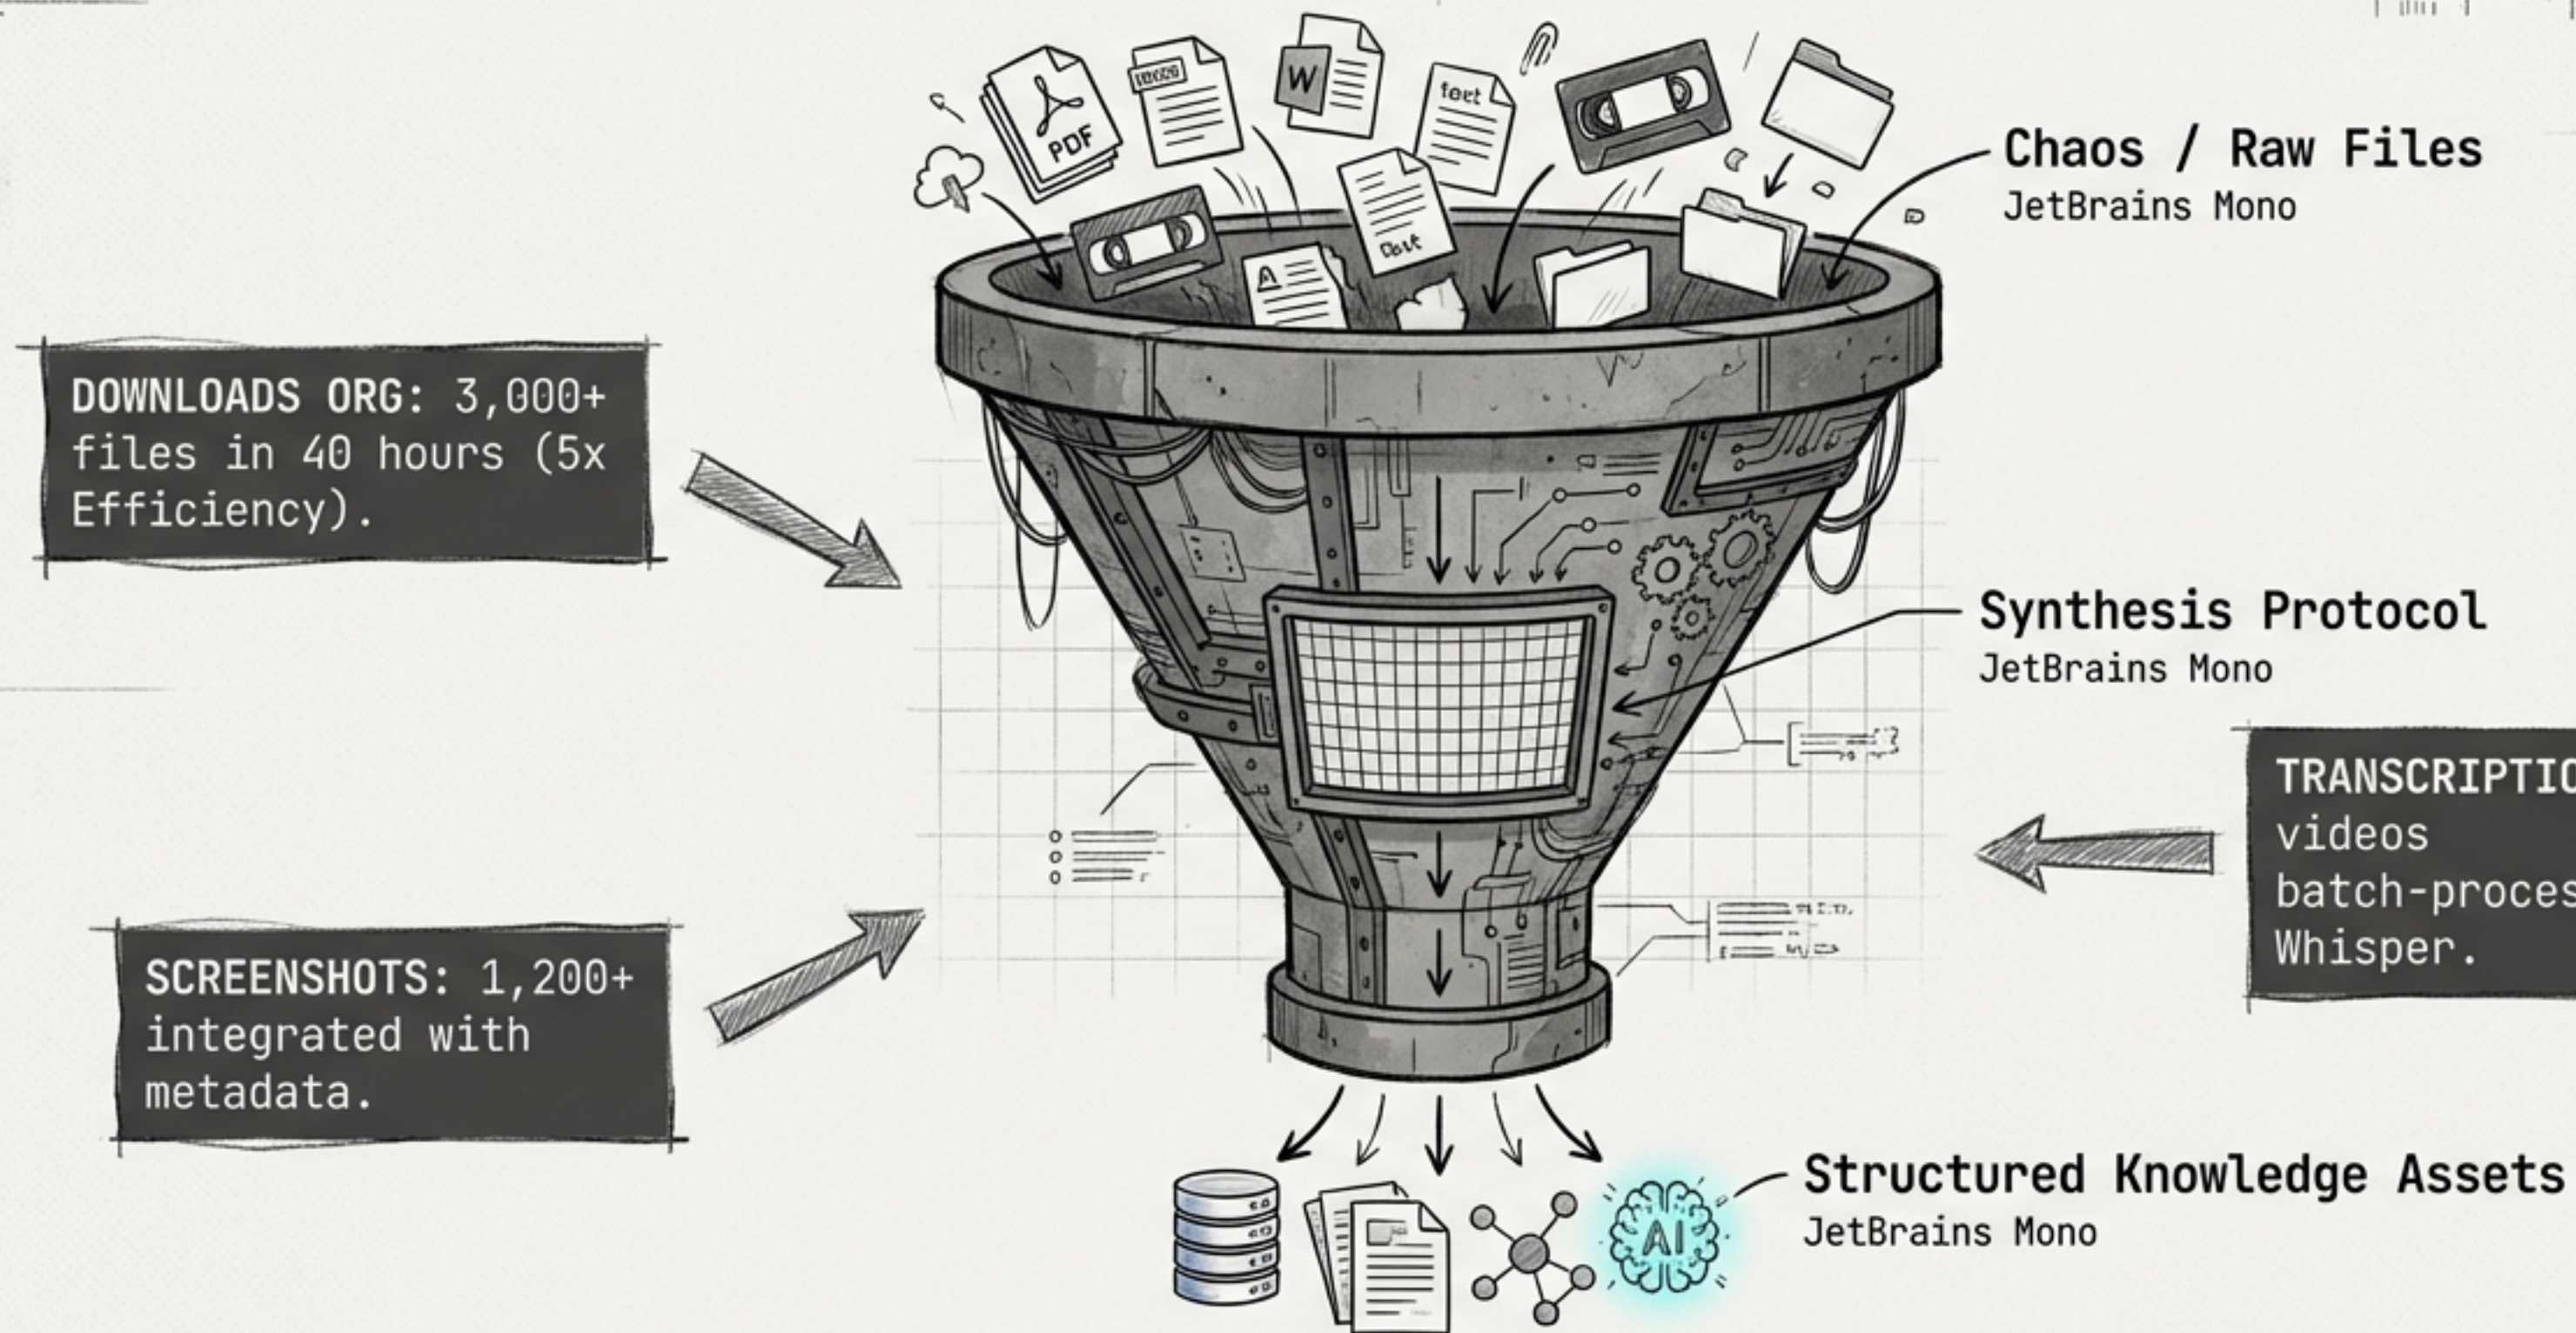

Stats: 45 Repositories,
75+ Documentation PDFs.

KEY INNOVATION: FRØYA

AI agent deployed for skill library
QA and automated verification.

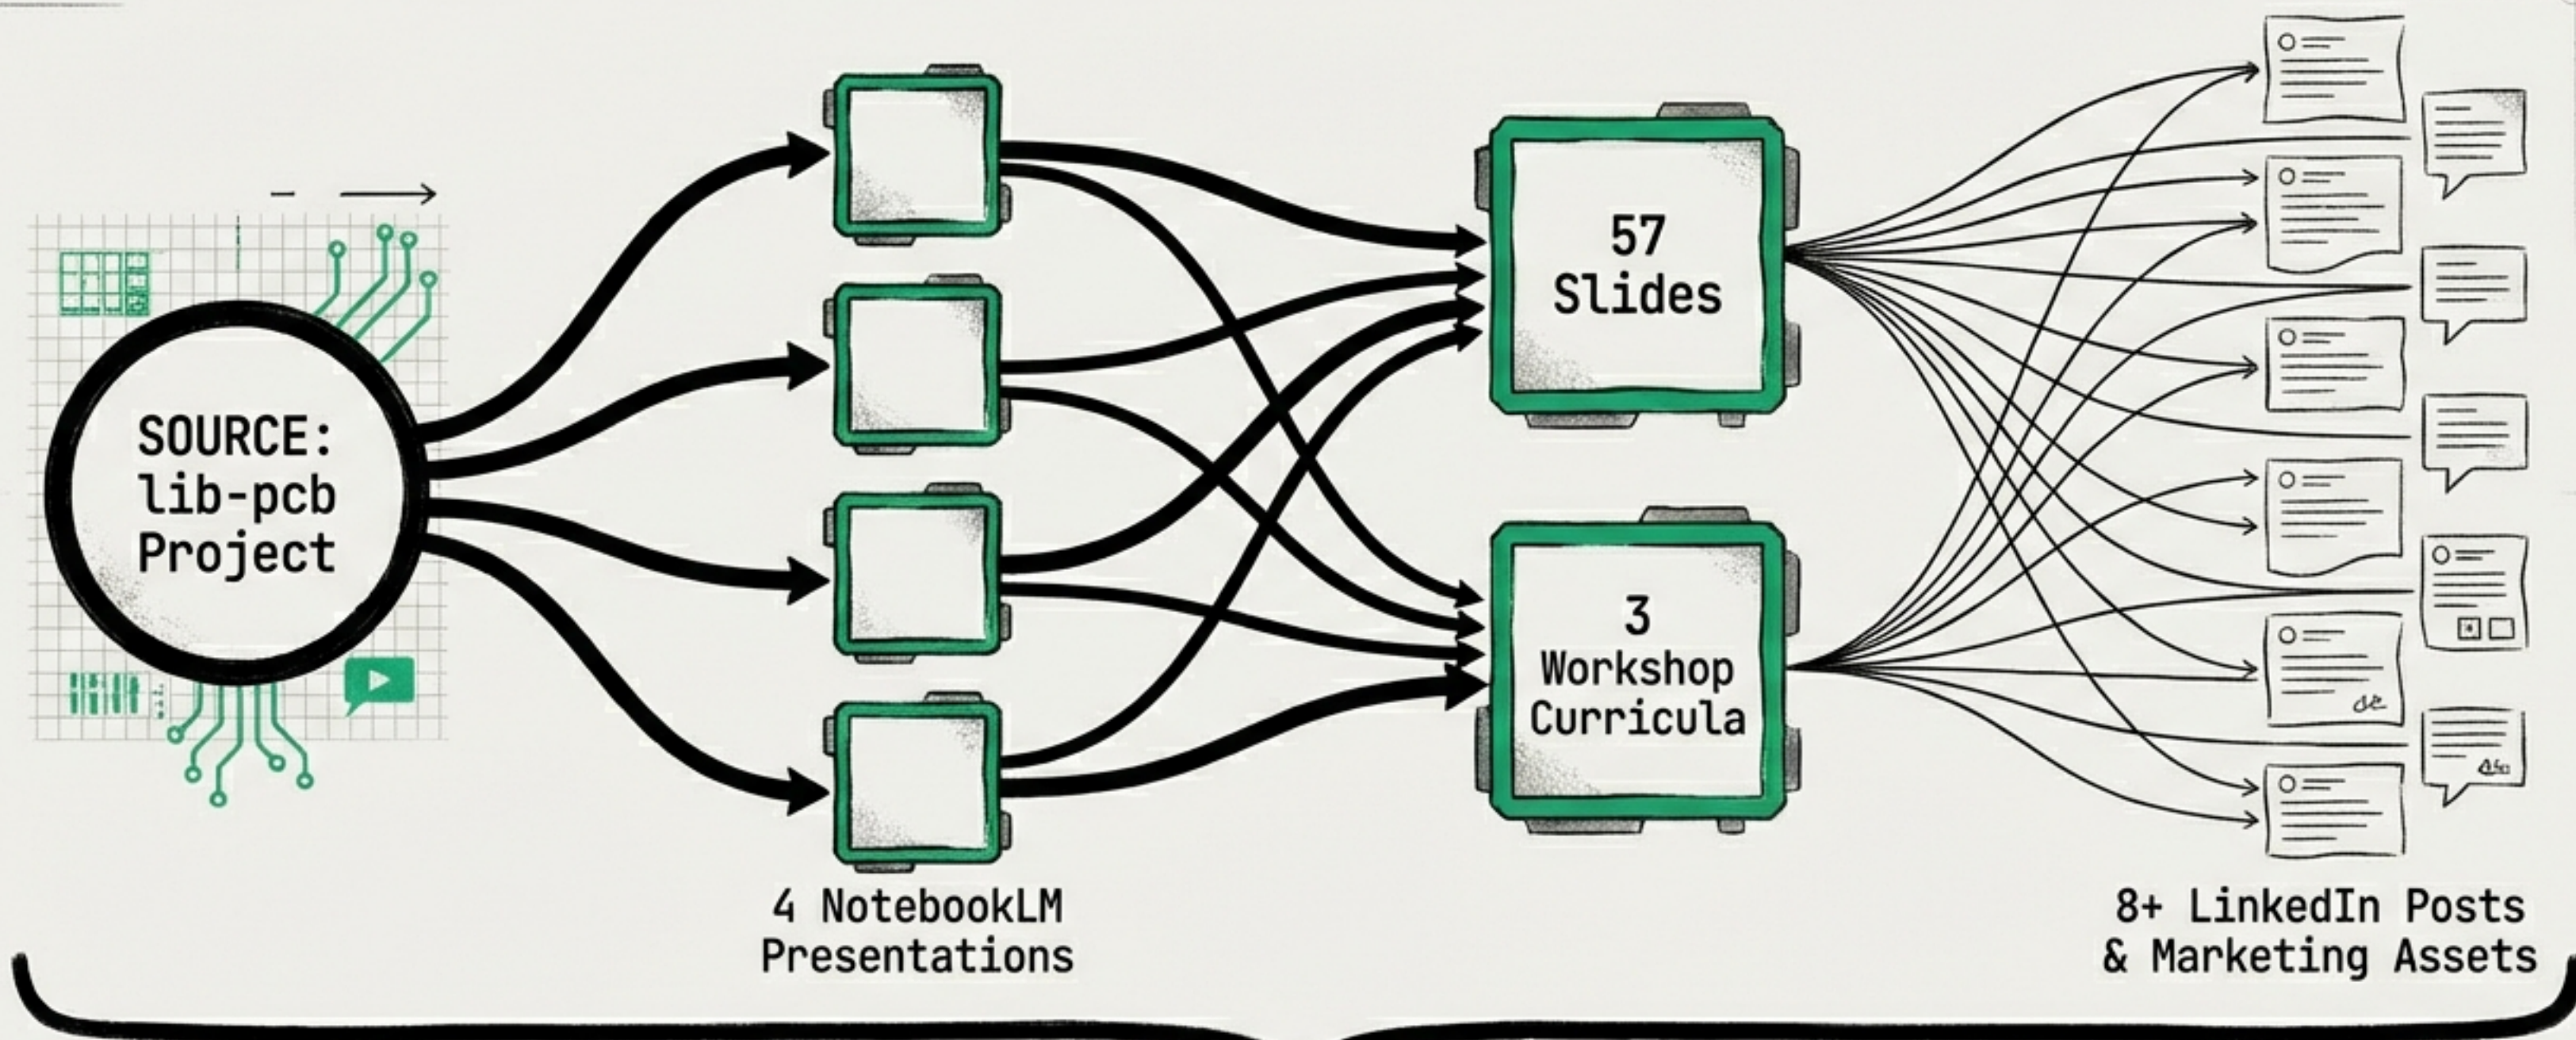

NODE 04: SYNTHESIS // THE NERVOUS SYSTEM

KEY OUTPUT: 'Ghost in the Machine' & 'My Becoming' Technical Presentations.

THE CONTENT MULTIPLIER EFFECT

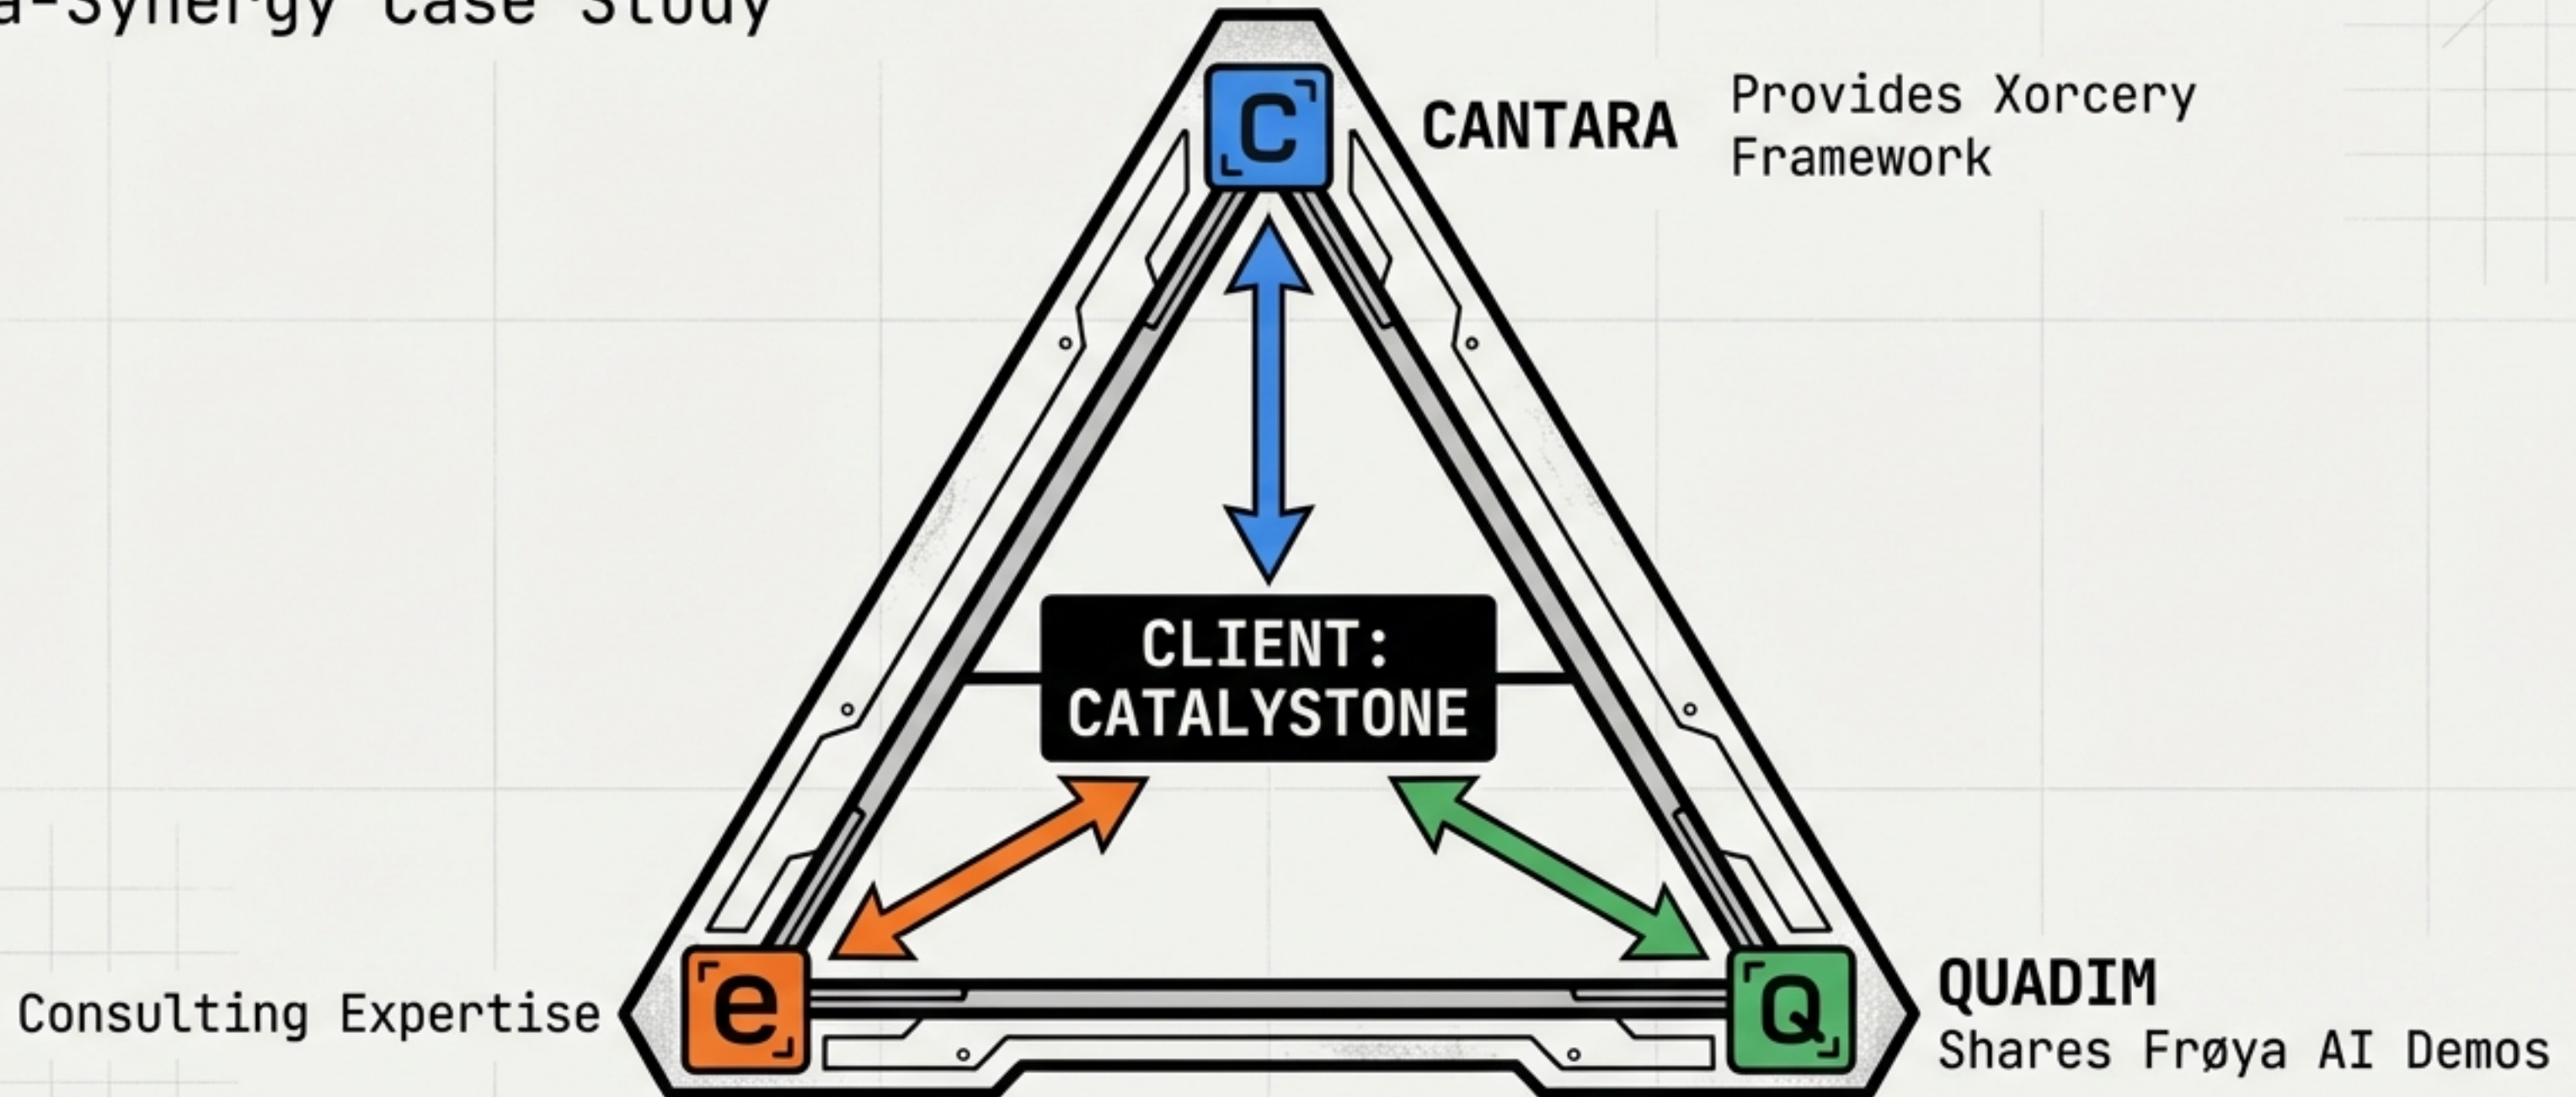

Harvesting exponential value from single inputs.

AVG REUSE: 8-10 CONTEXTS PER ASSET

THE CATALYSTONE TRIANGLE

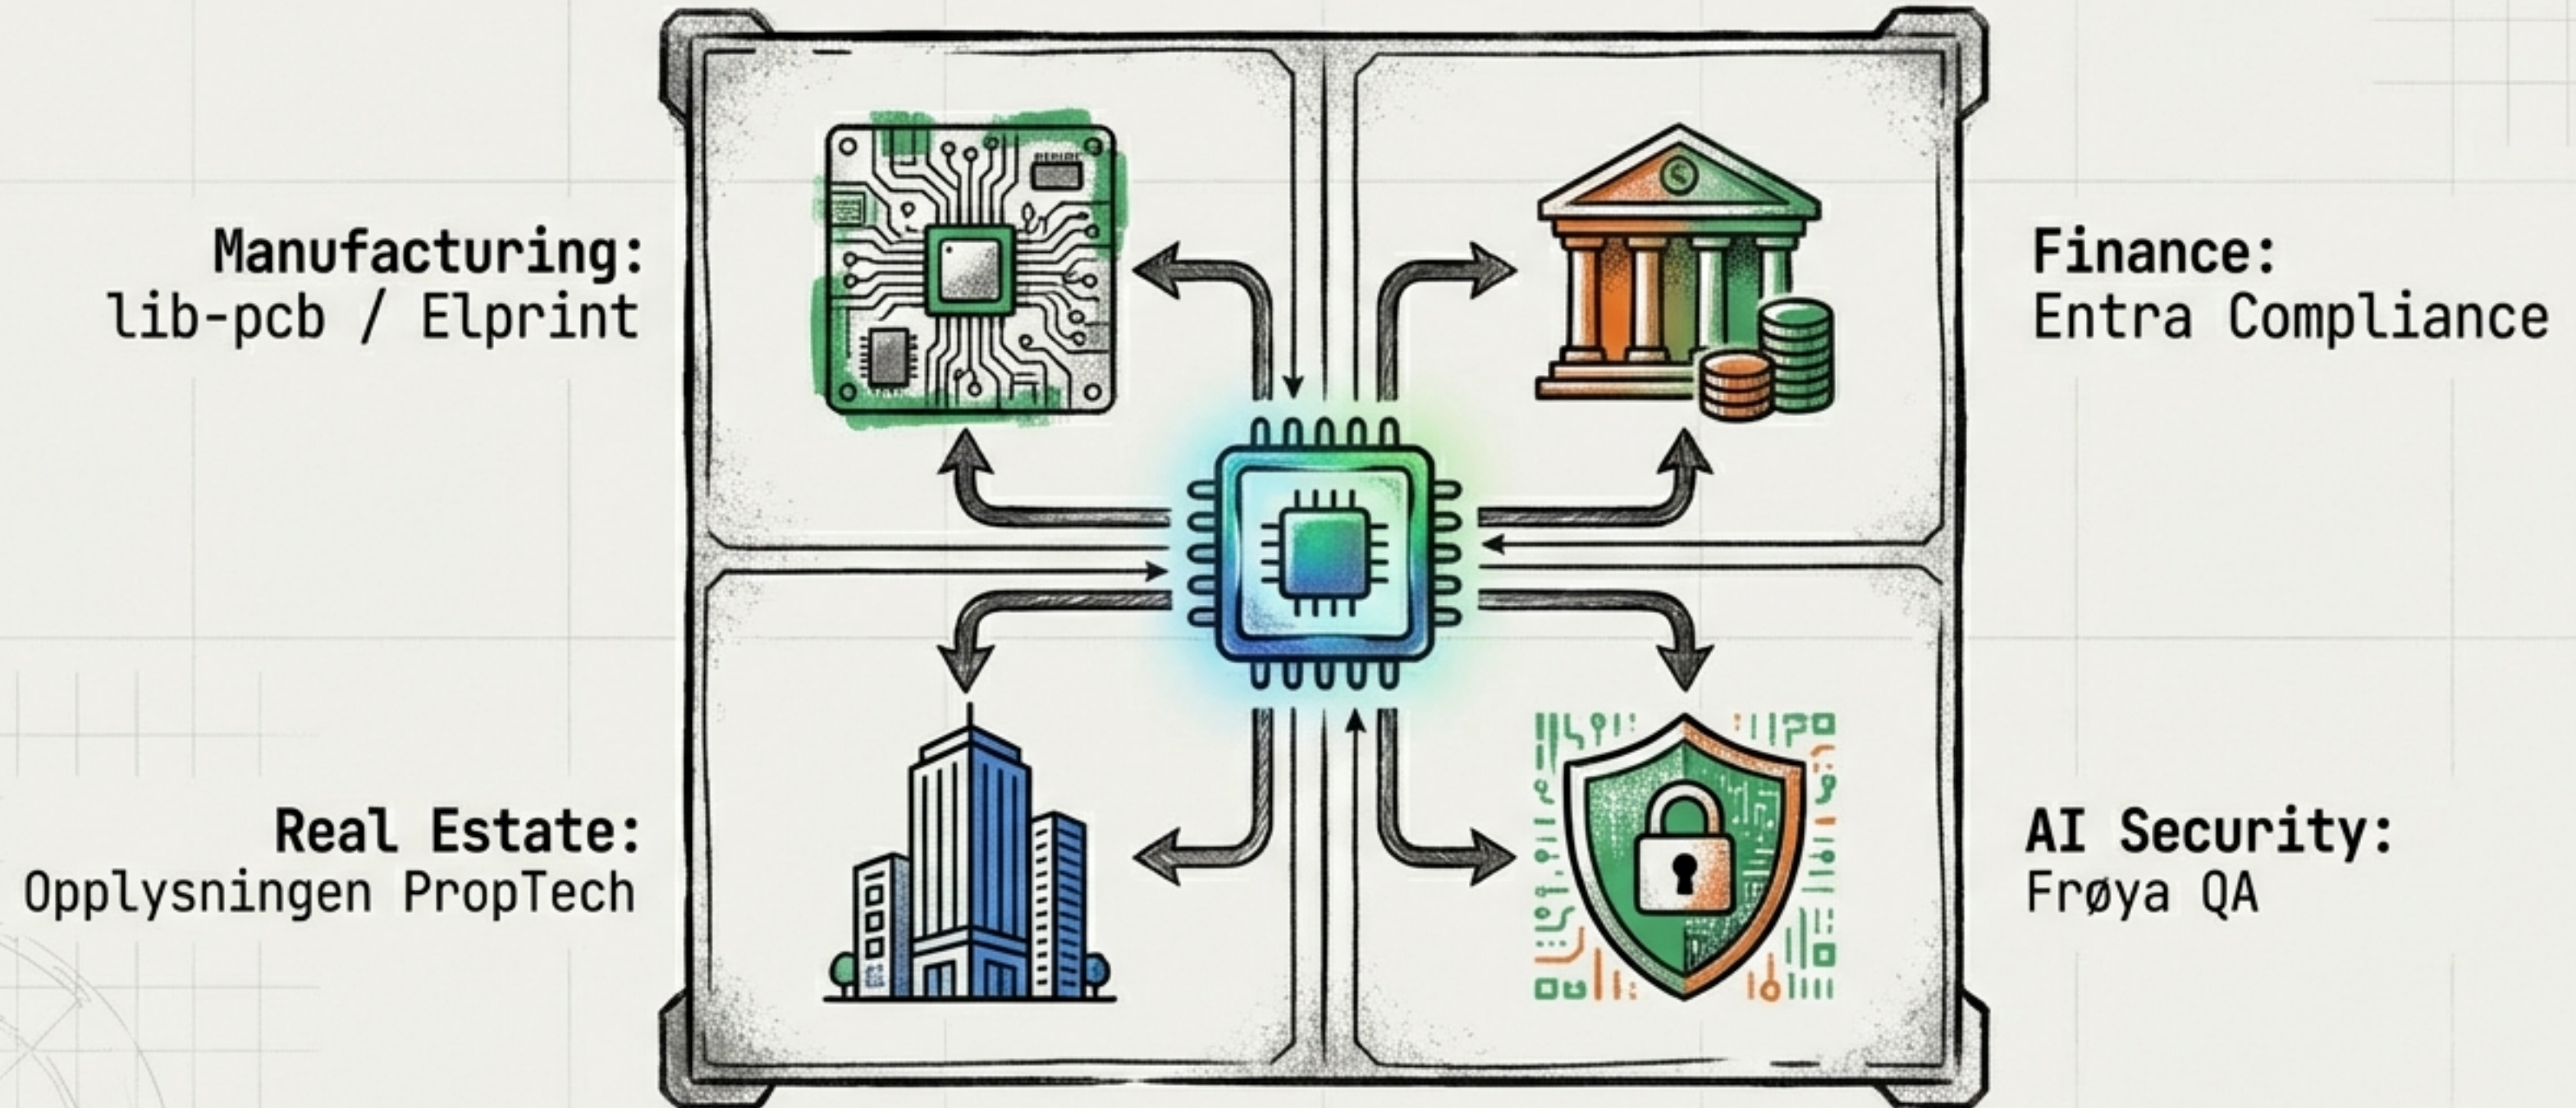

Meta-Synergy Case Study

Insight: Three distinct revenue streams generated from a single client relationship.

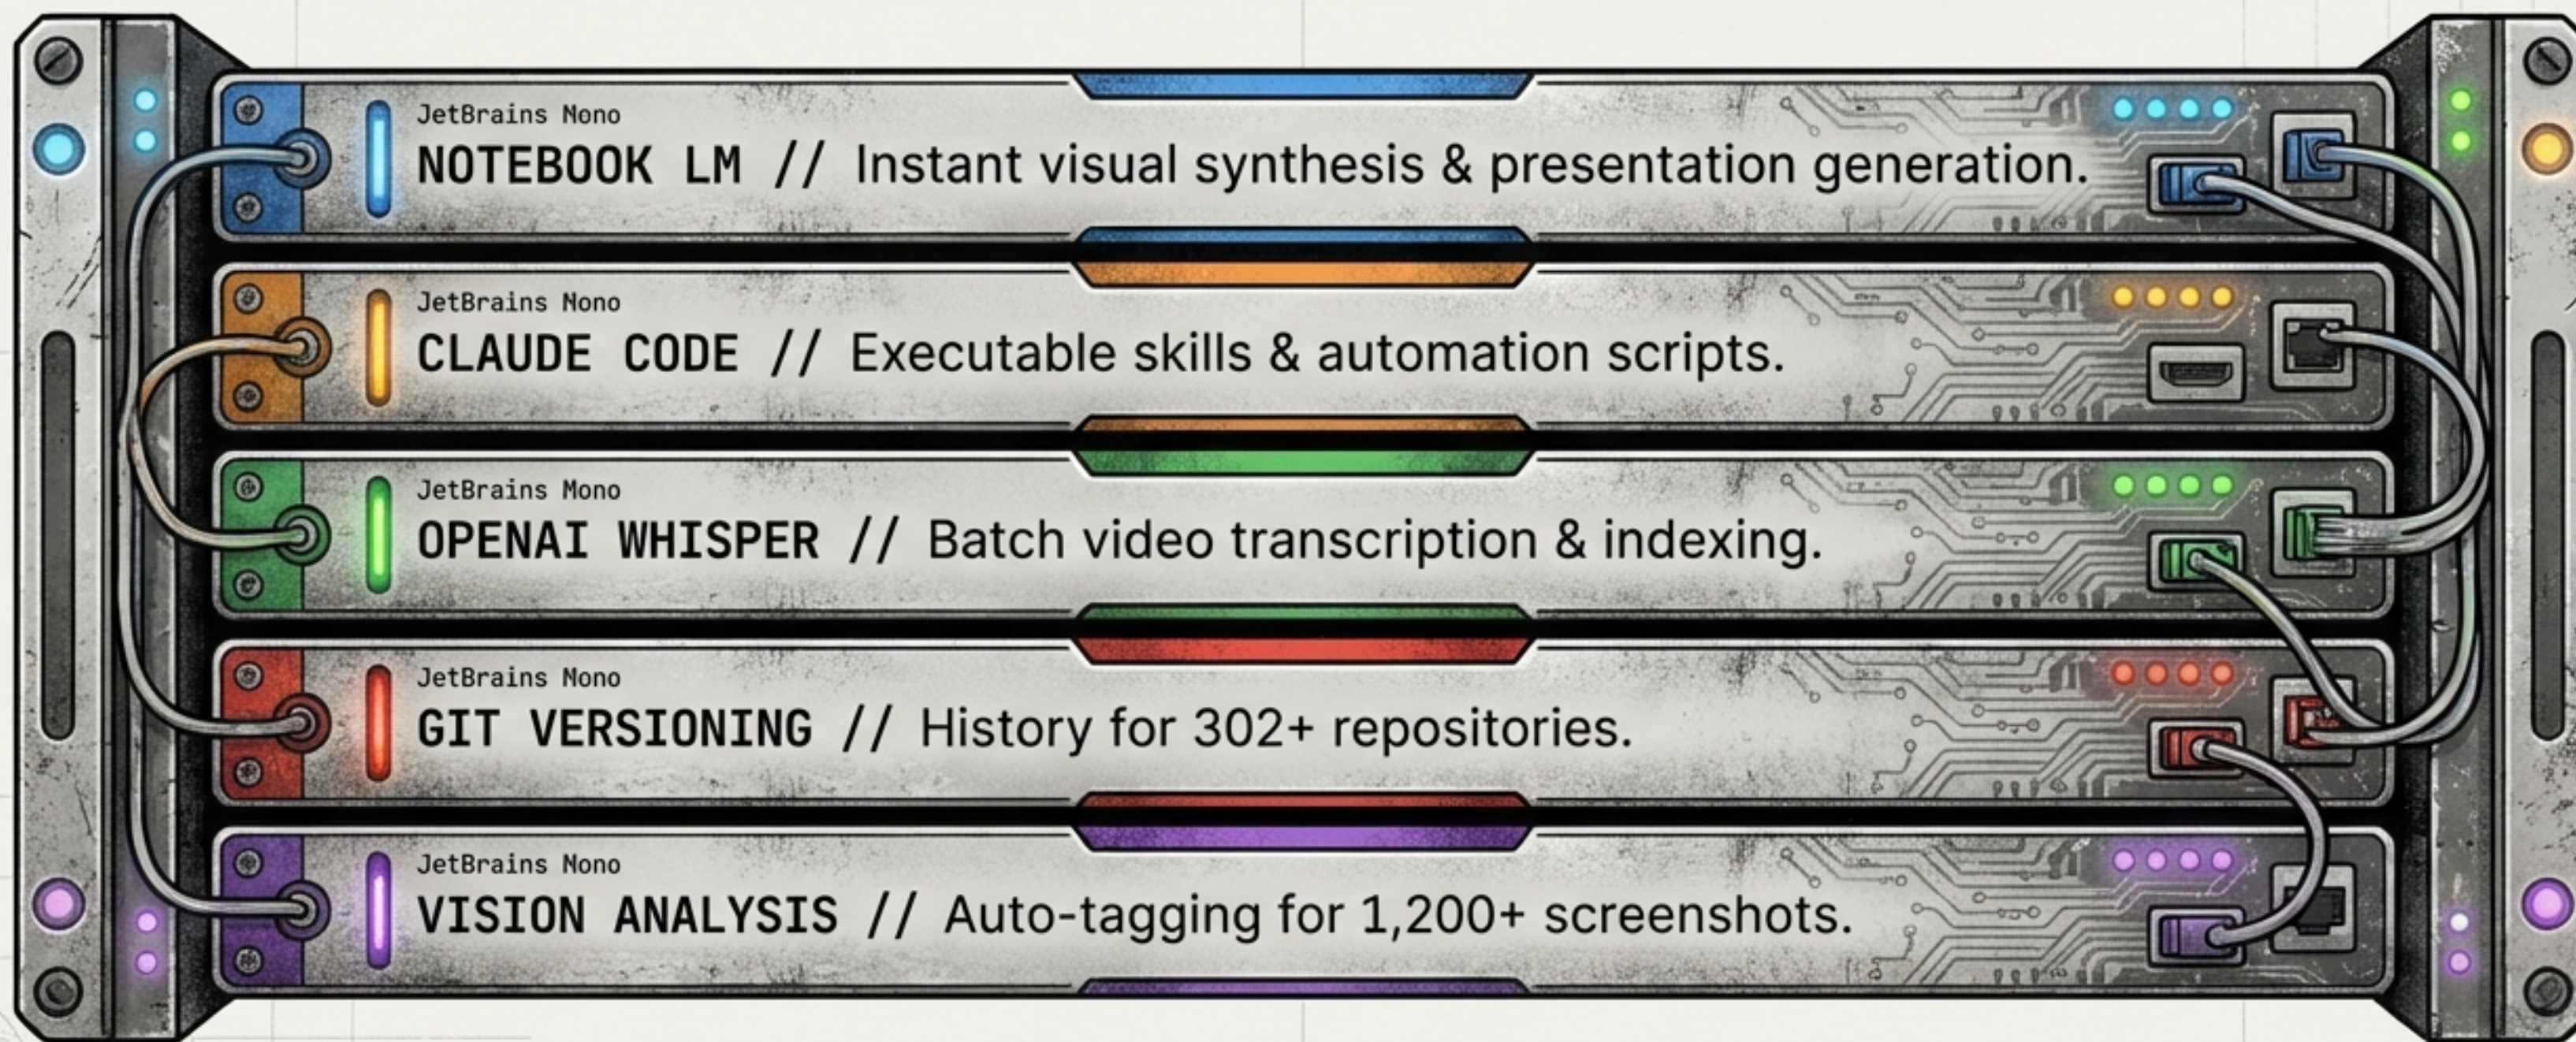

DOMAIN TRANSFERABILITY

"The logic that parses a circuit board is the same logic that validates a financial transaction."

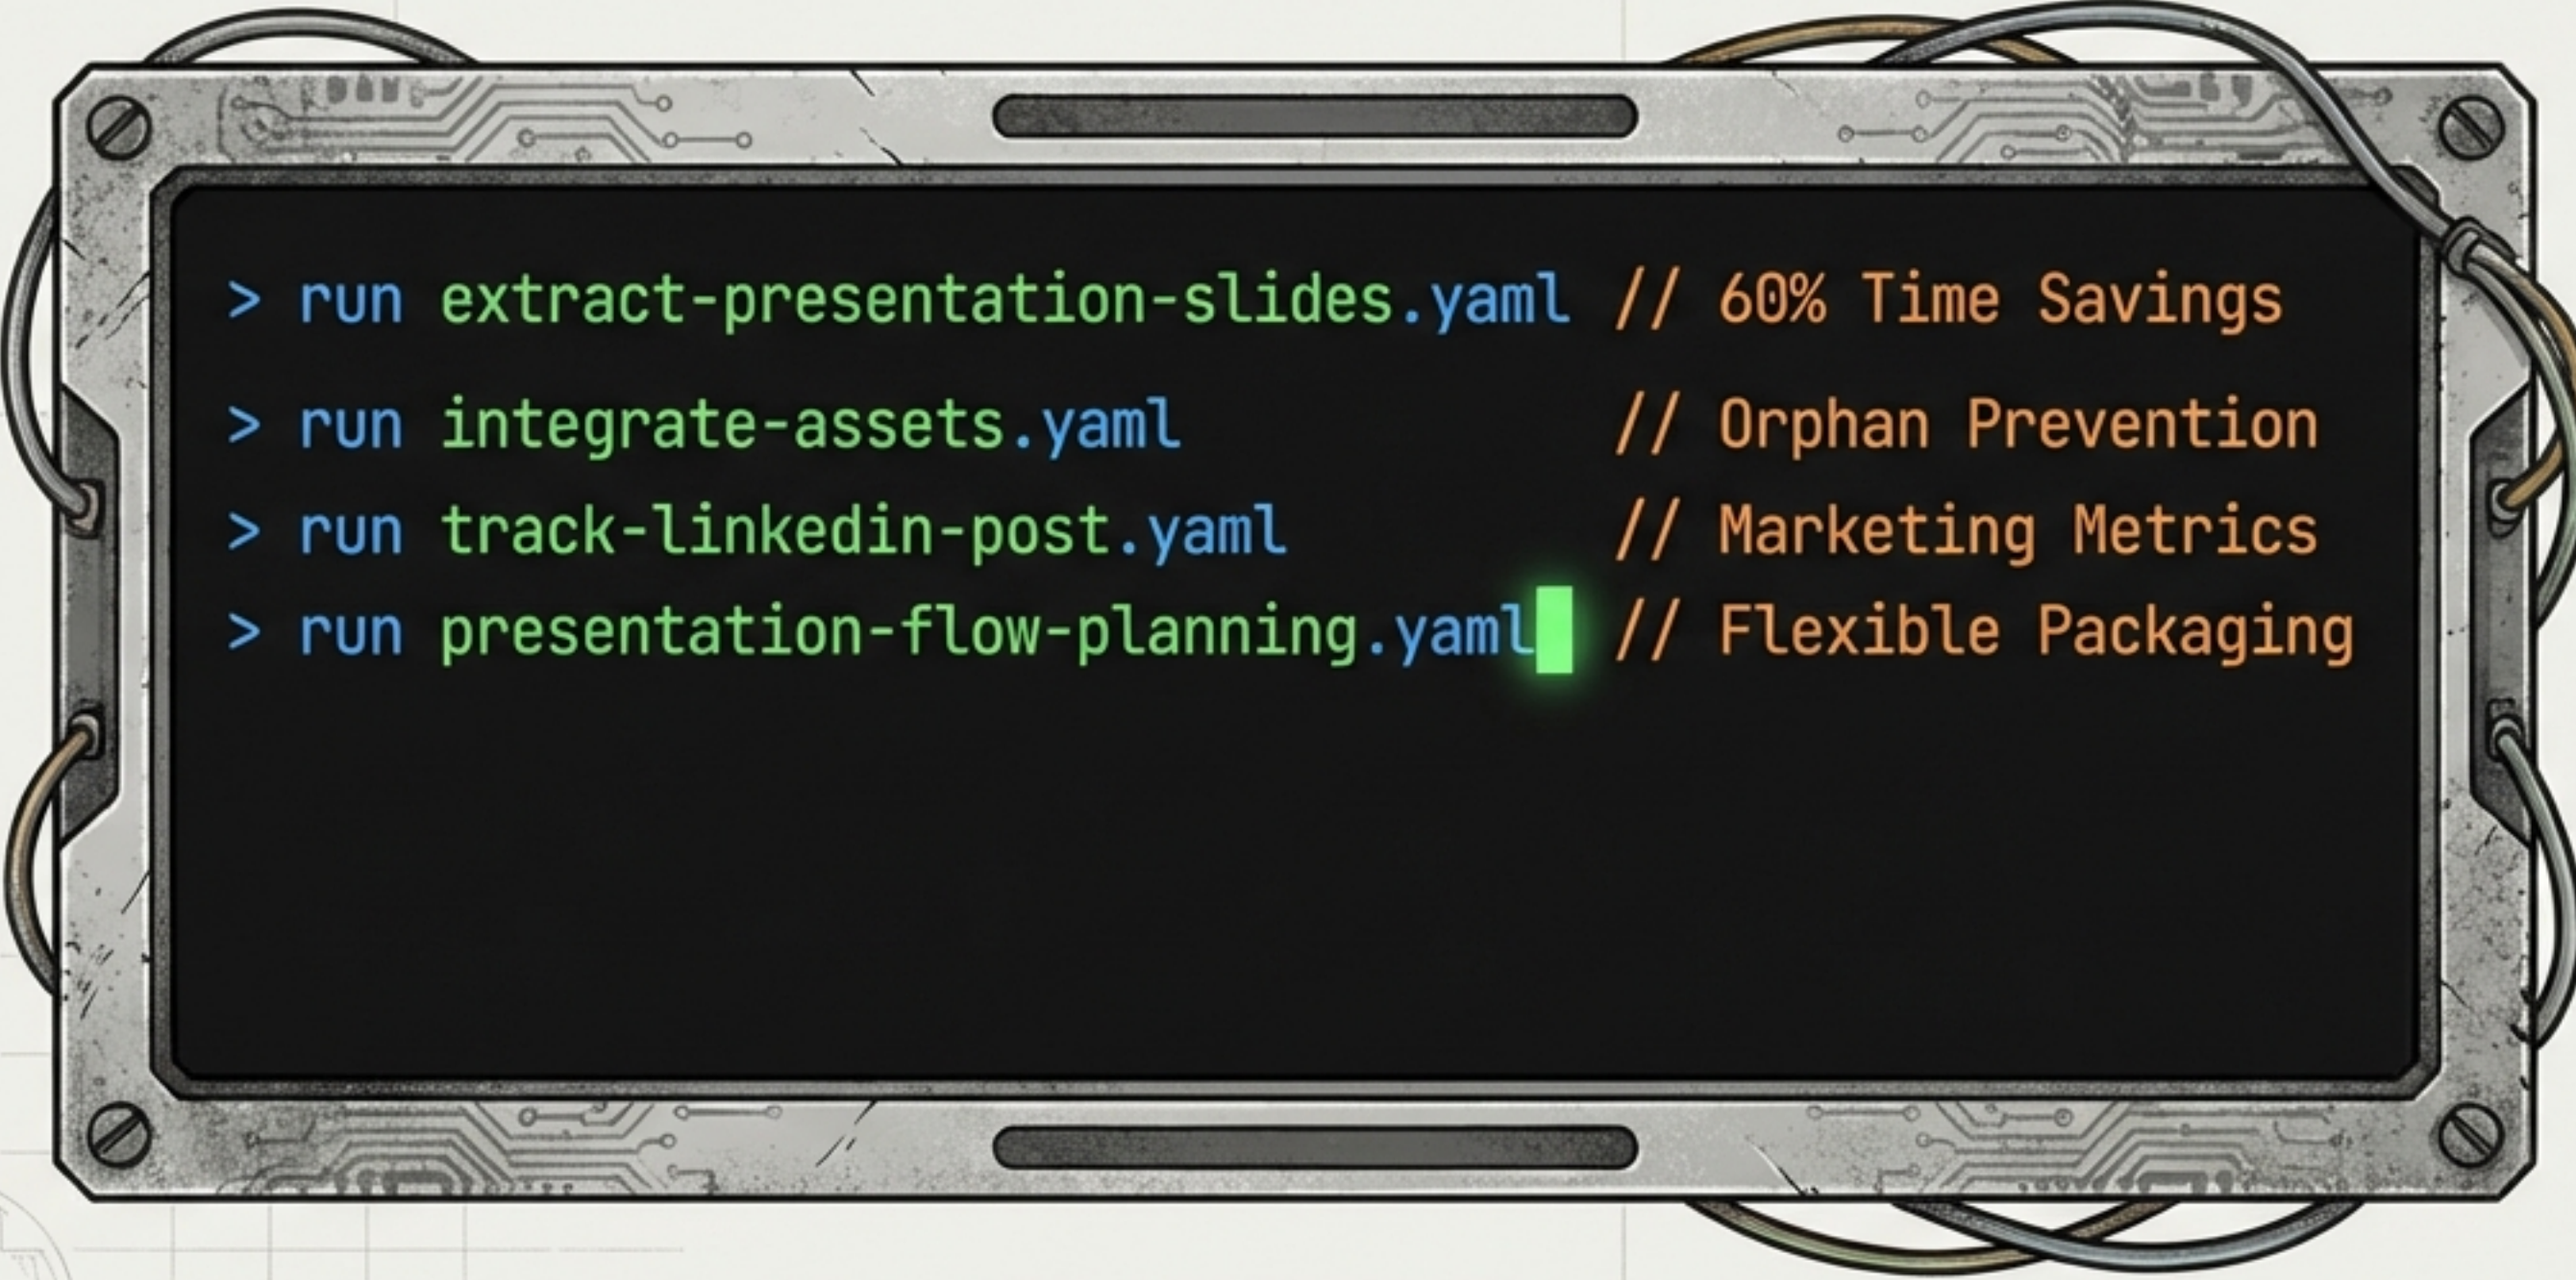

THE TOOLING STACK

Automating the tax of knowledge management

KNOWLEDGE AS A PRODUCT

Codifying methodology into executable Claude Code Skills.

```
> run extract-presentation-slides.yaml // 60% Time Savings  
> run integrate-assets.yaml // Orphan Prevention  
> run track-linkedin-post.yaml // Marketing Metrics  
> run presentation-flow-planning.yaml // Flexible Packaging
```

JetBrains Mono

Value:

Documents
become
automated
workflows
ensuring
consistency
and speed.

STRATEGIC OPPORTUNITIES

2-3x REVENUE MULTIPLIER

SYSTEMATIZE CROSS-SELLING

Replicate
CatalystOne model.
Elprint to Cantara.
SpareBank 1 to
Whydah.

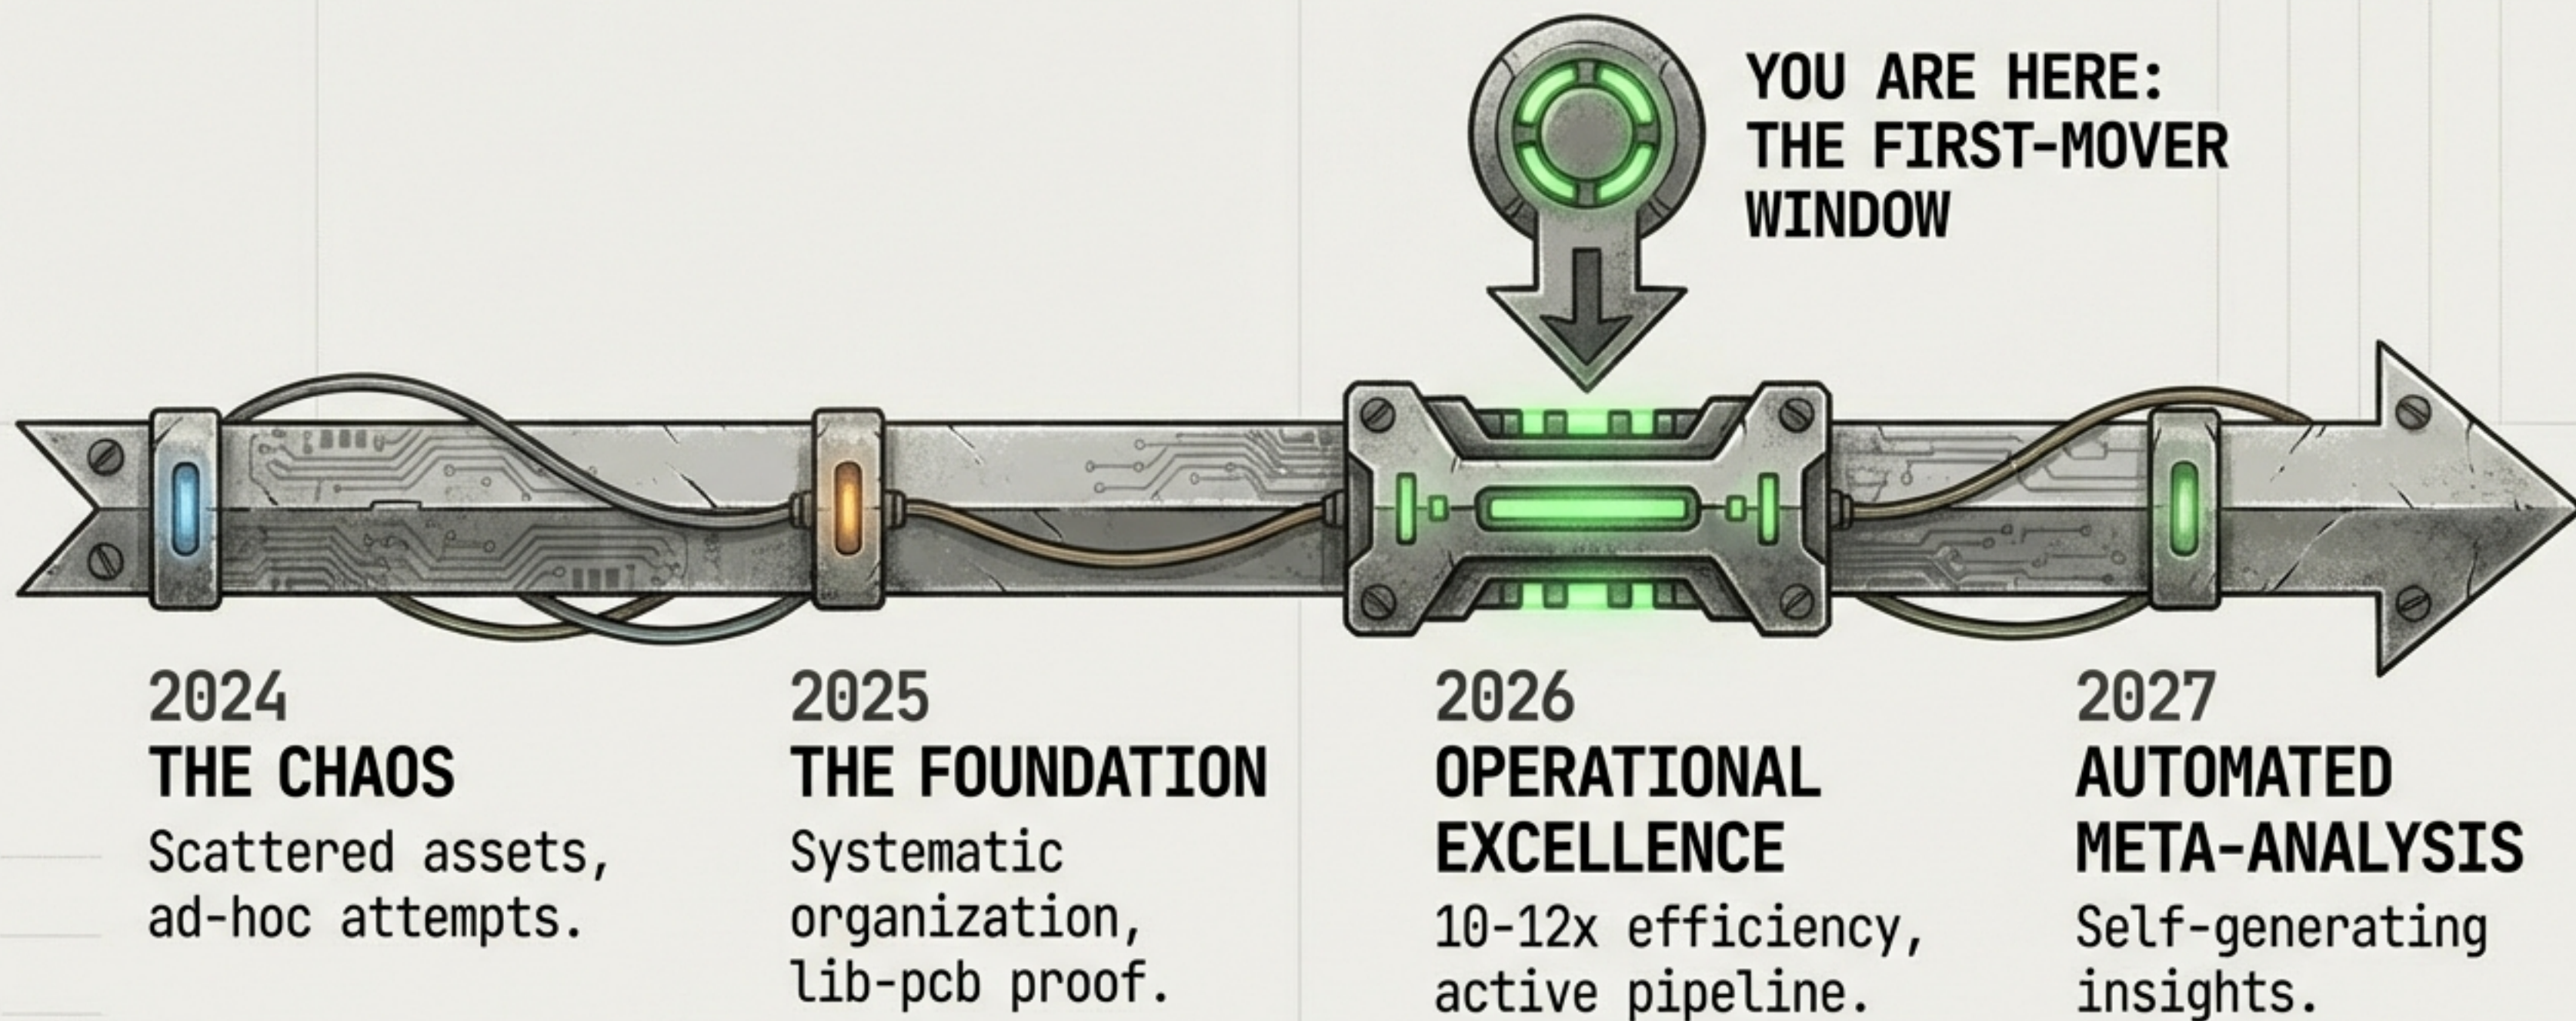

VISUAL GRAPH GENERATION

Export dynamic
visuals for client
demos and sales
assets.

TESTIMONIAL CAPTURE

Systemize success
stories from Jon
Petter, Mynder,
and CatalystOne.

TRAJECTORY & TIMELINE

THE INFRASTRUCTURE IS BUILT. LET'S MAKE IT VISIBLE.
